Re: Status of GER Capstone Proposal

The integrative capstone proposal has received approval from Provost Kassier and Chancellor Maimon as the "first fruit" of the GER Review. Attached you will find recommendations from Provost Kassier as to how best to fully answer the Accreditors criticisms regarding the "isolated islands" of our GER. We are therefore soliciting your cooperation in considering and implementing the suggestions made on pages 3-4 of the attached document. Please keep in mind the target dates are December 15 and January 15 as you prepare your proposals.
