Hiroko,

I will notify Academic Affairs that the Language faculty has met and is continuing to review and discuss your assessment plan and recommendations. I think that they will be happy that your department is actively involved in review of the outcomes assessment process. I can send forward any new material you send to me next week.

Bill

Dear Bill,

Thank you very much for your reply, and thank you very much for allowing us to have more time.

After reading the attached reports by the peer review committee, I feel it is necessary to discuss our OA plan again. We do not meet until next Wednesday, and I would like to ask you again for another extension. I am so sorry for causing any inconvenience due to this delay, but I think we need to revisit our OA plan again. Although we are not able to submit the plan on time, I would like to confirm that we are closely reviewing and working on this.

Thank you very much for your patience,

Hiroko Harada
