is proud to present

Forensic SCIENCE

Today

with George Taft

George Taft, co-author of *Forensic Science Today* (written with Dr. Henry C. Lee from the O.J. Simpson Trial), is a remarkable man. His accomplishments include using super glue fumes to uncover latent prints, which will be familiar to any fan of the *CSI* TV shows. Join us for an intriguing Powerpoint presentation and book signing. Career choices in forensics, crime scene investigation, and what you can do to cut down on crime will be highlighted.

Wednesday September 13
from 12:30 to 1:30pm
