

**Ad hoc Faculty Senate “Research Culture” Committee  
Report on March 27, 2006 Meeting**

- # Discussion of the survey centered on the two draft versions of the survey, both posted on the web for the committee members.
- # Based on member comments prior to and at the next (April 14) meeting, the survey will be revised.
- # Lauren Bruce has agreed to critique the revised survey.
- # Doug Causey will be as been requested to critique and/or expand the revised survey once it becomes available.
- # The survey will be finalized over the summer and distributed to committee members for a last round of comments and suggestions.
- # The intent is that the survey be distributed to faculty at UAA, UAF, and UAS in the early fall of 2006 with analysis of the data and a report to the Faculty Senate to follow.

A number of members of this committee have been notable for their many valuable contributions to the construction of this survey. In particular, Robert Boeckmann has, essentially, served as co-chair of this committee since Sharon Arajji regrestfully resigned from that position.

**The next committee meeting is scheduled for April 14, 2006, from 1:00-2:00 p.m.**

**Prepared by:** Mari Ippolito / 4-5-06
