Alaska Heart Institute Fellowships fund significant undergraduate biomedical research projects under the guidance of a faculty mentor. Each grant supports up to \$5,000 in project costs, tuition for up to 6 credits of HNRS 497 (Individual Research) and a \$1,500 student stipend upon completion of the project.

Proposals are accepted mid-October and early February. For specific deadlines visit:

<http://www.uaa.alaska.edu/ours/opportunities/research/ak-heart-institute.cfm>

Proposals should be emailed to [research@uaa.alaska.edu](mailto:research@uaa.alaska.edu).

Please visit the *Opportunities* section Office of Undergraduate Research and Scholarship website for complete details on the application process: <http://www.uaa.alaska.edu/ours>
