Alumni Events

Two key Alumni events are being planned for the spring. The first is an Alumni Appreciation luncheon to be held in early March where the Alumni Association will be recognizing an outstanding teacher, student and staff from the University. During Homecoming we will be holding a gala event to recognize the outstanding Alumni of the year. This will be a more formal event, with sponsorship for the purpose of generating funds to expand the scholarship program.

Legislative Affairs

A reception for Anchorage Legislators will be held on December 9, 2009, for the purpose of getting to know our legislators prior to the beginning of Session on January 18.

Clubs

The Engineering Alumni club held a reception this past fall. Turnout was good and it is anticipated that future events will be held like this encouraging the various disciplines to join in having their own receptions.
