

Graduate Academic Board

Audio: 786-6755 | ID: 284572 | Agenda

March 9, 2018

9:30-11:30am

Physical location: ADM 204

Audio Conference: 786-6755, Passcode: 284572

[Link to Live Skype Meeting](#)

I. Roll Call

[] Hsing-Wen Hu (COE)	[] Greg Protasel (FS)	[] Ajit Dayanandan (CBPP)
[] Cindy Knall (COH)	[] Ruth Terry (LIB)	[-] Vacant (CTC)
[] Terry Nelson (CBPP)	[] Sam Thiru (CAS)	
[] Anthony Paris (CoENG, Chair)	[] Jervette Ward (CAS)	

Ex-Officio Members

[] Helena Wisniewski (OAA)
[] Lindsey Chadwell (Office of the Registrar)
[] Elisa Mattison (Graduate School)
[] Alyona Selhay & Owen Tucker (Enrollment Services, Publications and Scheduling)

II. Approval of Agenda (pg. 1-4) 9:30

III. Approval of Meeting Summary (pg. 5-7) 9:31

IV. Administrative Reports (Written) 9:32

A. Vice Provost, Helena Wisniewski

B. Interim University Registrar, Lindsey Chadwell

i. [Dates & Deadlines](#)

C. Graduate School, Elisa Mattison

D. GAB Chair, Anthony Paris

V. Program/Course Action Request/Policy - Second Readings

VI. Program/Course Action Request/Policy – First Readings

	Del	Purge List First Read (pg. 8-14)	9:34
11/17/2017	Chg	HS A698: MPH Practicum-Project	9:35

2018-2019 Graduate Course Purge List Responses

ANTH A690	Retain per Kristen Olgilvie	There is a one class on the purge list that we would like to request be removed. ANTH A690 is listed; we have it right now in the CIM system with revisions to support a curriculum update our department has initiated. It will be stacked with A490 and offered periodically.
CTE A695	Retain per Tara Smith	CTC would like to request retention of CTE A695 Internship. Although the graduate programs that it used to be a part of have been deleted, CTC is still evaluating the need for specific courses and would like to retain the option for graduate projects/experiences that this course provides.
EDFN A631	Retain per Paul Deputy	The College of Education wishes to retain the following course and asks that they not be purged. These courses meet the requirements of our programs and we intend to offer them in the future.
EDRS A668		
PSY A601	Retain per James Fitterling	See attached memo
PSY A603		
PSY A605		
PSY A606		
PSY A616		
PSY A617		
PSY A658		
PSY A671		
SWK A641	Retain per Mary Dallas Allen	The course SWK A641 Child Trauma is on the 2018 course purge list, but the UAA School of Social Work MSW program would like to retain this course. Although it has not been taught since summer 2011, we do anticipate offering it again in the near future. Course content on childhood trauma is essential for MSW students, especially those who are interested in social work practice with children and families. Thank you for considering this request.

PHD PROGRAM IN CLINICAL-COMMUNITY PSYCHOLOGY

DATE: January 18, 2018

TO: UAA Office of the Registrar, Curriculum and Scheduling

THRU: Eric Murphy, Ph.D., Psychology Director 

FROM: James M. Fitterling, Ph.D., UAA Teach-out Program Director 

CC: Anissa Hauser, UAA Program Coordinator, Ph.D. Program in Clinical-Community Psychology
Vivian Gonzalez, Ph.D., UAA Ph.D. Program Director

SUBJ: Retention of doctoral psychology courses listed on the UAA Purge List 2018-19

1. I am writing to provide justification to retain all doctoral psychology courses on the UAA Purge List.
2. At the present moment, our Ph.D. Program in Clinical-Community Psychology continues to be a joint program with UAA and UAF. As such, our courses are taught by program faculty from either UAF or UAA. The following courses listed on the UAA Purge List are required courses that in fact, have been taught each academic year; however, since they have been taught by UAF faculty (not UAA faculty), they have been identified as courses on the UAA purge list. These courses include:
 - a. PSY A602-AS, Native Ways of Knowing
 - b. PSY A603-AS, Alaskan and Rural Psychology
 - c. PSY A605-AS, History and Systems
 - d. PSY A616-AS, Program Evaluation I
 - e. PSY A617-AS, Program Evaluation II
 - f. PSY A658 Qualitative Analysis

This has been a recurring issue for such courses offered in the joint program, but taught by our UAF-based program faculty.

3. The three remaining courses listed on the purge list are electives. One was offered at UAF in AY 16-17; and the other two have not been taught by either UAA or UAF faculty in recent years:
 - a. PSY A601 – AS, Integration Seminar
 - b. PSY A606 – AS, Native Ways of Healing (last taught in AY 16-17 at UAF)
 - d. PSY A671 – AS, Grant Writing

Nevertheless, I request that they remain listed in the next edition of the course catalog. Our Joint Ph.D. Program in Clinical-Community Psychology is based on a scientist-practitioner model. As such, it is essential that our doctoral students, particularly those pursuing careers at universities and academic health centers, are trained in grant writing to be successful researchers in the behavioral sciences. However, given the size of our program and the other major training foci of our program, these courses cannot be offered frequently. Therefore, I request that they be removed from the purge list and remain in the course offerings in the next edition of the UAA course catalog.

4. There are additional reasons why it is important for these courses to remain in our catalog. First, the Board of Regents had approved the discontinuation of the UAF portion of our joint Ph.D. program, with the entire program consolidated at UAA. The joint program is now in a teach-out phase, as the UAA-based program has started training its first UAA student cohort. The Psychology Department has hired two new faculty members, both of whom have workload assignments in this consolidated Ph.D. program. Second, the Ph.D. program is preparing its self-study for reaccreditation with the American Psychological Association under a newly published set of accreditation standards. We need the flexibility of offering the full array of courses, including those listed on the purge list, to ensure that our program (both joint and UAA-based segments) is reaccredited.

Interdisciplinary Studies Degree – Master of Arts/Master of Science

*Graduate School, Bragaw Building, Suite 368, (907) 786-1096, uaa_graduateschool@alaska.edu
<https://catalog.uaa.alaska.edu/graduateprograms/interdisciplinarystudies/>*

Students who are interested in studies that cross traditional disciplinary boundaries are offered a unique degree that offers flexibility, creativity, and collaboration. Today's students are faced with an increasing demand for interdisciplinary approaches to research and education, and may be interested in the Interdisciplinary Studies Program in either Arts or Sciences. The degree is overseen by the Graduate School and combines coursework in two or more disciplines/programs and may involve more than one academic college.

Program Objectives

Interdisciplinary Studies (INDS) Masters' degrees make it possible for graduate students interested in combining disciplines to create a degree program to suit their needs, when no existing graduate program does. The program of study for each student will be designed by the student and the faculty mentors.

This degree supports the learner-centered, discovery-driven, and globally engaged missions of UAA by meeting individual student needs, promoting academic collaboration across the university, and producing scholars with a global approach to solving problems.

Student Learning Outcomes

In keeping with the above objectives, the expected student learning outcomes of the MA/MS program in Interdisciplinary Studies include the ability to:

1. Demonstrate an understanding of the relationship between the various disciplines incorporated into the Graduate Studies Plan (GSP);
2. Demonstrate proficiency of research methodology and research design, or creative activities appropriate to the interdisciplinary nature of their work through the culminating experience;
3. Identify and apply the relevant theoretical framework of the disciplines incorporated into their Graduate Studies Plan;
4. Demonstrate application of specific knowledge in the particular area of study associated with the thesis or project;
5. Demonstrate mastery of their subject matter on their Graduate Studies Plan; and
6. Demonstrate knowledge of the careers, professions, and/or future academic opportunities available to them upon completion of their studies.

Admission Requirements

A prospective student must first contact the Graduate School before beginning the INDS application process to ensure eligibility, viability of their proposed plan of study, and to discuss their educational goals.

Students must satisfy the Admission Requirements for Graduate Degrees and deadlines. All students must also submit the following to the UAA Office of Admissions:

1. Submission of the official scores from the GRE General Test if the "home" program requires the test. The "home" department is that of the primary graduate advisor;
2. Current resume or curriculum vitae;

3. At least two letters of recommendation that address the academic qualifications of the applicant to complete graduate level work for the degree program; and
4. A proposed INDS Graduate Studies Plan (GSP) of at least 30 credits, signed by the proposed primary graduate advisor. The GSP must designate a concentration or emphasis area of study. It must also include the proposed graduate committee, who agree to serve. The proposed committee must represent at least two of the programs of courses listed on the INDS GSP. At least one committee member must be from an existing graduate degree program at UAA.

Admission decisions will be based on having a robust and scholarly GSP that meets the above requirements. Both the GSP and admission recommendation must be approved by the Graduate School Dean.

Graduate Studies Plan (GSP) Requirements

- Must have a minimum of 30 credits;
- Minimum 21 credits of 600-level courses including at least 2 courses from a minimum of two different disciplines;
- One research methodology course; and
- Must have at least 3 credits, and no more than 6 credits, of thesis or project.

Thesis Expectations

Students who undertake a **research-based thesis** should be able to demonstrate that they can:

- Develop a testable hypothesis or explore research questions;
- Locate, retrieve and utilize appropriate information;
- Read, understand, and critically review the primary literature;
- Utilize appropriate methodology to conduct a research-based study;
- Analyze results using qualitative or quantitative techniques;
- Compare their results to previous studies;
- Explain the contribution of their study to the broader field of existing knowledge;
- Communicate the importance of their work in an oral presentation; and
- Communicate the importance of their work in written format.

Project Expectations

Students who undertake a **project** should be able to demonstrate that they can:

- Develop a plan for the project or develop a plan for a scholarly or creative work;
- Locate, retrieve and utilize appropriate information;
- Read, understand, and critically review the primary literature or previous creative works;
- Utilize appropriate methodologies to conduct an applied study, implement a project, or utilize appropriate skills to produce a creative work;
- Analyze results using qualitative or quantitative techniques when appropriate;
- Compare their results to previous studies when appropriate;
- Explain the contribution of their work to the broader field of existing knowledge or to previously created works; and
- Communicate the originality of, as well as the independent thinking and rationale for their work, in written format.

Graduation Requirements

- Satisfy the General University Requirements for Graduate Degrees;
- Satisfactorily complete and defend a thesis or a project. The defense must be approved by the majority of graduate committee members, and by the Dean of the Graduate School; and
- All theses and projects must have final approval by the Dean of the Graduate School, including formatting requirements.

~~A student who has received a baccalaureate degree from a regionally accredited institution and whose credentials indicate the ability to pursue graduate work may develop an interdisciplinary studies major. The proposed program must differ significantly from and may not substitute for an existing UAA graduate degree program. The student may select no more than one half of the program credits from one existing graduate degree program, and courses must come from two or more disciplines (i.e., subjects). All interdisciplinary students must be "homed" in an existing graduate program.~~

~~In addition to the [General University Requirements for Graduate Degrees](#), students must comply with the following procedures:~~

- ~~1. The student submits a UAA Graduate Application for Admission (as an interdisciplinary studies major) with the appropriate fee to the Office of Admissions. This application will be reviewed by the Graduate School for determination of acceptance to graduate study, contingent on items 2-5 below.~~
- ~~2. The student invites a faculty member to chair their graduate studies committee and to serve as the student's graduate advisor. The student must be "homed" in an existing graduate degree program and the chair shall normally be a full-time faculty member from that graduate degree program. The chair must agree to serve and must be approved by the Graduate School dean or designee. Faculty members may be co-chairs if they are from non-graduate programs.~~
- ~~3. The student proposes a graduate studies committee of at least three faculty members (including the chair) from the appropriate academic disciplines. The committee members and chair must represent all concentration areas of 9 credits or more. The committee members must agree to serve and be approved by the Graduate School dean or designee by submitting an Appointment of Committee Form. Faculty from non-graduate programs may participate as co-chairs or committee members.~~
- ~~4. The student develops an interdisciplinary proposal, including a paper graduate studies plan (GSP) specifying the degree (MA/MS) and title or concentration. In developing this proposal, the student should review all graduate degree policies and procedures. To receive an interdisciplinary studies master's degree from UAA, the student must incorporate into his or her proposal all General University Requirements for Graduate Degrees and any college requirements applicable. No more than 6 thesis credits should be included. The graduate committee may require a master's thesis, research project or capstone.~~
- ~~5. The student presents the proposed GSP along with the master's thesis, research project or capstone proposal to the committee and chair for preliminary review and approval. If the committee and chair support the GSP and research proposal, it will be forwarded to the Graduate School dean or designee for approval in consultation with the affected graduate programs.~~
- ~~6. Students work with their advisors and graduate committees to ensure that satisfactory progress is made toward completing degree requirements.~~
- ~~7. The student must complete all requirements established in the official interdisciplinary GSP, and must pass a written and/or oral comprehensive examination, an evaluation of independent scholarship, and/or a project or thesis defense or similar final evaluation as established by the graduate program. The examination, evaluation or defense must be approved by all graduate committee members as passing the~~

~~requirement and by the dean of the Graduate School or designee. All theses and projects must have final approval by the dean or designee of the Graduate School.~~

~~8. During the semester of the project or thesis defense or similar final evaluation, the student must apply for graduation in a timely fashion. The diploma will indicate that it is an interdisciplinary degree, as well as the applicable subjects/concentration.~~

~~9. All theses and projects must meet formatting requirements as established by the Graduate School.~~

~~- See more at:~~
