        i. Relevant Accreditation Standard:

        Standard 1.C.3. The institution awards credit, degrees, certificates, or credentials for programs that culminate in achievement of program learning outcomes that demonstrate an appropriate breadth, depth, sequencing, rigor, and synthesis of learning.

        Evidence. The rubric is now published on the NWCCU website. It includes lists of the types of evidence the institution will need to provide.

UAB Chair's Report

Yvonne Chase

- Propose the following changes to the course management system:
  - Change the justification for proposal from check boxes to a comment box; hide the department, school/college, and academic level fields; remove the instructional goals section; rename and place the course student learning outcomes and assessment section before the general education section; rename the current Course Level Justification to "Course Level;" remove "other," and add a field Course Level Justification with a comment box; and remove the suggested texts field.
- Propose the following changes to the program management system:
  - Remove the type of change field (major/minor); hide the effective catalog field; remove the Elearning and the Discuss e-Learning fields.
  - For discussion - since the Academic Assessment Committee is now part of the workflow, how does that change the questions in the system?
- Change the meeting room for January 15 to the small conference room in ADM or virtual only.
- Recommend special meeting of UAB for Wednesday, January 6, virtual only.
