Worksheet

Please select a facilitator, a note taker, and someone who will report out. Each table will give a one-minute report out following the table discussions. We will use these worksheets and the report outs to compile a summary of key themes and ideas from today's session.

1. How can UArctic better support your current and future work and how can UAA make this happen? What would that look like?

2. Is there anything else you would like the Provost to know?
