  - Technical Writing for Project Managers

“The whole PM course was a real eye-opener for me. Thank you..”
  - Introduction to Project Management

“This is probably the best presentation on work breakdown structure I have attended.”
  - Project Controls

“Very good corporate style training. Good resource.”
  - Project Management using Microsoft Project

PROFESSIONAL TRAINING COURSES Taught Periodically

Introduction to Project Management
This basic project management training course is designed for individuals who are not directly involved in project management. Through the presentation of project management basics, participants will gain better understanding of shared project management processes. $1095

PMP® Certification Exam Prep Course
The purpose of this course is to prepare students to pass the Project Management Institute’s PMP® exam while earning the formal educational credit hours required. Additionally, the fundamentals of project management will be reviewed and studied. $2500

Project Controls
This course will allow participants to gain a full understanding of project controls as it applies to the incorporation of multiple tasks into one system, allowing the project manager to monitor budgets, schedules, and to communicate more effectively. $1095

Microsoft Project for Project Management
This course will allow participants to learn how to schedule activities efficiently, assign resources economically, and track project performance effectively. Participants will master scheduling and tracking concepts while experiencing MS Project hands-on. $1425

Technical Writing for Project Managers
The course will refresh and upgrade the writing skills of Project Managers, Designers and other technical personnel by reviewing grammar, punctuation, writing styles, composition, and writing for specific mediums. $825

PMP is a registered mark of the Project Management Institute, Inc.
