I would recommend making this survey more inclusive of non-dominant genders
I have had minor problems with one of my instructor. Do to this I feel like I am going to have problems with passing.
The Intro to Field Work should not be an internet course. I wish there were more major electives to choose from. Most key on substance abuse.
Really enjoy what the degree is about. Wish there was more information about what it is beforehand.
Having a community organization related to the Human Services Program would be fantastic!

Heather Robinson has been a huge influence in my future career path. She has been very helpful in the ParaPro Counseling classes. I have learned so much from her and think I may actually want to look into counseling in some capacity in my future.
