The evaluation of experiential learning at the agency provides an opportunity for honest conversation with the student about their performance. In addition, the process offers feedback to the Practicum Instructor and the Department of Human Services about student performance. Comments from the Field Supervisors help the student and the Practicum Instructor gain a better sense of strengths as well as areas for growth for the individual student. Comments are not required for every item. However, a thorough feedback is appreciated. Students are evaluated on their performance only for the current semester.
