*To the best of the committee chair's knowledge, all recommended changes have been made to the project and if applicable, all classified, confidential, and proprietary content has been properly addressed. Classified, confidential, and proprietary content includes material related to national economic security issues or regulated research that deals with human subjects or research that if misapplied, could pose a threat to public health and safety, products, or the environment. Sponsors of funded research may require a review of the project to insure that the document meets their standards for public dissemination.
