MICHAEL MACY

7:00 p.m., ARTS 150

2011 Fall Lecture Series

“THE RELATIONAL REVOLUTION: HOW DIGITAL RECORDS OF HUMAN INTERACTIONS ARE TRANSFORMING SOCIAL SCIENCE”

This lecture will discuss the opportunities and pitfalls of collecting data on complex social networks.

Dr. Michael Macy is Goldwin Smith Professor of Sociology at Cornell University. He is also a member of the faculty of Computing and Information Science, and Director of their Social Dynamics Laboratory. His education includes a BA in Government (Harvard University) a MA in Education (Stanford University), and a Ph.D. in Sociology (Harvard University). He is on leave this year, serving as a Research Fellow at the Center for Advanced Studies (CASBS) at Stanford.

Complex Systems is co-sponsored by Undergraduate Research, College of Arts and Sciences, and the UAA Honors College
