

## **AY20 Expedited Program Review Recommendations**

**Program Review:** Dental Assisting (UC-AAS)

**Programs Included:** UC/AAS Dental Assisting

1. Develop a plan to attract more students and to offer a program that the industry supports and promotes. Alternatively, offer non-credit, just-in-time specialty courses to enhance training of in-office dental assistants.
2. Invest in recruitment efforts to promote this program. Student enrollment will need to increase to meet industry needs and to improve the program's efficiency and productivity.
3. Consider developing further opportunities for distance and continuing education to increase program demand.
