

AY20 Expedited Program Review Recommendations

Program Review: Mechanical Engineering (MS)

Programs Included: MS Mechanical Engineering

1. Schedule graduate courses to accommodate the schedules of working professionals. For example, the program might be able to recruit more students from the professional community if it offers more evening courses.
2. Work toward the stated goals and initiatives that will help increase enrollment, maintain and enhance the program, increase student success, operate in a cost-effective manner, and generate additional revenue.
