Re: **AY20 Expedited Program Review Findings – Architectural and Engineering Technology AAS**

I have reviewed the dean’s findings and the completed Expedited Program Review Template for the Architectural and Engineering Technology AAS. The Provost’s Office did not receive an Optional Program Response Form from the program.

Recommendations

My recommendation is to accept the decision and recommendations of the dean with the additional commentary that the program review its course rotation and semester offerings, reduce the number of sections offered each semester, and increase course capacity to reduce cost and increase revenue. An interim progress report on all recommendations is due to the dean by March 1, 2021. The dean will submit a review along with the program’s interim progress report to the provost by April 1, 2021. A follow-up Program Review will be conducted in AY22.

Decision

Recommend Continued Review
