Re: **AY20 Expedited Program Review Findings – Geomatics AAS/BS**

I have reviewed the dean's findings, the program's response to the dean's findings, and the completed Expedited Program Review Template for the Geomatics AAS/BS.

Recommendations

My recommendation is to accept the decision and recommendations of the dean with the additional commentary that admissions to the AAS should be temporarily suspended and the program should remove the tracks within the BS and focus the curriculum on training surveyors. Additionally, the program should work with Civil Engineering to integrate CE majors into GEO A156 and stop teaching GEO A155. The revision should be completed in AY21 for implementation in fall 2021. An interim progress report on all recommendations is due to the dean by March 1, 2021. The dean will submit a review along with the program's interim progress report to the provost by April 1, 2021. Unless otherwise noted at that time, a follow-up Program Review will be conducted in AY24.

Decision

Recommend Temporary Suspension for the AAS
Recommend Revision for the BS
