

**2021 ANNUAL ACADEMIC ASSESSMENT REPORT FORM**  
**(Due October 15 to the dean)**

The Faculty Senate Academic Assessment Committee (AAC) is committed to a vision of assessment that leads to continuous program improvements and benefits students. Annual assessment reporting informs decision making and resource allocation aimed at improving student learning and success. It also enables the AAC to analyze assessment across the institution and to respond to UA System, Board of Regents, legislative, and Northwest Commission on Colleges and Universities (NWCCU) requests. We thank you for your continued support of and participation in this annual activity.

Starting in Spring 2021, UAA is moving to one academic assessment reporting mechanism. The below form merges and streamlines the former Annual Academic Assessment Survey and the Annual Academic Assessment Report. It also incorporates questions about how academic programs contribute to student achievement of institutional core competencies and to student success.

**This annual report will be due to the dean on October 15. Programs with suspended admissions and new programs in the first year of implementation are not required to complete this form.**

These reports are public documents and will be posted on the assessment website. Responses are to be narrative only, and must be ADA and FERPA compliant. Do not embed any links, including to webpages or other documents. To be FERPA compliant, do not include the names of any current or former students. Rather, use statements such as, "In AY21 four program graduates were accepted to graduate programs in the field." Programs with specialized accreditation or other external recognitions must comply with restrictions regarding what can be published, as per the accreditor or external organization. Do not include appendices. Appendices to this form will not be accepted.

The form uses narrative, text, and drop-down boxes. Narrative boxes have a character limit, which includes spaces. When using text and drop-down boxes, if you want to undo an answer, press "Control-Z" or "Command-Z."

For technical assistance with this form, email Academic Affairs ([uaa.oaa@alaska.edu](mailto:uaa.oaa@alaska.edu)).

---

**PROGRAM SECTION (Due to the dean on October 15)**

*After completing the Program Section, the program should email this form to the dean, with a copy to the appropriate community campus director(s) if the program is delivered on a community campus.*

**Submission date:** 4/25/2022

**Submitted by:** Tim Jester, Program Lead, M.Ed. Teaching and Learning

**Program(s) covered in this report:** Teaching & Learning MEd

*(Programs with suspended admissions and new programs in the first year of implementation are not required to complete this form.)*

If you selected "Other" above, please identify. *(100 characters or less)*

**College:** School of Education

**Campuses where the program(s) is delivered:**  Anchorage  KOD  KPC  MSC  PWSC

**Specialized accrediting agency (if applicable):** N/A

**If explanation is necessary, such as only some of the certificates and degrees are covered by the specialized accreditation, briefly describe:**

### INSTITUTIONAL STUDENT LEARNING CORE COMPETENCIES

In 2020, UAA launched a consensus-based, deliberative process to identify the key skillsets that help students achieve academic and post-graduation success. After a year-long process that included students, faculty, staff, administrators, alumni, and employers, the UAA community identified four "core competencies" at the heart of a quality UAA education. Students develop mastery of these competencies through curricular (e.g., courses), co-curricular (e.g., internships, conferences), and extra-curricular (e.g., student clubs) learning experiences.

After the stakeholder-based process in AY20, UAA conducted a pilot project focusing on the core competency of Personal, Professional, and Community Responsibility (PPCR). This decision was based on input from the 2020 Annual Academic Assessment Retreat.

Question #1 below is designed to engage program faculty in thinking about how they can or already do promote student learning in this core competency.

- 1. Personal, Professional, and Community Responsibility: The knowledge and skills necessary to promote personal flourishing, professional excellence, and community engagement.**
  - **What would you hope a student would say if asked where in your program or support service they had the opportunity to develop proficiency in this Core Competency? (500 characters or less)**

Through the applied, action research project in which M.Ed. Teaching and Learning students identify a relevant problem of practice and design and implement a research project to better understand and improve the problem of practice. The project is

intended to support students in developing and enacting the knowledge and skills that promote personal and professional growth and community engagement.

- **Do you have an example that could be a model for the university of an intentionally designed course, assignment, or activity that showcases the student learning in this core competency?**  Yes  No  
**If yes, please briefly describe. (500 characters or less)**
  
- **Do you have any ideas about where your program or the university might develop other intentionally designed opportunities for students to develop proficiency in this core competency?**  Yes  No  
**If yes, please briefly describe. (500 characters or less)**

### PROGRAM STUDENT LEARNING OUTCOMES

2. Please list the Program Student Learning Outcomes your program assessed in AY21. For each outcome, indicate one of the following: Exceeded faculty expectations, Met faculty expectations, or Did not meet faculty expectations.

***Example: Communicate effectively in a variety of contexts and formats – Exceeded faculty expectations.***

1. Demonstrate advanced content and pedagogical knowledge for teaching--Met faculty expectations
2. Use research to inform professional practice -- Met faculty expectations
3. Explain the relationship between education and social justice -- Met faculty expectations
4. Demonstrate leadership and facilitation skills for the professional context -- Met faculty expectations
5. Translate educational theories into culturally responsive practice -- Met faculty expectations

3. Describe your assessment process in AY21 for these program student learning outcomes, including the collection of data, analysis of data, and faculty (and other, e.g., advisory board) conversations around the findings. (750 characters or less)

The formative assessments in EDTL A698 (Phases 1 and 2) and EDTL 651 and the summative assessment in the program portfolio were the primary mechanisms for collecting assessment data in 2020-2021. Students were expected to demonstrate at least an emerging level of attainment of the five Program Student Learning Outcomes in the formative assessments and full attainment in the summative assessment, the program portfolio. Data were analyzed using the Program Student Learning Outcomes as criteria at the end of each semester in which formative or summative assessments were administered. Faculty reviewing the portfolio evaluated students' performance, evaluated their performance, and discussed program implications.

**4. What are the findings and what do they tell the faculty about student learning in your program? (750 characters or less)**

Students successfully demonstrated at least emerging levels of attainment of the five PSLOs in the formative assessments and full attainment in the summative assessment, the program portfolio. These results indicate that the program is effectively preparing M.Ed. Teaching and Learning students to 1) demonstrate advanced content and pedagogical knowledge, 2) use research to inform professional practice, 3) explain the relationship between education and social justice, 4) demonstrate leadership and facilitation skills, and 5) translate educational theories into culturally responsive practice.

**5. Based on the findings, did the faculty make any recommendations for changes to improve student achievement of the program student learning outcomes? Please describe the recommended action, what improvement in student learning the program hopes to see with this change, the proposed timeline, and how the program will know if the change has worked. If no recommendations for changes were made, please explain that decision. (750 Characters or less)**

No changes recommended based on findings. However, due to the anticipation of an increase in enrollment in upcoming academic years—a result of number of factors, one of which is a partnership with school districts in the Bristol Bay region—faculty plan to refine the rubrics used with the formative and summative assessments with the goal of streamlining the review process while ensuring the continuation of consistency across reviews.

### PROGRAM IMPROVEMENTS AND ASSESSING IMPACT ON STUDENT LEARNING

**6. In the past academic year, how did your program use the results of previous assessment cycles to make changes intended to improve student achievement of the program student learning outcomes? Please check all that apply.**

- Course curriculum changes
- Course prerequisite changes
- Changes in teaching methods
- Changes in advising
- Degree requirement changes
- Degree course sequencing
- Course enrollment changes (e.g., course capacity, grading structure [pass/fail, A-F])
- Changes in program policies/procedures
- Changes to Program Student Learning Outcomes (PSLOs)
- College-wide initiatives (e.g., High Impact Practices)
- Faculty, staff, student development
- Other

No changes were implemented in AY21.

If you checked "Other" above, please describe. (100 characters or less)

7. Do you have any information about how well these or other past improvements are working? Are they achieving their intended goals? Please include any data or assessment results that help you demonstrate this. (750 characters or less)

The M.Ed. Teaching and Learning program assessment is comprehensive, systematic and clearly focused on the PSLOs. It also incorporates formative and summative assessment processes through the structure and delivery of specified required courses: EDTL A651 and EDTL A698.

### STUDENT SUCCESS AND THE CLOSING OF EQUITY GAPS

Programs are not required to respond to question #8 below for their report due on October 15, 2021. Question #8 will be required for the next round and moving forward.

8. Respond to at least one of the following metrics. Student success depends on many aspects of a student's experience. On the academic program level, it can relate to correct placement, course sequencing, standardized pre-requisites, the intentional use of high impact practices, proactive advising, course scheduling practices, etc. UAA is using the following two metrics in its cyclical Program Review process, as well as in its reaffirmation of accreditation process. These data are included in the most recent IR-Reports Program Review dashboard. Please review these data for your program, note any equity gaps, and describe steps you are taking or plan to take to close those gaps.

Metric	Definition	Rationale
JUNIOR GRADUATION RATE - BACCALAUREATE	The percentage of students who graduate with a bachelor's degree within four years of first reaching junior class status (60 credits). <i>Data source: RPTP end-of-term freeze files. Disaggregate as per accreditation.</i>	Junior graduation rate (after 60 credits) can reflect a department's success in helping students complete their degrees. Within their first 60 credits, students typically focus on completing GERs and often switch majors. Tracking how long it takes students to complete their degrees after 60 credits, when many students have likely committed to a specific major, can provide actionable information for departments.
COURSE PASS RATES BY COURSE LEVEL (Undergraduate lower-	The percentage of students who receive a passing grade (A, B, C, P) for all undergraduate students and	Low pass rates are one critical way to identify courses that are barriers to student success and degree

Metric	Definition	Rationale
division, undergraduate upper-division, and graduate).	(A, B, P) for graduate students in a course offered by a program compared to the same rate calculated for all courses at that level. Based on a 5-year trend. Included in the denominator for undergraduate courses are the grades D, F, W, I, NP, NB. Included in the denominator for graduate level are the grades C, D, F, W, I, NP, NB. Discipline acts as a proxy for a program. <i>Data source: RPTP end-of-term freeze files. Disaggregate as per accreditation.</i>	completion. Failing key courses correlates with low retention and more major switching. Mitigation strategies can be internal or external to the course itself, including, among other things, the use of high-impact pedagogical practices, appropriate placement, course sequencing, tutoring, and other means to ensure student success within a particular course. This metric and the disaggregation of the data can inform planning, decision making, and the allocation of resources to programs and services designed to mitigate gaps in achievement and equity.

9. **Do you have any examples of post-graduate success you want to highlight? For example, major scholarships, the percent of students who pass licensure examinations, the percent of students accepted to graduate programs, the percent in post-graduation employment in the field or a related field. (750 characters or less)**

Graduates involved in community engagement: e.g., teachers in P-12 institutions; instructional coaches in K-12 schools; Director of Refugee Services at Catholic Social Service; creative producer and writer for PBS Series, Molly of Denali; and Indigenous language revitalization advocate and educator.

---

**DEAN SECTION (Due to the program on January 15)**

*After completing the Dean Section and signing it, the dean should email this form to the program, and copy [uaa\\_ooo@alaska.edu](mailto:uaa_ooo@alaska.edu) for posting. If the program is delivered on one or more community campus, the dean should consult with the appropriate community campus director(s) on the response and copy the appropriate community campus director(s) when emailing the response to the program.*

1. **Based on the program's responses above, what guidance and support do you have for the program moving forward? Is there a particular area the program should focus on? (750 characters or less)**

The M.Ed in T&L program and the program lead are acknowledged and appreciated for the effective and meaningful collaboration demonstrated and successes achieved in their work with other depts and agencies, partners both inside and outside of the university and communities served.f

2. Is there something the program is doing particularly well in terms of its processes for the assessment and improvement of student learning, including the closing of equity gaps, that might serve as a model for other programs? If yes, please explain. You may skip this question. (750 characters or less)

As referenced in the response to item 1 above, the M.Ed program established a working and authentic university / community partnership between and among significant entities for the benefit of the districts, schools, teachers, students, and communities of the Bristol Bay region. The lessons learned and connections and models developed and refined through this collaborative partnership should have benefits and lessons for all participants involved as well as other like entities and potential partners going forward. .
