### Provost Runge

- Please send an updated list of drones used by campus programs to the Provost and Tim Edwards for compliance updates.
- Guidelines for office assignment to adjunct, graduate students, and emeritus
  - We need to start the conversation of creating a policy around this. Reserving space for folks who work directly with students so Faculty, Staff, and Administrators. People who are on campus part-time will need to be transitioned to shared spaces.
- On the Administrative Scholarship allocations: feel free to award up to 65% of what you got last year in advance and then we can sort out the rest in the Fall.

### VP Lampman

- Planning for a possible August enrollment surge
  - Admissions is thinking that we are going to have an enrollment surge late in the game so please plan for it. We don't want to cancel any gen ed. classes due to low enrollment in case there is a surge late Fall.
  - Tier 1 and 2 classes are very full already for F2F, but students are concerned about doing online classes in the Fall.

### VP Kalina

- Accreditation
  - The site visitors will want to meet with assessment, planning groups, and enrollment management groups across college's
- Scheduling and delivering courses on the Military bases
  - We are trying to broaden our relationships with the bases to address student facing issues and higher-level issues as well.

- o From the scheduling and course offering side for the college's we need to work with the base. The Chairs currently don't think of the bases as their courses.
  - o We are working to find ways for Faculty to offer classes on base so that the classes on base are viewed as "our" classes.
  - o Concern in the past about who the Faculty that were teaching there and how they were selected.
  - o What makes sense for Elmendorf vs. Fort Richardson?
  - o It may not be perfect yet, but we do need to keep trying! Please start to think about the frame of the program going forward.
- Deans, please do a final check of the [next catalog](#) by next Wednesday because there are so many changes.

#### Shawnalee Whitney

- There are Care team issues coming through that take some extra time to finesse due to financial issues.
- Please follow up on incompletes with students so they feel supported to finish the course.

#### Deans

- Update on any UAA & Statewide Groups
  - o COH – shared services advisory committee will move to JN
