2015 Annual Convention & Trade Show

Mining Alaska: Prospect to Profit

Student Poster Session

Dena’ina Convention Center, 600 W 7th Ave, Anchorage, Alaska
Tuesday, November 3, 2015
9:00 am to 5:00 pm

Students interested in mineral exploration, engineering, operations, management, economics, reclamation, environmental permitting and other subjects pertinent to the mining industry are invited to present their research and technology posters to attendees. Posters may follow the convention theme or present an entirely different mining-related topic, including reports on recent fieldwork accomplished by students.

- **Display Space:** Each space will consist of a 4-foot-high by 8-foot-wide poster board. Pins will be provided to hang posters. Tables will not be provided.

- **Display Materials:** The display materials should be good quality maps, diagrams, charts and posters.

- **Set-Up and Take Down:** Set-up begins at 8:00 am, Tues. Nov. 3rd, 2015. Posters may be displayed throughout the convention, but must be taken down by the end of talks on Thurs. afternoon.

- **Student Responsibilities:** Poster session participants should be available to answer questions at their displays during breaks between Technical Sessions on Tues. Nov. 3rd.

- **Perks:** AMA will provide a complementary convention registration fee, Tuesday lunch, and Wednesday University & Friends breakfast, for the primary student author presenting the poster – the student must supply the following information below.

The poster session is an excellent opportunity for students to discuss career opportunities with professionals in multiple disciplines. In order for the primary student author, presentation title, and abstract to appear in the final program, this student poster session form (or e-mail providing this information) plus an abstract (maximum 500 word limit) must be sent to Eric Cannon and Varina Zinno by October 17, 2015. AMA registration information will then be provided to the student.

Please send this student poster session form/information and abstract to, and refer any questions to:

Eric Cannon: ecannon@golder.com; 907-344-6001 (w)

Varina Zinno: vzinno@alaskaearthsciences.com; 907-522-4664 (w), 907-202-1146 (c)
