

UAA DRUG FREE SCHOOLS NOTIFICATION

The Drug Free Schools and Communities Act amendments of 1989 require that as a condition of receiving funds, or any other form of financial assistance under any federal program, the University of Alaska Anchorage must certify that it has adopted and implemented a program to prevent the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees.

The University of Alaska Anchorage presents the following information for your knowledge and in promotion of healthy lifestyles:

Health Risks Associated With Substance Abuse

Quoted from page 62 of "What Works: Schools Without Drugs" published by the US Department of Education

Alcohol:

Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident. Low to moderate doses of alcohol also increase the incidence of a variety of aggressive acts, including spouse and child abuse.

Moderate to high doses of alcohol cause marked impairments in higher mental functions, severely affecting a person's ability to learn and remember information. Very high doses cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol will produce the effects just described.

Repeated use of alcohol can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and convulsions. Alcohol withdrawal can be life threatening. Long term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and the liver.

Mothers who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have irreversible physical abnormalities and mental retardation. In addition, research indicates that children of alcoholic parents are at a greater risk than others of becoming alcoholics.

Drug & Alcohol Counseling & Treatment

Students:

The University offers numerous health education seminars, workshops, and events, and students are encouraged to participate. Additionally, personal counseling is available on some campuses. At this time however, only the Anchorage and Kenai River campuses provide on-site health centers.

Employees:

Employees experiencing substance abuse-related issues are strongly encouraged to seek counseling services. The University of Alaska Anchorage employee health insurance program contains benefits for some in-patient and out-patient treatment. Employees should contact their local Human Resource Services Office for details. In addition, UAA contracts Deer Oaks to provide an Employee Assistance Program. The program can be accessed by contacting Human Resource Services or Deer Oaks directly at 1-888-993-7650 or online at www.deeroakseap.com with your UAA username and password.

Student & Employee Codes of Conduct

Students:

The UAA Student Code of Conduct (the Code) is found in the University catalog and the *Fact Finder Student Handbook*. Applicable sections include:

Violations of the Code, which occur on property, owned or controlled by the University, or at activities authorized by the University, are subject to University student conduct review and disciplinary action by the University.

Disciplinary action may be initiated by the University and sanctions imposed against any student or student organization found responsible of committing, attempting to commit, or intentionally assisting in the commission of the following categories of conduct prohibited by the Code.

Misuse of Alcohol

a. use, possession, manufacture, or distribution of alcoholic beverages in violation of local, state or federal law, Regents' Policy, University Regulation, or MAU rules and procedures; or
b. engaging in any other category of prohibited conduct while under the influence of alcohol may constitute a violation of this category.

Misuse of Drugs or Other Intoxicants

a. use, possession, manufacture, distribution, or being under the influence of illegal drugs or other controlled substances

in violation of local, state or federal law, Regents' Policy, University Regulation or MAU rules and procedures;
b. abuse or misuse of prescription or over-the-counter medications, other chemical substances or other intoxicants;
c. use, possession, manufacture, distribution, or being under the influence of designer drugs; or
d. engaging in any other category of prohibited conduct while under the influence of legal drugs or other intoxicants may constitute a violation of this category.

Employees:

The sale, purchase, transfer, use or possession of illegal drugs by employees on University premises or while on University business is prohibited. Further, the use of any legally obtained drug, including alcohol, to the point where such use adversely affects the employee's job performance, is prohibited. An employee must notify the University within five days of any conviction for criminal drug statute violations occurring on-or-off University premises while conducting University business. University Board of Regents' Policy and Regulations, P04.02.040 and P04.02.050, and R04.02.040 and R04.02.050, provide for a University Drug-Free Workplace; and Employee Alcohol and Controlled Substance Testing for certain, defined safety sensitive employees.

Disciplinary Procedures & Sanctions

Students:

Students found responsible for misuse of alcohol or other intoxicants or drugs will have disciplinary sanctions imposed. In determining appropriate sanctions, a student's present and past disciplinary record, the nature of the offense, the severity of any damage, injury, or harm resulting from the prohibited behavior, and other factors relevant to the matter will be considered. The following list of sanctions is an illustrative rather than exhaustive list of disciplinary measures that may be taken by the Residence Life staff, the Dean of Students Office, and the Chancellor. The University reserves the right to create other reasonable sanctions or combine sanctions as it deems appropriate. Sanctions include:

1. Warning - A written notice that the student is violating or has violated the Code, and that further misconduct may result in more severe disciplinary action.

2. Probation - A written warning which includes the probability of more severe disciplinary sanctions if the student is found to be violating the Code during a specified probationary period.

3. Denial of Benefits - Specific benefits may be denied a student for a designated period of time.

4. Restitution - A student may be required to reimburse the University or other victims related to the misconduct for damage to or misappropriation of property, or for reasonable expenses incurred.

5. Discretionary Sanction - Discretionary sanctions include community service work or other uncompensated labor, educational classes, research papers, reflective essays, counseling, or other sanctions that may be seen as appropriate to the circumstances of a given matter. Costs incurred by the student in fulfilling a discretionary sanction will be the responsibility of the student.

6. Restricted Access - A student may be restricted from entering certain designated areas and/or facilities or from using specific equipment for a specified period of time.

7. Suspension - The separation of the student from the University for a specified period of time, after which the student may be eligible to return. During the period of suspension, the student may be prohibited from participation in any activity authorized by the University and may be barred from all property owned or controlled by the University.

8. Expulsion - Expulsion is considered to be the permanent separation of the student from the University. The student may be prohibited from participation in any activity authorized by the University and may be barred from property owned or controlled by the University.

9. Group Sanctions - Student groups or organizations found to have violated provisions of the Code may be put on probation or sanctioned, which may include loss of University-related benefits and access to University facilities and University-held funds.

Employees:

Violation of standards of conduct will result in disciplinary action. Sanctions may include, but are not limited to, the following actions:

1. Suspension of work with or without pay during an investigation
2. A period of provisional employment (which may result in termination)
3. Referral for prosecution
4. Referral for treatment/rehabilitation
