

UA 2018 DRUG-FREE SCHOOLS NOTIFICATION

In accordance with the Drug-Free Schools and Communities Act Amendments of 1989 and to promote healthy lifestyles and prevent the unlawful possession, use, or distribution of illicit drugs and alcohol by all students and employees, the University of Alaska presents the following information about health risks associated with drug and alcohol use; counseling and treatment resources; University policies and sanctions; and federal, state, and local law and legal sanctions.

Health Risks Associated With Substance Abuse

Alcohol:

Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident. Low to moderate doses of alcohol also increase the incidence of a variety of aggressive acts, including spouse and child abuse. Moderate to high doses of alcohol cause marked impairments in higher mental functions, severely affecting a person's ability to learn and remember information. Very high doses cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol will produce these effects.

Repeated use of alcohol can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and convulsions. Alcohol withdrawal can be life threatening. Long term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and the liver.

Women who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have irreversible physical abnormalities and mental retardation. In addition, research indicates that children of alcoholic parents are at a greater risk than others of becoming alcoholics.

published by the US Department of Education*

Drugs:

Drug use can have a wide range of short-term, long-term, direct, and indirect effects. Short-term effects can range from changes in appetite, wakefulness, heart rate, blood pressure, and/or mood to heart attack, stroke, psychosis, overdose, and even death. These health effects may occur after just one use.

Longer-term effects can include heart or lung disease, cancer, mental illness, HIV/AIDS, hepatitis, and others. Long-term drug use can also lead to addiction. Drug addiction is a brain disorder. Not everyone who uses drugs will become addicted, but for some, drug use can change how certain brain circuits work. These brain changes interfere with how people experience normal pleasures in life and can make it much more difficult for someone to stop taking the drug even when it's having negative effects on their life and they want to quit.

Drug use can also have indirect effects on both the people who are taking drugs and on those around them. This can include affecting a person's nutrition; sleep; decision-making and impulsivity; and risk for trauma, violence, injury, and communicable diseases. Drug use can also affect babies born to women who use drugs while pregnant. Broader negative outcomes may be seen in education level, employment, housing, relationships, and criminal justice involvement.

consequences-drug-misuse](https://www.drugabuse.gov/related-topics/health-consequences-drug-misuse)*

See the following charts for specific substances and their effects.

DRUGS OF ABUSE/USES AND EFFECTS

| DRUGS NARCOTICS | CSA SCHEDULES | TRADE OR OTHER NAMES | MEDICAL USES | DEPENDENTS PHYSICAL/PSYCHOLOGICAL/TOLERANCE | USUAL METHOD | POSSIBLE EFFECTS | EFFECTS OF OVERDOSE | WITHDRAWAL SYNDROME |
|--------------------|--------------------------------|--------------------------------------------------------------------------------------------------------|---------------------------------------------|------------------------------------------------|---------------------------------------|--------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| Heroin | Substance I | Diamorphine, Horse, Smack, Black tar, Chiva, Negra (black tar) | None in U.S., Analgesic, Antitussive | High/High/Yes | Injected, snorted, smoked | Euphoria, drowsiness, respiratory depression, constricted pupils, nausea | Slow and shallow breathing, clammy skin, convulsions, coma, possible death | Watery eyes, runny nose, yawning, loss of appetite, irritability, tremors, panic, cramps, nausea, chills and sweating |
| Morphine | Substance II | MS-Contin, Roxanol, Oramorph SR, MSIR | Analgesic | High/High/Yes | Oral, injected | | | |
| Hydrocodone | Substance II, Product III,V | Hydrocodone w/ Acetaminophen, Vicodin, Vicoprofen, Tussionex, Lortab | Analgesic, Antitussive | High/High/Yes | Oral | | | |
| Hydromorphone | Substance II | Dilaudid | Analgesic | High/High/Yes | Oral, injected | | | |
| Oxydodone | Substance II | Roxicet, Oxycodone w/ Acetaminophen, OxyContin, Endocet, Percocet, Percodan | Analgesic | High/High/Yes | Oral | | | |
| Codeine | Substance II, Product III,V | Acetaminophen, Guaifenesin or Promethazine w/Codeine, Fiorinal, Fioricet or Tylenol w/Codeine | Analgesic, Antitussive | Moderate/Moderate/Yes | Oral, injected | | | |
| Other Narcotics | Substance II, III, IV | Fentanyl, Demerol, Methadone, Darvon, Stadol, Talwin, Paregoric, Buprenex | Analgesic, Antidiarrheal, Antitussive | High-Low/High-Low/Yes | Oral, injected, snorted, smoked | | | |

| DRUGS DEPRESSANTS | CSA SCHEDULES | TRADE OR OTHER NAMES | MEDICAL USES | DEPENDENTS PHYSICAL/PSYCHOLOGICAL/TOLERANCE | USUAL METHOD | POSSIBLE EFFECTS | EFFECTS OF OVERDOSE | WITHDRAWAL SYNDROME |
|---------------------------------|-----------------------------|-------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------|------------------------------------------------|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------|
| gamma Hydroxybutyric Acid | Substance I, Product III | GHB, Liquid Ecstasy, Liquid X, Sodium Oxybate, Xyrem® | None in U.S., Anesthetic | Moderate/Moderate/Yes | Oral | Slurred speech, disorienta- tion, drunken behavior without odor of alcohol, impaired memory of events, interacts with alcohol | Shallow respiration, clammy skin, dilated pupils, weak and rapid pulse, coma, possible death | Anxiety, insomnia, tremors, delirium, convulsions, possible death |
| Benzodiazepines | Substance IV | Valium, Xanax, Halcion, Ativan, Restoril, Rohypnol (Roofies, R-2), Klonopin | Antianxiety, Sedative, Anti-convulsant, Hypnotic, Muscle Relaxant | Moderate/Moderate/Yes | Oral, injected | | | |
| Other Depressants | Substance I, II, III, IV | Ambien, Sonata, Meprobamate, Chloral Hydrate, Barbiturates, Methaqualone (Quaalude) | Antianxiety, Sedative, Hypnotic | Moderate/Moderate/Yes | Oral | | | |

| DRUGS STIMULANTS | CSA SCHEDULES | TRADE OR OTHER NAMES | MEDICAL USES | DEPENDENTS PHYSICAL/PSYCHOLOGICAL/TOLERANCE | USUAL METHOD | POSSIBLE EFFECTS | EFFECTS OF OVERDOSE | WITHDRAWAL SYNDROME |
|--------------------------------------|----------------------|---------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------|------------------------------------------------|------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------|
| Cocaine | Substance II | Coke, Flake, Snow, Crack, Coca, Blanca, Perico, Nieve, Soda | Local anesthetic | Possible/High/Yes | Snorted, smoked, injected | Increased alertness, excitation, euphoria, increased pulse rate & blood pressure, insomnia, loss of appetite | Agitation, increased body temperature, hallucinations, convulsions, possible death | Apathy, long periods of sleep, irritability, depression, disorientation |
| Amphetamine/ Meth- amphetamine | Substance II | Crank, Ice, Cristal, Krystal Meth, Speed, Adderall, Dexedrine, Desoxyn | Attention deficit/ hyperactivity disorder, narcolepsy, weight control | Possible/High/Yes | Oral, injected, smoked | | | |
| Methylphenidate | Substance II | Ritalin (Illy's), Concerta, Focalin, Metadate | Attention deficit/ hyperactivity disorder | Possible/High/Yes | Oral, injected, snorted, smoked | | | |
| Other Stimulants | Substance III, IV | Adipex P, Ionamin, Prelu-2, Didrex, Provigil | Vaso- constriction | Possible/Moderate/Yes | Oral | | | |

Continued

DRUGS OF ABUSE/USES AND EFFECTS

| DRUGS HALLUCINOGEN | CSA SCHEDULES | TRADE OR OTHER NAMES | MEDICAL USES | DEPENDENTS PHYSICAL/PSYCHOLOGICAL/TOLERANCE | USUAL METHOD | POSSIBLE EFFECTS | EFFECTS OF OVERDOSE | WITHDRAWAL SYNDROME |
|--------------------------------|-------------------------|--------------------------------------------------------------------------------------------------|--------------------------|------------------------------------------------|------------------------------------------|-----------------------------------------------------------------------------------------|----------------------------------------------------------------------------------|--------------------------------------------------------|
| MDMA and Analogues | Substance I | (Ecstasy, XTC, Adam), MDA (Love Drug), MDEA (Eve), MBDB | None | None/Moderate/Yes | Oral, snorted, smoked | Heightened senses, teeth grinding and dehydration | Increased body temperature, electrolyte imbalance, cardiac arrest | Muscle aches, drowsiness, depression, acne |
| LSD | Substance I | Acid, Microdot, Sunshine, Boomers | None | None/Unknown/Yes | Oral | Illusions and hallucinations, altered perception of time and distance | (LSD) Longer, more intense "trip" episodes | None |
| Phencyclidine and Analogues | Substance I, II, III | PCP, Angel Dust, Hog, Loveboat, Ketamine (Special K), PCE, PCPy, TCP | Anesthetic (Ketamine) | Possible/High/Yes | Smoked, oral, injected, snorted | | Unable to direct movement, feel pain, or remember | Drug seeking behavior Not regulated |
| Other Hallucinogens | Substance I | Psilocybe mushrooms, Mescaline, Peyote Cactus, Ayahuasca, DMT, Dextro-methorphan* (DXM) | None | None/None/Possible | Oral | | | |

| DRUGS CANNABIS | CSA SCHEDULES | TRADE OR OTHER NAMES | MEDICAL USES | DEPENDENTS PHYSICAL/PSYCHOLOGICAL/TOLERANCE | USUAL METHOD | POSSIBLE EFFECTS | EFFECTS OF OVERDOSE | WITHDRAWAL SYNDROME |
|----------------------------|-----------------------------|----------------------------------------------------------|----------------------------------------|------------------------------------------------|-----------------|----------------------------------------------------------------------------------|------------------------------------------------|------------------------------------------------------------------------------------|
| Marijuana | Substance I | Pot, Grass, Sinsemilla, Blunts, Mota, Yerba, Grifa | None | Unknown/Moderate/Yes | Smoked, oral | Euphoria, relaxed inhibitions, increased appetite, disorientation | Fatigue, paranoia, possible psychosis | Occasional reports of insomnia, hyperactiv- ity, decreased appetite |
| Tetrahydro- cannabinol | Substance I, Product III | THC, Marinol | Antinauseant, Appetite stimulant | Yes/Moderate/Yes | Smoked, oral | | | |
| Hashish and Hashish Oil | Substance I | Hash, Hash oil | None | Unknown/Moderate/Yes | Smoked, oral | | | |

| DRUGS ANABOLIC STERIODS | CSA SCHEDULES | TRADE OR OTHER NAMES | MEDICAL USES | DEPENDENTS PHYSICAL/PSYCHOLOGICAL/TOLERANCE | USUAL METHOD | POSSIBLE EFFECTS | EFFECTS OF OVERDOSE | WITHDRAWAL SYNDROME |
|-------------------------------|------------------|------------------------------------------------------------------------------------|-----------------------------|------------------------------------------------|-------------------|---------------------------------------------------------------------------------------------------------|------------------------|------------------------|
| Testosterone | Substance III | Depo Testosterone, Sustanon, Sten, Cypt | Hypogonadism | Unknown/Unknown/Unknown | Injected | Virilization, edema, testicular atrophy, gyneco- mastia, acne, aggressive behavior | Unknown | Possible depression |
| Other Anabolic Steroids | Substance III | Parabolan, Winstrol, Equipose, Anadrol, Dianabol, Primabolin-Depo, D-Ball | Anemia, Breast cancer | Unknown/Yes/Unknown | Oral, injected | | | |

| DRUGS INHALANTS | CSA SCHEDULES | TRADE OR OTHER NAMES | MEDICAL USES | DEPENDENTS PHYSICAL/PSYCHOLOGICAL/TOLERANCE | USUAL METHOD | POSSIBLE EFFECTS | EFFECTS OF OVERDOSE | WITHDRAWAL SYNDROME |
|---------------------------|------------------|------------------------------------------------------------------------------------------------|------------------|------------------------------------------------|-----------------|---------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------|
| Amyl and Butyl Nitrite | | Pearls, Poppers, Rush, Locker Room | Angina (Amyl) | Unknown/Unknown/No | Inhaled | Flushing, hypotension, headache | Methemo- globinemia | Agitation |
| Nitrous Oxide | | Laughing gas, balloons, Whippets | Anesthetic | Unknown/Low/No | Inhaled | Impaired memory, slurred speech, drunken behavior, slow onset vitamin deficiency, organ damage | Vomiting, respiratory depression, loss of consciousness, possible death | Trembling, anxiety, insomnia, vitamin deficiency, confusion, hallucinations, convulsions |
| Other Inhalants | | Adhesives, spray paint, hair spray, dry clean- ing fluid, spot remover, lighter fluid | None | Unknown/High/No | Inhaled | | | |

| DRUGS | CSA SCHEDULES | TRADE OR OTHER NAMES | MEDICAL USES | DEPENDENTS PHYSICAL/PSYCHOLOGICAL/TOLERANCE | USUAL METHOD | POSSIBLE EFFECTS | EFFECTS OF OVERDOSE | WITHDRAWAL SYNDROME |
|---------|------------------|-------------------------|-----------------|------------------------------------------------|-----------------|---------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------|
| Alcohol | | Beer, wine, liquor | None | High/High/Yes | Oral | Impaired memory, slurred speech, drunken behavior, slow onset vitamin deficiency, organ damage | Vomiting, respiratory depression, loss of consciousness, possible death | Trembling, anxiety, insomnia, vitamin deficiency, confusion, hallucinations, convulsions |

DRUG & ALCOHOL COUNSELING and TREATMENT

Students:

The University of Alaska Anchorage offers numerous health education seminars, workshops, and events, and students are encouraged to participate. Additionally, personal counseling is available on the Anchorage and Kenai River campuses.

Employees:

Employees experiencing substance abuse-related issues are strongly encouraged to seek confidential counseling services.

The Deer Oaks Employee Assistance Program is a free service provided for employees and their dependents and it offers a wide variety of counseling, referral, and consultation services that are completely confidential. The program can be accessed by contacting Deer Oaks directly at 1-888-993-7650 or online at www.deeroakseap.com. See <https://www.alaska.edu/benefits/employee-assistance-progr/fact-sheet.pdf>. The University of Alaska employee health insurance program contains benefits for some in-patient and out-patient treatment.

The following resources are available to students and employees.

Standards of Conduct for Students & Employees

Students:

The University of Alaska Board of Regents have established a set of rights and responsibilities, The Student Code of Conduct (the Code), that students attending at any of the UA campuses are expected to abide by. The Code for all universities can be found in the University of Alaska Board of Regents' Policy and University Regulation.

Applicable sections of the Code include:

Violations of the Code, that occur on property, owned or controlled by the University, or at activities authorized by the University, are subject to University student conduct review and disciplinary action by the University. The Student Code of Conduct may also apply to behavior that occurs off campus. See P09.02.030.B.

The University may initiate disciplinary action and impose sanctions on any student or student organization found responsible for committing, attempting to commit, or intentionally assisting in the commission of prohibited conduct. See P09.02.020.C.

Misuse of Alcohol

Misuse of alcohol includes but is not limited to:

- use, possession, manufacture, or distribution of alcoholic beverages in violation of local, state or federal law, Regents' Policy, University Regulation, or MAU rules and procedures; or
- engaging in any other category of prohibited conduct while under the influence of alcohol may constitute a violation of this category. See R09.02.020(14).

Misuse of Drugs or Other Intoxicants

Misuse of drugs or other intoxicants includes but is not limited to:

- use, possession, manufacture, distribution, or being under the influence of illegal drugs or other controlled substances in violation of local, state or federal law, Regents' Policy, University Regulation or MAU rules and procedures;
- abuse or misuse of prescription or over-the-counter medications, other chemical substances or other intoxicants;
- engaging in any other category of prohibited conduct while under the influence of legal drugs or other intoxicants may constitute a violation of this category; or
- use, possession, manufacture, distribution, or being under the influence of designer drugs. See R09.02.020(15).

Employees:

The unlawful manufacture, distribution, dispensing, possession or use by an employee of a controlled substance is prohibited in any workplace of the University. Further, the use of any legally obtained drug, including alcohol, to the point where such use adversely affects the employee's job performance, is prohibited. An employee must notify the University within five days of any conviction for criminal drug statute violations occurring on-or-off University premises while conducting University business. University Board of Regents' Policy and Regulations, P04.02.040 and P04.02.050, provide for a University Drug-Free Workplace; and Employee Alcohol and Controlled Substance Testing for certain employees.

Disciplinary Procedures & Sanctions for Students & Employees

Students:

Students found responsible for misuse of alcohol or other intoxicants or drugs will have disciplinary sanctions imposed. Additionally, student conduct violating federal, state, or local laws may be referred for prosecution. In determining appropriate University sanctions, a student's present and past disciplinary record, the nature of the offense, the severity of any damage, injury, or harm resulting from the prohibited behavior, and other factors relevant to the matter will be considered. The following list of sanctions is an illustrative rather than exhaustive list of disciplinary measures that may be taken by Residence Life staff, the Dean of Students Office, the Chancellor, and designated community campus personnel. The University reserves the right to create other reasonable sanctions or combine sanctions as it deems appropriate. Sanctions include:

- 1. Warning** - A written notice that the student is violating or has violated the Code, and that further misconduct may result in more severe disciplinary action.
- 2. Probation** - A written warning that includes the probability of more severe disciplinary sanctions if the student is found to be violating the Code during a specified probationary period.
- 3. Denial of Benefits** - Specific benefits may be denied a student for a designated period of time.
- 4. Restitution** - A student may be required to reimburse the University or other victims related to the misconduct for damage to or misappropriation of property, or for reasonable expenses incurred.
- 5. Discretionary Sanction** - Discretionary sanctions include community service work or other uncompensated labor, educational classes, research papers, reflective essays, counseling, or other sanctions that may be seen as appropriate to the circumstances of a given matter. Costs incurred by the student in fulfilling a discretionary sanction will be the responsibility of the student.

6. Restricted Access - A student may be restricted from entering certain designated areas and/or facilities or from using specific equipment for a specified period of time.

7. Suspension - The separation of the student from the University for a specified period of time, after which the student may be eligible to return. During the period of suspension, the student may be prohibited from participation in any activity authorized by the University and may be barred from all property owned or controlled by the University.

8. Expulsion - Expulsion is considered to be the permanent separation of the student from the University. The student may be prohibited from participation in any activity authorized by the University and may be barred from property owned or controlled by the University.

9. Group Sanctions - Student groups or organizations found to have violated provisions of the Code may be put on probation or sanctioned, which may include loss of University-related benefits and access to University facilities and University-held funds.

Employees:

Violation of standards of conduct will result in disciplinary action. Sanctions may include, but are not limited to, the following actions which may be taken in any order as deemed appropriate by the University:

- Verbal or written reprimand
- Suspension of work with or without pay
- A period of provisional employment
- Termination for cause
- Referral for prosecution
- Required participation in a drug abuse assistance or rehabilitation program
- Follow up testing may be done if appropriate
See R04.02.040, R04.02.050.

APPLICABLE LAWS and PENALTIES

Applicable local alcohol and drug laws and ordinances are in accordance with state statutes but may be subject to change with the passage and implementation of possible new laws. Local laws and ordinances for the following locations may be found online:

MUNICIPALITY OF ANCHORAGE:
<https://library.municode.com/ak/anchorage/>

CITY OF HOMER:
<http://www.codepublishing.com/AK/Homer/>

CITY OF KENAI:
<http://www.qcode.us/codes/kenai/>

The following is a summary of some pertinent state laws concerning controlled substances, and is subject to change. If you have questions concerning the actual provisions, scope, application, or penalties of the law, you should consult legal counsel. The most current information on State of Alaska laws is available at <http://w3.legis.state.ak.us>. In addition to criminal penalties, civil consequences may also occur for illegal activity involving controlled substances, including drugs, tobacco, and alcohol.

| SCHEDULE AS TITLE 11 | DRUGS |
|----------------------|---------------------------------------------------------------------------------------------------------|
| IA | Opium, Codeine, Heroin, Methadone, Hydromorphone, Percodan, Demerol. |
| IIA | Cocaine, Amphetamines, LSD, Mescaline, Peyote, PCP, Methaqualone (Quaalude), Phenobarbital, Psilocybine |
| IIIA | Hashish, Barbiturates, Imitation controlled substance |
| IVA | Tranquilizers (Valium and Librium), and Darvon |
| VA | Small amounts of Codeine or Opium in non-narcotic mixtures |
| VIA | Marijuana |

| OFFENSE | | PENALTY |
|-----------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------|
| Controlled Substances, AS 11.71 | | |
| First-degree Misconduct Involving a Controlled Substance | Delivering any amount of a schedule IA, IIA, or IIIA drug to someone who is under 19 and at least three years younger, or engaging in an organized drug enterprise | Unclassified felony \$0-\$500,000 0-99 years |
| Second-degree Misconduct Involving a Controlled Substance | Manufacturing, delivering, or possessing with intent to manufacture or deliver: ≥1 g or ≥25 tablets of schedule IA drug, or ≥2.5 g or ≥50 tablets of a schedule IIA or IIIA drug; or Possessing any amount of a schedule IA or IIA drug near a school; or Manufacturing or possessing methamphetamine-related materials | Class B felony \$0-\$100,000 0-10 years |
| Third-degree Misconduct Involving a Controlled Substance | Manufacturing, delivering, or possessing with intent to manufacture or deliver any amount of a schedule IVA or VA drug; or Possessing any amount of a schedule IIA, IVA, VA, or VIA drug near a school; or Obtaining a controlled substance by misrepresentation, fraud, forgery, deception, or subterfuge; or Manufacturing, delivering, or possessing with the intent to manufacture or deliver any amount of a schedule IA, IIA or IIIA drug | Class C felony \$0-\$50,000 0-5 years |
| Fourth-degree Misconduct Involving a Controlled Substance | Under circumstances not otherwise proscribed, possessing any amount of a schedule IA, IIA, IIIA, IVA, VA, or VIA drug. | Class A Misdemeanor \$25,000 + 0-1 year |
| Tobacco, AS 11.76.100 | | |
| Furnishing to Persons Under 19 | Exchanging or giving a cigarette, cigar, tobacco, or a product containing tobacco to a person under 19. | \$300 |
| Possession Under 19 | Possession of cigarettes, cigar, tobacco, or a product containing tobacco in this state. | Violation \$500 (max) |
