Graduate Degree Program Descriptions
Graduate Programs

Graduate Study
Graduate education is an integral part of the University of Alaska Anchorage and is coordinated through the Graduate School. The dean of the Graduate School has responsibility for leadership and oversight of graduate programs.

The university offers graduate certificates and master’s degrees. Students may also pursue graduate studies at UAA that apply toward doctoral degrees offered by other institutions. Some or all coursework and research may be completed at UAA while the doctoral degree is granted by another university. Students who have completed UAA graduate programs possess the knowledge and skill necessary to succeed in furthering their education, and to excel in their chosen professions. Whether the degree is required for advancement, personal and professional growth, or for other goals, students may expect the challenges and rewards of high quality graduate education.

Upon successful completion of their graduate programs, students will have demonstrated mastery of their disciplines and will have participated in independent scholarship. Appropriate exit requirements allow students to express the knowledge they have acquired in formats designed for their respective programs.

To ensure the most beneficial educational experience, students’ academic preparation and likelihood of success in their programs are carefully assessed and validated. Admission requirements provide an opportunity for students to document their credentials and demonstrate readiness for graduate studies. If an entrance examination is required, the nature of that examination is determined by the appropriate discipline. As they progress in their studies, students can expect discipline-specific advising from mentors in their programs.

Graduate students are subject to relevant policies contained in the complete UAA catalog, as well as individual program requirements.

Admissions
(907) 786-1480
www.uaa.alaska.edu/admissions

All students intending to pursue a graduate certificate or degree must apply for admission. Applications for admission are available online via www.uaa.alaska.edu/admissions or from the Enrollment Management One-Stop.

Admission Requirements for Graduate Degrees
To qualify for admission to graduate programs, a student must have earned a baccalaureate degree from a regionally accredited institution in the United States or a foreign equivalent. Students who expect to receive their baccalaureate degree within two semesters may also apply for graduate admission; see Incomplete Admission later in this section.

Admission is granted to applicants who have received their baccalaureate degree and whose credentials indicate an ability to pursue graduate work. Applicants must either have a cumulative grade point average of 3.00 (B average on a 4.00 scale) or meet the grade point average (GPA) requirements of the specific graduate program to which they are applying. All graduate students must submit official transcripts showing completion and conferral of all baccalaureate degrees and any transcripts reflecting graduate-level courses. Transcripts are to be requested by the student and must be submitted in an officially sealed envelope. (Exception: Students do not need to request transcripts from any University of Alaska campus.) Individual graduate programs may also require additional transcripts and/or specific entrance examinations such as the Graduate Record Examination (GRE) or the Miller Analogies Test (MAT). See individual program requirements later in this chapter for details.

Applications with transcripts from institutions outside the United States or Canada must submit official transcripts and English translations, as well as an official statement of educational equivalency from a recommended international credentials evaluation service. A list of evaluation services may be obtained from the Office of the Registrar. Fees depend upon the agency performing the evaluation. The evaluation service will require a separate transcript and copy of the English translation.

Applicants whose native language is not English, or whose baccalaureate degree was conferred by an institution where English was not the language of instruction, must also submit scores from the Test of English as a Foreign Language (TOEFL). TOEFL scores may be waived if the applicant has been a long-term resident of the United States or of another English-speaking country and demonstrates fluency in reading, writing, listening and speaking in English.

Applications, official transcripts and required test scores (if any) must be submitted to the Office of Admissions. All of these materials become the property of UAA and are only released or copied for use within the University of Alaska system. Once all required transcripts and test scores have been received, the Office of Admissions will forward each student's admission packet to the dean, department chair or designee for consideration.

Each graduate program has individual admission standards and document requirements. Additional information such as writing samples, goal statements, letters of recommendation, research proposals and/or interviews may be required by specific programs. When required, these materials must be submitted directly to the department chair or designee.

Deadlines for submission of materials vary by program. Please note that, for programs with rolling (ongoing) admissions, in order to ensure consideration for all financial aid opportunities, it is strongly recommended that eligible students submit:

- For fall admission: all required application forms no later than June 15, and all required application materials by August 1;
- For spring admission: all required application forms no later than November 1, and all required application materials by December 1.

No more than 9 credits may be completed in the student’s graduate program before program admission. See individual program listings for further details.

International Graduate Students
Office of Admissions
www.uaa.alaska.edu/iss
(907) 786-1573

International students who intend to reside in the U.S. for the purpose of pursuing a certificate or degree as F-1 visa students and need a form I-20 Certificate of Eligibility for Nonimmigrant F-1 Student Status must meet university and degree program admission requirements and submit the following:

1. Official TOEFL (Test of English as a Foreign Language) (minimum score of 79-80 IBT) or IELTS (International English Language Testing System) (minimum score of 6-6.5) scores, sealed by the issuing agency. Alternate documentation of English proficiency, such as previous study in a U.S. institution or alternate test scores may be considered on a case-by-case basis. International students from English-speaking countries should contact the Office of Admissions to request a waiver of the test score requirement.

2. A notarized affidavit of financial support from the student or the student's financial sponsor and documentation of financial resources to cover one full academic year of study.

3. A completed Admissions Agreement for Prospective F-1 Students.
Application and Admission Status for Graduate Degree-Seeking Students: Terms and Definitions

**Application Status**

**Incomplete Application**
An incomplete application is one that is not accompanied by all required documents; generally, an application is considered incomplete until all required official transcripts and test scores have been received.

**Pending Application**
A pending application has met university requirements and is awaiting departmental recommendation for admission.

**Postponed Application**
Students may postpone their applications to a future semester by notifying the Office of Admissions prior to the end of the semester for which they originally applied.

**Withdrawn Before Admission**
Students must complete or postpone their admission by the end of the semester for which they have applied. At the end of each semester, all applications still incomplete or not postponed may be withdrawn. Students whose applications have been withdrawn must reapply for admission if they later choose to attend UAA.

**Admission Status**

**Complete Admission**
All required documents have been received and all admission standards met.

**Incomplete Admission**
Students who expect to receive their baccalaureate degree from a regionally accredited institution within two semesters (three if including summer) may apply for graduate admission. Formal acceptance becomes final only after the baccalaureate degree is completed and conferred, and all other admission requirements are met. All admission requirements must be satisfied prior to advancement to candidacy.

**Provisional Admission**
Students who show potential for success in graduate studies but do not meet all the admission requirements for a program may be provisionally admitted. Provisions are established and monitored by the dean or designee, and faculty of the program. If the provisions are not met within specified deadlines, the student may be removed from graduate degree-seeking status.

**Postponed Admission**
Students may postpone their admission to a future semester by notifying the Office of Admissions prior to the end of the semester for which they originally applied.

**Withdrawn After Admission**
Admission may be withdrawn when students do not attend classes during, or have not postponed their admission by, the end of their admission semester. Students whose admissions have been withdrawn must apply for re-admission if they later choose to attend UAA.

**Related Graduate Degree Policies**

**Transfer Credits**
Up to 9 semester credits not used toward any other degree (graduate or undergraduate) may be transferred to UAA from an accredited institution and counted toward a master’s degree. Acceptance of transfer credit toward program requirements is at the discretion of the individual program faculty. The Graduate School Dean or designee may allow credit earned at other universities within the UA system, excluding thesis credit and credits used toward another degree, to satisfy graduate program requirements, as long as at least 9 credits applicable to the student's program are earned at UAA after acceptance into the program.

**Change of Major or Emphasis Area**
Students who wish to change majors or emphasis areas within the same degree and school or college should submit a Graduate Change of Major or Emphasis Area Form to the Graduate School for approval. Students will be expected to meet all admission and program requirements of their new major or emphasis area, and must submit a revised official Graduate Studies Plan to the Graduate School through their advisor/committee within one semester.

**Change of Degree**
Graduate students who wish to change degree programs must formally apply for admission to the new program through the Office of Admissions and pay the appropriate fee. This applies both to changes between schools/colleges and to different degrees within the same school or college (such as a change from the MFA in Creative Writing to the MA in English). Students will be expected to meet all admission and program requirements of the new major or emphasis area.

**Concurrent Degrees**
Students may pursue concurrent degrees as long as they have formally applied and been accepted to each program through the Office of Admissions. Students may be admitted to or complete graduate certificate requirements as they pursue a master’s degree. Coursework used to obtain a graduate certificate, if accepted for inclusion in the Graduate Studies Plan, may be used to satisfy requirements for a master’s degree.

**Additional Master's Degrees**
Students who have received a master's degree or doctoral degree from a regionally accredited college or university may earn a UAA master's degree by completing a minimum 21 resident credits not used for any other previous degree. The student must meet all the University Requirements for Master’s Degrees, school or college requirements, and program requirements. Fulfilling all university, college and program requirements may require more than the minimum 21 credits beyond the previous graduate degree. If the 21 additional credits and other requirements have been earned for each additional degree, two or more degrees may be awarded simultaneously.

**Formal Acceptance to Graduate Degree Programs**
Once all required admission documents have been received by the Office of Admissions, the student's admission packet is forwarded to the college dean or designee. The acceptance decision is made by the dean or designee, who informs the Office of Admissions of the decision. The Office of Admissions sends the official Certificate of Admission directly to the applicant. Acceptance does not establish candidacy in a graduate program (see Advancement to Candidacy).

**Non-Degree-Seeking Students**
Non-degree-seeking students who wish to register for graduate courses must have the department chair’s or faculty member’s approval. Registration as a non-degree-seeking student implies no commitment by
the university to the student's later admission to a degree program. Up to 9 semester credits of graduate-level coursework may be completed in the student's graduate program before program admission. Non-degree-seeking students do not qualify for federal or state financial aid benefits nor do they qualify to receive a Form I-20 Certificate of Eligibility for Nonimmigrant (F-1) Student Status. (See Chapter 7, Academic Standards and Regulations, for further information.)

**Full-Time/Part-Time Status for Graduate Degree Programs**

A student who has been admitted to a UAA graduate program and is enrolled at UAA for 9 or more 600-level credits is classified as full-time. Courses at the 400-level will count toward full-time status only if they are listed on the approved Graduate Studies Plan. A graduate student enrolled at UAA for fewer than 9 credits is classified as part-time.

Audited courses, continuing education units (CEUs), and continuous registration are not included in the computation of the student’s full-time or part-time status.

**Graduate Assistantships**

Graduate assistants receive stipends for either a semester or for the academic year. Graduate assistants can be paid for a maximum of 20 hours per week while school is in session. Students with assistantships must be registered for at least 9 credits during the fall and spring semesters or as attendance is appropriate to their program (audited credits are not eligible).

Graduate assistants receive a health insurance benefit paid on their behalf. Graduate students must come to the Office of the Graduate School each semester and show a copy of their contract letter to complete the enrollment process.

Teaching assistantships include a tuition payment by the university for no more than 9 credits during each semester if the workload is 15 to 20 hours per week. If the workload is 10 to 14 hours per week, no more than 5 credits will be included. No tuition will be included if the workload is less than 10 hours per week.

Research assistantships include a tuition payment by grants/contracts for no more than 9 credits during each semester if the workload is 15 to 20 hours per week. If the workload is 10 to 14 hours per week, no more than 5 credits will be included. No tuition will be included if the workload is less than 10 hours per week.

Tuition payments may be used for tuition only. All fees are the responsibility of the student unless the department or grant makes other arrangements with the UAA Business Office prior to registration.

A graduate student with a GPA less than 3.0 for one semester will be allowed to petition to continue as a graduate assistant for the next semester. A maximum one semester exception will be allowed per student. The petition by the student must be approved by the student’s graduate committee chair, department head and dean.

**Catalog Year for Graduate Degree Programs**

Students may elect to graduate under the requirements of the catalog in effect at the time of formal acceptance to a graduate degree program, or the catalog in effect at the time of graduation. If the requirements for a masters degree as specified in the entry-level catalog are not met within seven years after formal acceptance into the program, admission expires and the student must reapply for admission and meet the current admission and graduation requirements in effect at the time of readmission or graduation.

All credits counted toward the master’s degree, including transfer credit, must be earned within the consecutive seven-year period prior to graduation.

**Continuous Registration**

Continuous registration is expected every semester as appropriate for the program, from admission through graduation, until all requirements for the degree are completed.

To make continuous progress in their graduate program, students have the following options:

- Registering for at least one graduate-level credit applicable to their graduate degree, or
- Paying the continuous registration fee to remain active in the graduate program although not registered in any courses.
- Adhering to the continuous registration policy established by the specific college, school or department. See your program advisor for details.

Students are also expected to register or pay the continuous registration fee for the summer if they use university facilities or consult with faculty during the summer. Please contact the individual graduate program for departmental policy/requirements concerning continuous registration.

The continuous registration fee may be paid during each semester’s late registration period. Students not making continuous progress or not on an approved leave of absence (see Leave of Absence policy) may be removed from master’s degree-seeking status or placed on academic probation (see Probation policy).

**Leave of Absence**

While graduate students are expected to make continuous progress toward completion of their graduate programs, there are instances where continuous registration is not possible. Students who need to temporarily suspend their studies must apply for a leave of absence through their advisor and committee chair. If the leave is approved, the student is placed on inactive status by the Graduate School. Inactive status does not negate the policy which requires that all credits counted toward the master’s degree, including transfer credits, be earned within a consecutive seven-year period prior to graduation. Students who fail to make continuous progress (see Continuous Registration) or to obtain an approved leave of absence may be removed from master’s degree-seeking status.

**Academic Standing for Students**

**Good Standing**

Graduate students are in good standing when they have a UAA cumulative GPA of 3.00 or higher and a semester GPA of 3.00 or higher for the most recently completed semester. Individual departments may establish additional criteria for good standing. Students are presumed to be in good standing during their first semester at UAA. Students in good standing are academically eligible to re-enroll at UAA.

**Academic Action**

Admitted graduate certificate and master’s degree-seeking students who fail to earn a UAA semester and/or cumulative GPA of 3.00 will be subject to academic action. Academic action may result in probation, continuing probation, or loss of graduate certificate or degree-seeking status. Individual departments may establish additional criteria for departmental academic action. Failure to meet or maintain these criteria may result in departmental probation or removal from a major program.

**Probation**

Academic probation is the status assigned to those students whose semester and cumulative GPA falls below 3.00.

**Continuing Probation**

Continuing Probation is the status assigned to those students who begin a semester on probation and during that semester earn a semester GPA of 3.00 or higher without raising their cumulative GPA to 3.00. This status may be continued until the student raises their cumulative GPA to 3.00 or loses their graduate certificate or degree-seeking status.

**Academic Disqualification**

Academic Disqualification is the status assigned to those students who begin a semester on probation or continuing probation and fail to earn a semester GPA of 3.00. Those students’ admission status will be changed to non-degree-seeking. Students who have lost graduate certificate or degree-seeking status may continue to attend UAA as non-degree-seeking students. However, those students do not qualify for financial aid and international students will lose
their immigration status. Students must apply for reinstatement to UAA (see reinstatement policy below).

Removal from Graduate Degree-Seeking Status
A graduate student's academic status may be changed to non-degree-seeking if the requirements to remove provisional admission or probation are not satisfied, or if minimum academic standards are not met. In some cases, students may be removed from graduate degree-seeking status without having first been placed on probation (see Non-Degree-Seeking Students).

Academic Appeals
Students have the right to appeal academic actions (See Academic Dispute Resolution Procedures in the current UAA Fact Finder/Student Handbook for information).

Reinstatement to Graduate Degree-Seeking Status
Graduate students who have been removed from graduate degree-seeking status for failing to meet academic standards may apply for reinstatement to a graduate program after one calendar year from the semester in which they were removed from master’s degree-seeking status. When re-applying to graduate studies, it is the student’s responsibility to demonstrate ability to succeed in the graduate program.

Graduate students who have been removed from graduate degree-seeking status for not making continuous progress (see Continuous Registration) must re-apply for graduate study and pay the appropriate fee.

Graduate Advisor
The dean or designee, in conjunction with the appropriate department chair of the school or college offering the graduate program appoints a graduate advisor for each student accepted to a graduate program. The graduate advisor and the departmental chair will be from the same program.

Graduate Studies Committee
For graduate programs with a thesis, independent scholarship or research project, the advisor and the student select a graduate studies committee as part of the process to complete the requirements of the graduate degree. The committee typically consists of three UAA faculty members, including the chair, who shall normally be a full-time faculty member. One faculty committee member may be from a discipline outside the student’s school or college or UAA. Committee members and chairs whose status has changed to emeritus faculty may continue to serve on the committee. Committee members who are not UAA faculty, but have the appropriate professional credentials, may be included with the approval of the dean of the Graduate School, college dean, graduate advisor and the student. The committee members must agree to serve and the committee must be approved by the dean of the Graduate School and the college dean.

Responsibilities of Graduate Advisor/Committee
The division of responsibility between the advisor and/or committee is determined at the program level. The graduate advisor and/or graduate committee will do the following:

1. Review and approve the graduate student’s program, ensuring that it includes: University Requirements for Graduate Degrees; all courses required for the degree; research culminating in a thesis, independent scholarship or project, if required; a written or oral comprehensive examination, independent scholarship evaluation, or thesis/project defense; any special program requirements; and arrangements to remove any deficiencies in the student's academic background.
2. Monitor the student's progress and timely completion of all requirements (see Continuous Registration) including timely submission of Annual Reports of Student Progress to the Graduate School.
3. Review and approve any changes to the program of study.
4. Review and approve the thesis, independent scholarship, or research project, including initial proposals, according to procedures established by the individual graduate program. Thesis format must meet the requirements as established by the Graduate School.
5. Review and approve requests for temporary leaves of absence, which, if approved, will result in the student being placed on inactive status.
6. Administer and assess the comprehensive examination, administer independent scholarship evaluation, or thesis or project defense.

Official Graduate Studies Plan
The official Graduate Studies Plan (GSP) formally establishes the specific program requirements which will, upon satisfactory completion, entitle the student to receive the graduate degree. The plan is based upon the catalog requirements for the graduate degree program to which the student has been accepted. The plan should be submitted by the end of the first year of study. The plan becomes official once it is approved by the dean of the Graduate School or designee and is filed with the Office of the Registrar. Students are expected to complete all requirements listed on their official Graduate Studies Plan, as well as all University Requirements for Graduate Degrees. Any revision to the plan will need to be submitted to the Graduate School through the graduate advisor/committee.

University Requirements for Graduate Degrees
To complete a graduate degree, a student must complete the University Requirements for Graduate Degree, school or college requirements, and program requirements. A graduate student’s program is based upon the catalog requirements for the relevant graduate degree which are in effect at the time the student is accepted. University requirements for all graduate degrees are as follows:

1. A student must be admitted to the degree program and establish an approved Graduate Studies Plan.
2. No more than 9 credits may be completed in the student’s graduate program before program admission. See individual program listings for further details.
3. For a master’s degree, the student must complete at least 30 approved semester credits beyond the baccalaureate degree. At least 24 credits in each graduate degree must consist of courses other than thesis, independent scholarship (independent study) and/or a research project. On approval by the dean of the Graduate School and college dean, an official Graduate Study Plan may stipulate other course credit requirements.
4. Up to 9 semester credits not used toward any other degree (graduate or undergraduate) may be transferred to UAA from an accredited institution and counted toward a master’s degree. Acceptance of transfer credit toward program requirements is at the discretion of the individual program faculty.
5. The Graduate School Dean or designee may allow credit earned at other universities within the UA system, excluding thesis credit and credits used toward another degree, to to satisfy graduate program requirements, as long as at least 9 credits applicable to the student’s program are earned at UAA after acceptance into the program.
6. Only 400- and 600-level courses approved by the graduate student’s graduate advisor, dean or designee, and graduate studies committee, may be counted toward graduate program requirements. Courses at the 500-level are for professional development and are not applicable toward any degree.
7. A cumulative GPA of at least 3.00 must be earned in courses identified in the official Graduate Studies Plan.
8. In 600-level courses, a grade of C is minimally acceptable, provided the student maintains a cumulative GPA of 3.00 (B) in all courses applicable to the graduate program. At least 21 credits must be taken at the graduate-level (600) for any master’s degree, including thesis, independent scholarship or research credits. For performance comparison only, in 600-level courses a grade of P (pass) is equivalent to a B or higher, but does not enter into the GPA calculation.
9. Courses taken as credit by examination, or graded credit/no credit (CR/NC) do not count toward graduate program requirements. They may, however, be used to satisfy prerequisites or to establish competency in a subject, thus allowing the advisor/committee to waive certain courses in an established program, as long as the total credits in the program remain the same.
10. If the requirements for a master’s degree as specified in the entry-
year catalog are not met within seven years of formal acceptance into
the program, admission expires and the student must reapply for admission and meet the admission and graduation
requirements in effect at the time of readmission or graduation.

11. All credits counted toward the degree, including transfer credits,
must be earned within the consecutive seven-year period for a
master’s degree prior to graduation.

12. Students must be continuously registered throughout their
graduate program (see Continuous Registration).

13. The student must complete all requirements established by
the program and must pass a written or oral comprehensive
examination, an evaluation of independent scholarship, project or
thesis defense, or similar evaluation as established by the program.
The evaluation, examination or defense must be approved by all
graduate committee members as passing the requirement.

14. When an oral comprehensive examination, project or thesis
defense, or evaluation of independent scholarship is required, the
student may select an outside reviewer approved by the dean of the
Graduate School and college dean to participate in the evaluation.
Typically, the outside reviewer is a faculty member from another
department in the university, or other qualified individual in the
area in which the student is seeking a degree.

15. All theses must have final approval by the Dean of the Graduate
School and must meet formatting requirements as established by
the Graduate School.

Advancement to Candidacy (Requirement Determined by Program)
Some graduate programs require students to apply for advancement
to candidacy. Advancement to candidacy status is a prerequisite to
graduation and is determined by the program chair or designee.
Candidacy is the point in a graduate study program at which the
student has demonstrated an ability to master the subject matter and
has progressed to the level at which a graduate studies plan can be
approved.

To be approved for candidacy a student must:
1. Be in good standing as defined in the good standing policy.
2. Demonstrate competence in the methods and techniques of the
discipline.
3. Receive approval of the independent scholarship, thesis or research
project proposal from the student's Graduate Committee.
4. Satisfy all prerequisites and remove all academic deficiencies.
5. Satisfy all terms of a provisional admission.
6. Submit an approved, final official Graduate Studies Plan.

Application for Graduation
Graduate students must submit an Application for Graduation,
accompanied by the required fee, to the Office of the Registrar.
Application for Graduation deadlines are July 1 for summer graduation,
November 1 for fall graduation, and March 1 for spring graduation.

Students who apply for graduation but do not complete degree
requirements by the end of the semester must re-apply for graduation.
However, if a student is within 6 credits of graduating, they will be
automatically rolled to the next semester, including summers (This
is a one-time courtesy.) The application fee must be paid with each
Application for Graduation.

Please see the UAA Office of the Registrar website at www.uaa.alaska.
edu/records/ for current information regarding graduation and the
posting of degrees.

Interdisciplinary Studies Degree
A student who has received a baccalaureate degree from a regionally
accredited institution and whose credentials indicate the ability to
pursue graduate work may develop an interdisciplinary studies
major. The proposed program must differ significantly from and may
not substitute for an existing UAA graduate degree program. The
student may select no more than one half of the program credits from
one existing graduate degree program, and courses must come from
two or more disciplines (i.e., subjects). In addition to the University
Requirements for Graduate Degrees listed above, students must comply
with the following procedures:

1. The student submits a UAA Graduate Application for Admission
(Interdisciplinary Studies Major) with the appropriate fee to the
Office of Admissions. These applications will be reviewed by the
Graduate School for determination of acceptance to graduate study.

2. The student invites a faculty member to chair their graduate studies
committee and to serve as the student’s graduate advisor. The
chair shall normally be a full-time faculty member. The chair must
agree to serve and must be approved by the appropriate dean(s) or
designee(s).

3. The student proposes a graduate studies committee of at least
three (four for a doctoral committee) faculty members from the
appropriate academic disciplines. The committee members and
chair must represent all concentration areas of 9 credits or more.
The committee members must agree to serve and be approved by
the Graduate School dean or designee.

4. The student develops a proposed interdisciplinary Graduate Studies
Plan specifying the degree (MA or MS) and title or concentration.
In developing this proposal, the student should review all graduate
degree policies and procedures. To receive an interdisciplinary
studies master’s degree from UAA, the student must incorporate
into their proposal all University Requirements for Graduate
Degrees and any school or college requirements applicable. Of the
minimum 30 credits required for the master’s degree, a minimum of
21 credits must be drawn from existing 600-level courses. Additional
 coursework may be required by the committee, including remedial
courses that are not on the Graduate Studies Plan. The graduate
committee may also require a master’s thesis or research project,
reflecting no more than 9 academic credits.

5. The student presents the proposed Graduate Studies Plan to the
committee and chair for preliminary review and approval. If the
committee and chair support the Graduate Studies Plan, it will be
forwarded to the Graduate School dean or designee for approval in
consultation with affected graduate programs.

6. Students work with their advisors and graduate committees to
ensure that satisfactory progress is made toward completing degree
requirements. Students are expected to be continuously registered
throughout their graduate program (see Continuous Registration).

7. The student must complete all requirements established in the
official Interdisciplinary Graduate Studies Plan, and must pass a
written and/or oral comprehensive examination, an evaluation of
independent scholarship, and/or a project or thesis defense or similar
final evaluation as established by the program. The examination,
evaluation, or defense must be approved by all graduate committee
members as passing the requirement and by the dean of the
Graduate School or designee. All theses and projects must have final
approval by the Dean of the Graduate School or their designee.

8. When an oral comprehensive examination, evaluation of
independent scholarship, or project or thesis defense is required,
the student may select an outside reviewer approved by the dean of
the Graduate School or designee to participate in the evaluation,
(exam, oral defense, or similar evaluation as established by the program)
and chair must represent all concentration areas of 9 credits or more.

9. During the semester of the project or defense or similar
final evaluation, the student must apply for graduation in a timely
fashion. The diploma will indicate that it is an interdisciplinary
degree, as well as the applicable subjects/concentration.

10. All theses and projects must meet formatting requirements as
established by the Graduate School and must be given final
approval by the Dean of the Graduate School.
Cooperative Doctoral Programs
University of Alaska Fairbanks (UAF)
Students may use specific courses from other University of Alaska campuses to satisfy requirements of cooperative graduate programs offered by UAF. The cooperative program must include an approved UAF Graduate Studies Plan (GSP). The student must complete a minimum of 12 semester resident credits at UAF.

The following guidelines are for collaborative Ph.D. programs offered by UAF, where students are enrolled at other UAF campuses. Some individual degree programs have different requirements which are included in specific program descriptions in the graduate degree program section of the UAF catalog. The guidelines described here apply only to programs that have not established different requirements.

1. At least four faculty members shall serve on the graduate advisory committee for each Ph.D. student. At least two committee members shall be UAF faculty. When the student is enrolled at UAA, the committee shall be chaired or co-chaired by a UAA faculty member.

2. The graduate advisory committee and its chair and/or co-chairs must be approved by the UAF program director and the dean of the UAF Graduate School.

3. UAF rules and regulations on graduate studies shall apply to all UAF graduate students, including those concurrently enrolled at UAA.

4. The graduate advisory committee must meet at least once a year to update the Graduate Studies Plan and to review the student’s progress toward the degree. The annual progress report must be signed by all committee members and submitted to the dean of the UAF Graduate School.

5. The student’s advisory committee will administer the Ph.D. comprehensive exam for each student.

6. The Ph.D. thesis defense is conducted on the student’s home campus and can be done via distance technologies.

Creighton University / UAA Occupational Therapy Program
The Creighton University (CU)-UAA Occupational Therapy program is a hybrid format professional program that leads to the Occupational Therapy Doctorate (OTD). Students take classes in both a traditional and distance format with labs being held on the UAF campus.

Up to ten students per year are accepted to this three and a half year, full-time program. To be eligible for the program, applicants must have a bachelor’s degree and meet the required prerequisites. After successful completion of the program students are eligible to sit for the National Board for Certification in Occupational Therapy (NBCOT) examination, and to apply for licensure.

Creighton University is accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools. The program in Occupational Therapy is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), Inc.

For information on prerequisites, curriculum, and application procedures, please visit http://cbsw.uaa.alaska.edu/otd.

Creighton University / UAA Pharmacy Program
The Creighton University (CU)-UAA Pharmacy program is a mostly online professional program leading to the Doctorate in Pharmacy (PharmD) degree. The Creighton distance pathway allows students to take didactic coursework using the latest in distance education technology, from wherever they live. Interactions with faculty and mentors occur via conferencing software, discussion boards, Internet chat rooms, e-mail, telephone, and other methods. Students will complete two weeks of intensive labs in Omaha each of three summers during the program. Clinical experiences may be arranged within Alaska.

The Creighton PharmD program is an established distance program that admits 75 students per year. An Alaska admission cohort is being added with up to five slots. To be eligible for the program, applicants must complete 90 credits of pre-requisites.

Creighton University is fully accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools, the accrediting agency for the region in which the University is located. The Pharmacy program, accredited by the Accreditation Council on Pharmacy Education (ACPE), is a member of the American Association of Colleges of Pharmacy.

For information on prerequisites, curriculum, and application procedures, please consult with Creighton University: website http://spahp2.creighton.edu/admission/Pharmacy/Pharmacy_UAA.htm, phone number 402-280-2662; or contact the UAA Pharmacy Technology department at 786-4495, email afdas@uaa.alaska.edu.

University of Washington School of Medicine
WWAMI Biomedical Program
Health Sciences Building (HSB), Room 301, (907) 786-4789
http://biomed.uaa.alaska.edu

Each year, 20 certified Alaska residents begin their medical education in a collaborative medical school that operates among the campuses of five northwestern states: Washington, Wyoming, Alaska, Montana and Idaho (WWAMI). First-year classes for Alaskans are held at the University of Alaska Anchorage. Second-year students from all five states attend classes at the University of Washington in Seattle. The six-week blocks of clinical experiences, called clerkships, that occupy the third and fourth years can be taken in any of the five states, and an Alaska Track allows nearly all of these to be completed in Alaska.

Eligibility
Alaskan residents are eligible to apply for admission. Detailed eligibility information is available at http://biomed.uaa.alaska.edu/ak_wwami_eligibility.html. Applicants must meet common requirements established by the institutions in the five WWAMI states. These requirements include prerequisites in biology, chemistry and physics and submission of scores from the Medical College Admission Test (MCAT). Program details can be found at www.uwmedicine.org or by contacting the WWAMI office using the contact information provided below.

Admissions
Applications are accepted through the American Medical College Application Service (AMCAS). WWAMI applications are submitted to the University of Washington School of Medicine (UWSOM). All applications received by UWSOM from Alaskan residents will be considered for the WWAMI Program in Alaska. Complete application information, including details about the selection procedure can be found at www.uwmedicine.org or by contacting the WWAMI office using the contact information provided below.

For more information concerning WWAMI or the biomedical curriculum at UAA, contact the WWAMI Biomedical Office at 786-4789, visit http://biomed.uaa.alaska.edu or visit Health Science Building (HSB) 301.

FACULTY
Raymond Bailey, Professor, rbailey@uaa.alaska.edu
Lorna “Jamie” Elswick, Term Instructor, AFlAE1@uaa.alaska.edu
Robert Furilla, Professor and Director, AFRAF1@uaa.alaska.edu
Timothy Hinterberger, Associate Professor, AFTR@uaa.alaska.edu
Cindy Knall, Assistant Professor, AFMC@uaa.alaska.edu
Tanya Leinie, Adjunct Assistant Professor, tleinie@gmail.com
Ryan McGhan, Adjunct Instructor, ryanmchgan11@hotmail.com
Jesse Owens, Associate Professor, jesseleowens@yahoo.com
Debra Pohlman, Adjunct Professor, AFDDP@uaa.alaska.edu
Quentin Reuter, Professor, AFQR@uaa.alaska.edu
Ram Srivastava, Professor, AFRS2@uaa.alaska.edu

Graduate Certificates
A graduate-level certificate program is a coherent sequence of related graduate courses. These programs are designed to provide graduate education past the baccalaureate level and/or to enhance the education of students who have already completed a master’s degree. Students will complete a linked series of courses, which may include a capstone experience or project that focuses their intellectual experience. Upon completion of a certificate, students will have acquired an area of
specialization or an interdisciplinary perspective. Further, success in a graduate-level certificate program should prepare students to better accomplish the goals of their discipline.

**Admissions**

(907) 786-1480  
www.uaa.alaska.edu/admissions

All students intending to register for one or more courses must apply for admission. Applications for admission are available from the Enrollment Management One-Stop or online via www.uaa.alaska.edu/admissions.

**Admission Requirements for Graduate Certificates**

To qualify for admission to graduate certificate programs, a student must have earned a baccalaureate or master's degree from a regionally accredited institution in the United States or a foreign equivalent. Students who expect to receive their baccalaureate or master's degree within two semesters may also apply for graduate admission; see Incomplete Admission later in this section. Admission is granted to applicants who have received their baccalaureate or master's degree and whose credentials indicate their ability to pursue graduate work. In general, applicants must either have a cumulative GPA of 3.00 (B average on a 4.00 scale) or meet the GPA requirements of the specific graduate certificate program to which they are applying.

All graduate students must submit official transcripts showing completion and conferral of all baccalaureate and/or graduate degrees and any transcripts reflecting graduate-level courses. Transcripts are to be requested by the student and must be submitted in an officially sealed envelope. (Exception: Students do not need to request transcripts from any University of Alaska campus.) Individual programs may also require additional transcripts and/or specific entrance examinations such as the GRE or the Miller Analogies Test. See individual program requirements later in this chapter for details.

Applicants with transcripts from institutions outside the United States or Canada must submit official transcripts and English translations as well as an official statement of educational equivalency from a recommended international credentials evaluation service. A list of evaluation services may be obtained from the Office of Admissions. Fees depend upon the agency performing the evaluation. The evaluation service will require a separate transcript and copy of the English translation.

Applicants whose native language is not English or whose baccalaureate degree was conferred by an institution where English was not the language of instruction must also submit scores from the Test of English as a Foreign Language (TOEFL). TOEFL scores may be waived if the applicant has been a long-term resident of the United States or of another English-speaking country and demonstrates fluency in reading, writing and speaking in English.

Applications, official transcripts, and required test scores (if any) must be submitted to the Office of Admissions. All of these materials become the property of UAA and are only released or copied for use within the University of Alaska system. Once all required transcripts and test scores have been received, the Office of Admissions will forward each student's admission packet to the dean, department chair or designee for consideration.

Each graduate certificate program has individual admission standards and document requirements. All of these materials become the property of UAA and are only released or copied for use within the University of Alaska system. Additional information such as writing samples, goal statements, letters of recommendation, research proposals and/or interviews may be required by specific programs. When required, these materials must be submitted directly to the department chair or designee.

Deadlines for submission of materials vary by program. No more than one-third of the credits may be completed in the student's certificate program before application for admission. See individual program listings for information.

---

**International Graduate Certificate Students**

**Office of Admissions**

http://www.uaa.alaska.edu/iss  
(907) 786-1573

International students who intend to reside in the U.S. for the purpose of pursuing a certificate or degree as F-1 visa students and need a form I-20 Certificate of Eligibility for Nonimmigrant F-1 Student Status must meet university and degree program admission requirements and submit the following:

1. Official TOEFL (Test of English as a Foreign Language) (minimum score of 79-80 IBT) or IELTS (International English Language Testing System) (minimum score of 6.5) scores, sealed by the issuing agency. Alternate documentation of English proficiency, such as previous study in a U.S. institution or alternate test scores may be considered on a case-by-case basis. International students from English-speaking countries should contact the Office of Admissions to request a waiver of the test score requirement.

2. A notarized affidavit of financial support from the student or the student's financial sponsor and documentation of financial resources to cover one full academic year of study.

3. A completed Admissions Agreement for Prospective F-1 Students.

4. Students who earned their baccalaureate degree outside the United States or Canada must submit an international credential evaluation service stating that they have earned the equivalent of a U.S. baccalaureate degree. A list of approved international credential evaluation services can be found on the International Student Services web site at www.uaa.alaska.edu/iss. Additional fees will apply to be paid to the evaluating agency, which will require a second official, sealed transcript from the issuing institution.

5. Students transferring from other institutions in the United States must also complete and submit the F-1 Transfer Eligibility Form. International students in F-1 visa status must be formally admitted, full-time, degree-seeking students. Health insurance is mandatory. Visit the International Student Services web site at www.uaa.alaska.edu/iss for details and forms.

**Application and Admission Status for Graduate Certificate-Seeking Students: Terms and Definitions**

**Application Status**

**Incomplete Application**

An incomplete application is one that is not accompanied by all required documents; generally, an application is considered incomplete until all required official transcripts and test scores have been received.

**Pending Application**

A pending application has met university requirements and is awaiting departmental recommendation for admission.

**Postponed Application**

Students may postpone their applications to a future semester by notifying the Office of Admissions prior to the end of the semester for which they originally applied.

**Withdrawn Before Admission**

Students must complete or postpone their admission by the end of the semester for which they have applied. At the end of each semester, all applications still incomplete or not postponed will be withdrawn. Students whose applications have been withdrawn must re-apply for admission if they later choose to attend UAA.
**Admission Status**

**Complete Admission**  
All required documents have been received and all admission standards met.

**Incomplete Admission**  
Students who expect to receive their baccalaureate or master’s degree from a regionally accredited institution within two semesters (three if including summer) may apply for graduate admission. Formal acceptance becomes final only after the baccalaureate or master’s degree is completed and conferred, and all other admission requirements are met. All admission requirements must be satisfied prior to advancement to candidacy.

**Provisional Admission**  
Students who show potential for success in graduate studies but do not meet all the admission requirements for a program may be provisionally admitted. Provisions are established and monitored by the dean or designee, and faculty of the program. If the provisions are not met within specified deadlines, the student may be removed from graduate certificate-seeking status. All terms of provisional admission must be satisfied prior to advancement to candidacy.

**Postponed Admission**  
Students may postpone their admission to a future semester by notifying the Office of Admissions prior to the end of the semester for which they originally applied.

**Withdrawn After Admission**  
Admission will be withdrawn when students do not attend classes during or postpone their admission by the end of their admission semester. Students whose admissions have been withdrawn must apply for admission if they later chose to attend UAA.

**Related Graduate Certificate Policies**

**Graduate Certificate Transfer Credits**  
Up to one-third of the credits (semester) or the equivalent earned at a regionally accredited institution and not previously used to obtain any undergraduate degree or certificate may be transferred to UAA and accepted toward a graduate certificate. Acceptance of transfer credits toward program requirements is at the discretion of the individual program.

**Change of Graduate Certificates**  
Graduate students who wish to change certificate programs within a college or program must complete a Change of Graduate Degree or Emphasis Area form and pay the appropriate fee. This applies both to changes between schools or colleges and to different certificates within the same school or college. Students will be expected to meet all admission and program requirements of their new major or emphasis area.

**Concurrent Graduate Certificates**  
Students may pursue concurrent graduate certificates as long as they have formally applied and been accepted to each program through the Office of Admissions.

**Additional Graduate Certificates**  
Students who have received a graduate certificate or master’s degree from UAA or another regionally accredited college or university may earn a UAA graduate certificate by completing at least one-third of the certificate credit requirements in residence at UAA and after admission to the certificate program. Credits previously used for any undergraduate certificate or degree may not be used to satisfy graduate certificate program requirements. Multiple graduate certificates may be awarded only if they differ by at least one-third of their credit requirements.

**Formal Acceptance to Graduate Certificate Programs**  
Once all required admission documents have been received by the Office of Admissions, the student’s admission packet is forwarded to the dean or designee of the specific program. The acceptance decision is made by the dean or designee, who informs the Office of Admissions of the decision. The Office of Admissions sends the official Certificate of Admission directly to the applicant. Acceptance to a graduate certificate program does not guarantee later admission to other graduate certificates or degrees.

**Non-Degree-Seeking Students**  
Non-degree-seeking students who wish to register for graduate courses must have the department chair’s or faculty member’s signature. Registration as a non-degree-seeking student implies no commitment by the university to the student’s later admission to a graduate certificate program. Up to one third of the credits of graduate certificate coursework may be completed in the student’s graduate certificate program before program admission. Non-degree-seeking students do not qualify for federal or state financial aid benefits nor do they qualify to receive a Form I-20 Certificate of Eligibility for Nonimmigrant (F-I) Student Status.

**Full-Time/Part-Time Status for Graduate Certificate-Seeking Students**  
A student who has been admitted to a UAA graduate certificate program and is enrolled at UAA for 9 or more 600-level credits is classified as full-time. Courses at the 400-level will count toward full-time status only if they are applicable to the graduate certificate program. A graduate certificate student enrolled at UAA for fewer than 9 credits is classified as part-time.

Audited courses, continuing education units (CEUs) and professional development courses (500 level) are not included in the computation of the student’s full-time or part-time status.

**Catalog Year for Graduate Certificate Programs**  
Students may elect to graduate under the requirements of the catalog in effect at the time of formal acceptance to a graduate certificate program, or the catalog in effect at the time of graduation.

If the requirements for a graduate certificate program as specified in the entry-level catalog are not met within seven years of formal acceptance into the program, admission expires and the student must reapply for admission and meet the admission and graduation requirements in effect at the time of readmission or graduation.

All credits counted toward the certificate, including transfer credit, must be earned within the consecutive seven-year period prior to graduation.

**Good Standing for Graduate Certificate-Seeking Students**  
A graduate certificate-seeking student who maintains a 3.00 (B) cumulative GPA in courses on their official Graduate Certificate Studies Plan is considered in good standing.

**Removal from Graduate Certificate-Seeking Status**  
A graduate certificate student’s academic status may be changed to non-degree-seeking if the requirements to remove provisional admission are not satisfied, or if minimum academic standards are not met.

A graduate certificate student whose cumulative GPA falls below 3.00 (B) in courses applicable to his/her graduate certificate program, or a graduate certificate student who, for reasons specified in writing, is not making satisfactory progress toward completing the program requirements may be removed from graduate certificate-seeking status. Each school or college has developed procedures to deal with appeals arising from removal from graduate certificate-seeking status.

**Academic Appeals**  
Students have the right to appeal academic actions (See Academic Dispute Resolution Procedure in the UAA Fact Finder/Student Handbook for information).

**Reinstatement to Graduate Certificate-Seeking Status**  
Graduate students who have been removed from graduate certificate-seeking status for not making satisfactory progress must reapply for a graduate certificate program and pay the appropriate fee.
Graduate Certificate Advisor
The dean or designee of the appropriate school or college offering the graduate certificate program appoints an advisor for each student accepted to the program.

Responsibilities of the Graduate Certificate Advisor/Committee
The division of responsibility between the advisor and/or committee is determined at the program level. The graduate certificate advisor and/or committee will do the following:
1. Review the student's Graduate Certificate Studies Plan, ensuring that it includes the Graduate Certificate University Requirements; all courses required for the certificate; any special program requirements; and a capstone experience or project, if required.
2. Arrange to remove any deficiencies in the student's admission or academic background.
3. Approve the official Graduate Certificate Studies Plan.
4. Monitor the student's progress and timely completion of all requirements.
5. Monitor the timely submission of the official Graduate Certificate Studies Plan and other documents to the Graduate School.
6. Review and approve any changes to the official Graduate Certificate Studies Plan. The Graduate School will forward the original and final documents to the Office of the Registrar.
7. Review and approve the capstone experience or project according to procedures established by the individual program.
8. Administer and assess a comprehensive examination, if required.

Official Graduate Certificate Studies Plan
The official Graduate Certificate Studies Plan formally establishes the specific program requirements which will, upon satisfactory completion, entitle the student to receive the graduate certificate. The program plan is based upon the catalog requirements for the graduate certificate program to which the student has been accepted. The plan becomes official once it is approved by the dean or designee and is filed with the Office of the Registrar. Students are expected to complete all requirements listed on the official Graduate Certificate Studies Plan, as well as all Graduate Certificate University Requirements and college requirements for the program. Any revision to the plan will need to be submitted to the Office of the Registrar through the graduate certificate advisor/committee.

Determining Program Requirements
A graduate certificate student's program is based upon the catalog requirements for the relevant graduate certificate program which are in effect at the time the student was accepted to the program.

Graduate Certificate University Requirements
University requirements for all graduate certificates are as follows:
1. A student must be admitted to the certificate program and establish an approved Graduate Certificate Studies Plan. Students must fulfill all General University Requirements, college requirements and certificate program requirements.
2. The student must complete at least 12 approved semester credits not counted toward the baccalaureate degree.
3. The student must complete all requirements established by the program.
4. A cumulative GPA of at least 3.00 (B) must be earned in courses identified on the official Graduate Certificate Studies Plan.
5. Only 400- and 600-level courses approved by the student's graduate certificate advisor/committee and the dean or designee, may be counted toward graduate certificate requirements.
6. In 400-level courses, a minimum grade of B is required for the course to count toward the certificate program requirements.
7. Courses at the 500-level are for professional development and are not applicable toward any certificate, even by petition.
8. In 600-level courses, a grade of C is minimally acceptable, provided the student maintains a cumulative GPA of 3.00 (B) in all courses applicable to the graduate certificate program. At least two thirds of the credits required for the certificate must be taken at the graduate level (600). For performance comparison only, in 600-level courses a grade of P (pass) is equivalent to a B or higher, but does not enter into the GPA calculation.
9. Up to one-third of the semester credits used to complete the requirements of a graduate certificate may be transferred to UAA from a regionally accredited institution. Acceptance of transfer credit toward program requirements is at the discretion of the individual program.
10. Individual program deans or designees may allow credit earned at other universities in the UA system, to be transferred to UAA, as long as at least 6 credits applicable to the student's certificate program are earned at UAA after acceptance into the program.
11. Courses taken by correspondence, credit by examination, or graded credit/no credit (CR/NC) do not count toward graduate certificate requirements. They may, however, be used to satisfy prerequisites or to establish competency in a subject, thus allowing the advisor or committee to waive certain courses in an established program, as long as the total credits in the graduate certificate program remain the same.
12. If the requirements for a graduate certificate as specified in the entry-level catalog are not met within seven years of formal acceptance into the program, admission expires and the student must reapply for admission and meet the admission and graduation requirements in effect at the time of readmission or graduation.
13. All credits counted toward the graduate certificate, including transfer credits, must be earned within the consecutive seven-year period prior to graduation.
14. Coursework used to obtain a graduate certificate or graduate degree, if accepted for inclusion in the Graduate Certificate Studies Plan and approved by the dean of the Graduate School and college dean, may be used to satisfy requirements for a graduate certificate.
15. At least one third of the credits used to satisfy graduate certificate requirements must be UAA resident credit completed after acceptance into the program. See the exception for UA system credits in (10) above.

Application for Graduation
Graduate certificate students must submit an Application for Graduation, signed by the academic advisor and accompanied by the required fee, to the Office of the Registrar. Application for Graduation deadlines are July 1 for summer graduation, November 1 for fall graduation and March 1 for spring. Applications received after the deadline will be processed for the following semester. Students who apply for graduation but do not complete the graduate certificate requirements by the end of the semester must re-apply for graduation. The application fee must be paid with each Application for Graduation.

This policy is currently under review. Please see the UAA Office of the Registrar website at www.uaa.alaska.edu/records/ for current information regarding graduation and the posting of certificates.
The Master of Arts degree in Anthropology, with emphases in General or Applied Anthropology, is designed to provide a rigorous background in contemporary theory and practice in anthropology, particularly through the use of proseminars, internships, and independent research. The MA degree requires a research-based thesis. Within the MA program, the Applied Anthropology emphasis offers specialized tracks designed to train students in applied aspects of anthropology that may be employment related. The Applied Cultural Anthropology track identifies and assists in resolving current social issues in their cultural dimensions. The Applied Biological Anthropology track encompasses forensic anthropology, medical anthropology, and other practical applications of physical anthropology. The Cultural Resource Management track involves the inventory, assessment, and conservation of archaeological and historical sites and remains, and places of traditional cultural importance, as a part of a larger management framework.

**Master of Arts, Anthropology**

**Admission Requirements**
See Admission Requirements for Master’s Degrees at the beginning of this chapter. Deadline for application: February 15 for fall semester admission. Students seeking admission into the Anthropology MA degree program must meet the following requirements (1-3) and must submit the following documents (4-9):

1. Although graduating college or university seniors are invited to apply, no student may be formally admitted to graduate study until the baccalaureate degree has been awarded from an accredited college or university.
2. It is strongly recommended that the student has completed a minimum of 18 credits of undergraduate coursework in Anthropology with a GPA of 3.00. An undergraduate major in anthropology is preferred.
3. Students must have at least a 3.00 overall undergraduate GPA.
4. Completed UAA graduate admissions application form.
5. Official transcripts of college-level work from each institution attended.
6. Graduate Record Examination (GRE) results (General Test Scores), taken within five years prior to the application date.
7. Three letters of recommendation from professors or other professionals particularly qualified to attest to the applicant’s qualifications for graduate study.
8. A letter of intent, including a brief statement of the applicant’s research and career goals and reasons for pursuing graduate study in Anthropology at UAA.
9. Optional: An example of a substantial paper or research proposal indicative of the applicant’s potential for graduate study.

Applicants may also be requested to complete a personal interview. Acceptance is determined by the Anthropology Graduate Admissions Committee and is based on:

1. The prospective student’s overall credentials and
2. The availability of appropriate faculty for student research interests.

Failure to meet any of the above criteria may result in conditional admission to the MA program. Conditional admission may be conferred on students if important deficiencies are identified in their undergraduate training. Conditionally admitted students are notified of those deficiencies, and required to rectify them at UAA, normally within a period of one year, before admission to regular status in the program is conferred. In some cases, deficiencies can be made up at another academic institution. Conditional students cannot receive graduate teaching assistantships, research assistantships or departmental travel/research grants.

Prospective graduate students are strongly advised to contact all potential faculty for research/advisor arrangements at an early stage of their admission process. An attempt is made to assign an initial advisor to students based on interests and other academic criteria.

**Academic Progress**
To maintain continuous progress toward the MA degree, a student in the graduate program is expected to complete each semester a minimum of 9 credits of coursework applicable to the program, with grades of A or B, for full-time students, or 3 credits per semester for part-time students. Failure to comply may result in the student being removed from the program. The same is true of students who fail to rectify conditions of their admission. In addition, students must advance to candidacy within five years, unless on an approved leave of absence. Such leaves of absence may not total more than four semesters.

**Candidacy Requirements**
See the beginning of this chapter for Advancement to Candidacy requirements. A student may apply for advancement to candidacy by doing the following:

1. Select a graduate studies committee by the end of the first semester of graduate study.
2. Submit an official Graduate Studies Plan, as described in the UAA catalog, after no more than three semesters of full-time graduate study.
3. Complete at least 24 semester-credits of non-thesis coursework applicable to the MA program.
4. Demonstrate research or statistical competence needed to complete the degree program, as approved by a student’s graduate studies committee. Usually, UAA courses such as STAT 2505 or STAT 253 or the equivalent, or computer skills such as photogrammetry, SEM image analysis, or GIS analysis will meet this requirement.
5. In addition, a student may be required to demonstrate mastery of a foreign language, if deemed necessary by the graduate studies committee.
6. Pass a written comprehensive examination in anthropology. Normally, this examination is taken before the end of the second year of study, but in any case must be taken by the completion of 30 semester-credits. This examination may be taken twice, but failure to pass the examination a second time will result in removal from the program.
7. Prepare a thesis prospectus for approval by the graduate studies committee.

**Graduation Requirements**
See University Requirements for Master’s Degrees at the beginning of this chapter.

**Program Requirements**

1. The following courses must be taken with a grade of A or B.
2. At least 21 credits must be taken at the graduate (600) level.
3. No more than 6 credits of Internship/Practicum or Independent Study may be applied to the degree, unless a student is taking more than one track in the Applied Anthropology emphasis, in which case 3 additional credits are available.
4. Courses outside the field of Anthropology may be taken as electives if approved by the student’s advisor.
5. The student must submit a written MA thesis to the graduate studies committee, conforming to UAA specifications.
6. The student must pass an oral defense of the thesis, open to the university community and the general public.
7. The student must submit an Application for Graduation.
8. One of the following study emphases must be chosen:

General Anthropology Emphasis
1. Complete the following:
   - ANTH A602 Proseminar in Cultural Anthropology* 3
   - ANTH A605 Proseminar in Biological Anthropology* 3
   - ANTH A611 Proseminar in Archaeology* 3
   - ANTH A699 Thesis Research 1-6
   - 600 level elective courses 6
   - 400 or 600 level elective courses 9-14
   - A total of 30 credits are required for the degree.

Applied Anthropology Emphasis
1. Complete the following:
   - ANTH A602 Proseminar in Cultural Anthropology* 3
   - ANTH A605 Proseminar in Biological Anthropology* 3
   - ANTH A611 Proseminar in Archaeology* 3
   - ANTH A699 Thesis Research 1-6
   - 600 level elective courses 6
   - 400 or 600 level elective courses 9-14
   * All proseminar courses must be taken in residence at UAA. These courses may not be taken by directed study or by correspondence. Students may not take any proseminar until formally admitted to the MA program.

2. Complete one of the following tracks:
   **Applied Cultural Anthropology Track**
   - Complete the following courses (9 credits):
     - ANTH A615 Advanced Applied Anthropology 3
     - ANTH A630 Advanced Research Methods in Cultural Anthropology* 3
     - ANTH A695 Anthropology Practicum 3
     *If this course was taken as an undergraduate upper division course (ANTH A430 or the equivalent), another course may be substituted with the approval of the student’s graduate studies committee.

   **Applied Biological Anthropology Track**
   - Complete 9 credits from the following:
     - ANTH A645 Advanced Evolution of Humans and Disease (3)
     - ANTH A655 Advanced Medical Anthropology (3)
     - ANTH A657 Nutritional Anthropology (3)
     - ANTH A685 Advanced Human Osteology (3)
     - ANTH A686 Advanced Applied Human Osteology (3)
     - ANTH A695 Anthropology Practicum (3)

   **Cultural Resource Management Track**
   a. Complete the following:
      - ANTH A675 Cultural Resource Management 3
   b. Complete 6 credits from the following:
      - ANTH A631 Field Methods in Archaeology (1-8)*
      - ANTH A680 Advanced Analytical Techniques in Archaeology (3)
      - ANTH A676 Ethical Issues in Archaeology (3)
      - ANTH A681 Advanced Museum Studies in Anthropology (3)
      - ANTH A695 Anthropology Practicum (3)
      *No more than 3 credits may be applied to this emphasis.

3. Complete 400-level or 600-level elective courses 6-11
4. A total of 30 credits are required for the degree.

**FACULTY**
Alan Boraas, Professor (KPC campus), IFSAS@uaa.alaska.edu
Phyllis Fast, Assistant Professor, AFPAF@uaa.alaska.edu
Kerry Feldman, Professor Emeritus, AFKDF@uaa.alaska.edu
Christine Hanson, Professor, AFCLH@uaa.alaska.edu
Diane Hanson, Associate Professor, AFDKH@uaa.alaska.edu
Steve Langdon, Professor/Chair, AFSL@uaa.alaska.edu
Paul White, Assistant Professor, AFPJW@uaa.alaska.edu
William Workman, Professor Emeritus, AFWBB@uaa.alaska.edu
David Yesner, Professor, AFDRY@uaa.alaska.edu
TOEFL score guidelines set by UAA for undergraduate admission. See the UAA website for scoring guidelines.

7. A brief (typically one page) statement of the applicant’s research and career goals and three letters of recommendation from persons who are qualified to evaluate the applicant’s ability to successfully perform graduate-level coursework and research should be submitted directly to the department.

8. A letter of support from a UAA faculty member expressing willingness to accept the applicant into his/her research group and a statement of available funding or funding opportunities for research support for the student.

Admission deadlines: All materials are due by March 15 for fall admission and by November 15 for spring admission.

Acceptance is determined by the BSGC and is based on the prospective student's overall credentials and the availability of appropriate faculty for student research interests. Because students will not be admitted to the program without a faculty mentor, prospective graduate students are strongly advised to contact faculty for research/advisor arrangements at an early stage of their admission process. Applicants must have a faculty mentor to be accepted into the program. Faculty research interests are available at www.uaa.alaska.edu/biology.

Graduation Requirements
See University Requirements for Master’s Degrees at the beginning of this chapter.

Program Requirements
1. Students working toward an MS degree in Biological Sciences must fulfill the following minimum requirements:
   a. A minimum of 30 credits is required, of which at least 21 credits must be at the 600 level.
   b. Complete the following courses:
      - 600-level Science Credits minimum 9
      - BIOL A692, BIOL A693, BIOL 696, BIOL A698, BIOL A699 credits
      - BIOL A692 Graduate Seminar (1) 2 to 6
      - BIOL A698 Directed Research (1-6)* up to 12
      - BIOL A699 Thesis (1-6)*
      *Note: Be aware that the university sets limits on the maximum number of these credits that can be counted toward the degree; see earlier in this chapter.

2. Upper division (400-level) credits may be applied to the degree only with approval of the student’s graduate study committee (GSC) via inclusion on the Graduate Studies Plan. In order to receive credit for coursework, students must receive a minimum grade of B in all 400-level courses, and a minimum grade of C in all 600-level courses, provided that the cumulative GPA does not drop below 3.00.

3. Within the first semester of study, each student must select a graduate study committee consisting of a minimum of three members (no more than five is recommended). Two of the three members must be full-time, tenure-track faculty in the Department of Biological Sciences. The committee chair will be the student’s research advisor if a full-time UAA faculty member. If the primary research advisor is an affiliate faculty member, the chair will be shared with a full-time UAA faculty member, and both will be designated as co-chairs. To be a co-chair, a non-UAA faculty member must have official affiliate status within the department.

4. A student’s GSC must meet each semester to review a student’s progress. A progress report form must be signed by the GSC, and submitted to the chair of the BSGC and filed with the departmental secretary. The departmental report of graduate student progress can be found online. In addition, an annual report on student progress must be filed with the Graduate School no later than May 15 of each year. Failure to file semester and annual progress reports will be taken as an indication of inadequate progress, and is grounds for probation and subsequent dismissal from the program.

5. Each student must submit an official Graduate Study Plan (GSP) form by the end of the first semester of graduate work. The official GSP formally establishes the specific program requirements that will, upon satisfactory completion, entitle the student to receive the graduate degree or certificate. This form must be approved by the student’s GSC and also be signed by the chair of the BSGC, the department chair and the dean of the College of Graduate School.

6. All graduate students must remain in good standing throughout their degree. In order to remain in good standing in the program, students must:
   a. maintain a 3.00 GPA (cumulative) in all coursework listed on their GSP;
   b. file a GSP by the end of their first semester in residence, and
   c. file satisfactory progress reports during each semester in residence.

7. At a minimum, students not in good standing will not be able to compete for teaching assistantships or be awarded tuition waivers from the department, college, or Graduate School. Students not in good standing risk being placed on probation and/or removed from the degree program.

8. Each graduate student is required to submit a written thesis proposal that details the plan for the student’s graduate work. This document is developed in consultation with the graduate advisor, and once prepared must be submitted and defended in front of the student’s GSC. Upon satisfactory completion of the defense, the student’s GSC must signify approval of the proposal by signing the proposal. A copy of the proposal shall be submitted to the BSGC chair and this copy will be placed in the student's departmental file.

9. Students will conduct the research outlined in the thesis proposal and present their results as a graduate thesis following guidelines provided by the Graduate School. This written thesis must be approved by the GSC, the chair of the Biological Sciences Department, the dean of the College of Arts and Sciences, and the dean of the Graduate School in order to be considered complete. No student shall graduate without completing a written thesis.

10. Following submission of their thesis to their GSC, students must present a thesis defense seminar, which will be followed by a private meeting with their GSC to finalize the defense. The student must successfully defend the thesis in order to graduate.

Doctoral Program, Biological Sciences
The department also offers PhD degrees in collaboration with the University of Alaska Fairbanks. Because application guidelines and requirements differ among the departments at UAF with which we collaborate, we recommend that you contact the faculty member at UAA with whom you would like to work, and discuss how to proceed.

CLINICAL PSYCHOLOGY
Social Sciences Building (SSB), Room 264, (907) 786-1795
http://psych.uaa.alaska.edu

The Master of Science in Clinical Psychology is designed to be responsive to the needs of a variety of Alaska mental health service settings and to meet prerequisites for licensing requirements at the master’s level in psychology for the state of Alaska. The MS degree allows graduates to pursue either the Licensed Professional Counselor (LPC) or the Licensed Psychological Associate (LPA) license.

The goal of the program is to provide students with a well-rounded education that includes an evidence-based background in the best practices applicable to community mental health settings. The curriculum addresses local behavioral health needs in a context that is culturally sensitive and community focused. An important program goal is the recruitment and retention of nontraditional students.

Master of Science, Clinical Psychology

Admission Requirements
Forms and instructions are available at: www.uaa.alaska.edu/psych/masters/admissions.cfm

1. Application deadline: April 1 for fall admission. This is the only opportunity for program admission each year.
2. Compliance with Admission Requirements for Master’s Degrees as given in the University of Alaska Anchorage catalog.
3. Undergraduate training in general psychology; statistics or research; learning and cognition or strategies of behavior change; clinical psychology; and psychological testing. Examples of UAA courses that meet these requirements are PSY A111, PSY A260 or PSY A420, PSY A355 or PSY A445; PSY A425; PSY A473. Alternative courses and/or experiences will also be considered. Students without an undergraduate degree in psychology must have all prerequisites.
4. Submission of a letter of intent describing the applicant’s interest and purpose in pursuing the MS degree in Clinical Psychology. The letter should address the reasons why the degree is being sought at this point in the applicant’s professional development. See instructions on the website.
5. Submission of three professional letters of reference that address the applicant’s suitability for the program.
6. Submission of Student Disclosure Form. See website.
7. Submission of a resume or vita that documents the applicant’s vocational and professional experiences, academic achievements, research accomplishments, special projects, recognitions, and other information relevant to the applicant’s qualifications for the program.
8. Submit copy of complete application packet to the Psychology program office.

Departmental approval for admission to graduate study is contingent on the applicant’s qualifications, interests, and available space.

Graduation Requirements
Students must meet all applicable university requirements for master’s degrees given earlier in this chapter and achieve a grade of B or better in all coursework applied to the degree. It is required that students comply with the American Counseling Association (ACA) and the American Psychological Association (APA) ethical guidelines throughout program completion. Violation can result in immediate dismissal from the program.

Program Requirements

1. Complete the following required courses:
   - PSY A604 Biological and Pharmacological Bases of Behavior 3
   - PSY A609 Applied Research Methods 3
   - PSY A611 Ethics and Professional Practice 3
   - PSY A612 Advanced Human Development in a Cultural Context 3
   - PSY A622 Multicultural Psychopathology 3
   - PSY A623 Intervention I 3
   - PSY A624 Group Therapy 3
   - PSY A626 Family Therapy 3
   - PSY A627 Community-based Intervention Skills 3
   - PSY A633 Tests and Measurements in Multicultural Contexts 3
   - PSY A654 Cultural Issues in Psychotherapy 3
   - PSY A665 Psychotherapy Practicum 3
   - PSY A670 Psychotherapy Internship 6
   - PSY A681 Substances of Abuse in Alaska 1
   - PSY A682 Clinical Interventions for Substance Abuse 1
   - PSY A683 Substance Abuse Assessment and Treatment Planning 1

2. Elective: Select 3 credits to be approved by advisor.
   - Some options are the following:
     - PSY A631 Cognitive Behavior Therapy (3)
     - PSY A638 Child Clinical Psychology (3)
     - PSY A690 Selected Topics in Psychotherapy (1-3)
     - PSY A699 Thesis (1-6)

3. A total of 48 credits is required for the degree.

PhD, Clinical-Community Psychology
Social Sciences Building (SSB), Room 303, (907) 786-1640
http://psychphd.alaska.edu or email AYPHD@uaa.alaska.edu

The PhD program in Clinical-Community Psychology with Rural, Indigenous Emphasis is a program jointly delivered and administered by the Departments of Psychology at the University of Alaska Fairbanks and the University of Alaska Anchorage. Although the degree is awarded by UAF, the only doctoral degree-granting institution in the UA system, students can complete the entire degree program in residence at UAA. All program courses are co-taught across campuses via video conference and all program components are delivered by faculty at both campuses. The student experience is equivalent regardless of students’ city of residence (Fairbanks or Anchorage). The program focuses on clinical, community and cross-cultural psychology with an emphasis on indigenous and rural issues. As a UAA-UAF partnership, the program integrates the strengths and resources of both campuses to advance academic excellence, promote innovative and practical research, and provide solid graduate training in clinical-community psychology.

The program ensures that graduates have obtained the full range of clinical training mandated for doctoral-level clinical psychologists and will be adequately prepared for licensure as psychologists.

Application
Students apply to the joint PhD program in Clinical-Community Psychology at both UAA and UAF. All applicants submit identical application materials to both institutions; materials are collected and evaluated by the joint UAA/UAF PhD admissions committee, which
makes admissions recommendations to the dean of the UAF Graduate School. Applicants may specify a preference for either campus as a location for their studies. For more information about the application process, visit the program website.

**Admission Requirements**

1. Application deadline: Received by February 1 for fall admission. This is the only opportunity for program admission each year.
2. Compliance with the requirements for admission to graduate studies as detailed in the UAF catalog.
3. Minimum of a bachelor’s degree (BS or BA or BED); major in psychology or related field preferred. All requirements for bachelor’s degree must be completed by June 30 prior to matriculation.
4. Minimum undergraduate grade point average of 3.00.
5. Minimum 3.00 grade point average in major and in all psychology courses.
6. Coursework in the areas of abnormal psychology, statistics, research methods and one of the following: personality, clinical psychology, social psychology or community psychology. All prerequisite coursework must be completed by June 30 prior to matriculation.
7. Letter of intent describing the applicant's interest and purpose in studying clinical-community psychology, the reasons why a PhD in Clinical-Community Psychology through the joint UAA/UAF program is sought at this point in the applicant's professional development, and demonstrating an understanding of relevant professional ethics.
8. Professional vita, including documentation regarding academic, research, and professional experiences; special projects and activities; and recognitions or honors.
9. Three professional letters of reference (preferably curriculum or research advisors, major course instructors with whom the student had contact in more than one course, and/or supervisors).
10. Disclosure statement, located at http://psyphd.alaska.edu/forms/annualdisclosure.pdf, must accompany the application to the program. Lifetime criminal background check must be submitted by students invited to a personal interview at least two weeks prior to the interview.

**Graduation Requirements**

1. Complete the general university requirements for graduate programs as outlined in the UAF catalog.
2. Complete the program and additional requirements listed below.

**Program Requirements**

Students must complete 26 required courses (for a total of 70 credits), 18 credits of dissertation, 18 credits of predoctoral internship, and 9 credits of electives. Students must accumulate a minimum 115 credits to graduate and must have completed all required coursework. Students entering the program with a master’s degree in psychology or related field must complete at least two years of full-time coursework, 18 credits of dissertation, and one year of predoctoral internship, all as approved by the student’s advisory committee.

1. Cultural experience: During their time in the PhD program, students must participate in a cultural experience as defined by program faculty. The actual experience will vary from year to year, but includes direct exposure to Alaska Native and other cultural worldviews, values and life experiences through contact with cultural elders and advisors. The goal of the cultural experience is to provide an opportunity to interact directly with cultures in a non-classroom setting.
2. Complete the following required courses.

3. Electives 9

4. A total of 115 credits is required for the degree.

**Additional Requirements**

**Clinical-Community Competency**

Clinical-community competency is demonstrated through preparation of a clinical-community portfolio that will be evaluated by an ad hoc committee. Criteria for the clinical-community portfolio are clearly defined in the student handbook. Students must pass the clinical portfolio before starting Predoctoral Internship.

**Research Competency**

Research competency is demonstrated through preparation of a research portfolio that will be evaluated by an ad hoc committee. Criteria for the research portfolio are clearly defined in the student handbook and samples are available to students.

**Advancement to Candidacy**

Before students are allowed to register for dissertation credits, they will be reviewed for performance by the joint UAA/UAF PhD committee, using existing university standards and forms for advancement to candidacy. Review will be based on faculty experience with students to date, submitted paperwork and student's progress through the program. Feedback from the review will be provided to the student by her or his advisor. To advance to candidacy, students must also have received at least a conditional pass on their comprehensive exam. The program defines the comprehensive exam as being met through passing the required portfolios. Passing one portfolio qualifies the student for a conditional pass on the comprehensive exam, which is sufficient for advancement to candidacy. Both portfolios must be passed for the comprehensive exam to be fully passed.

**Doctoral Dissertation Proposal Defense**

Before commencing data collection for a dissertation project, students must defend their proposal to their dissertation committee. The defense must be based on a written dissertation proposal to be distributed to the dissertation committee after approval by the dissertation chair. The defense will be an oral presentation to the committee by the student and will not be a public meeting. For data-collection based dissertations, the proposal must also be approved by the UAA or UAF Institutional Review Board before data collection can commence.
Doctoral Dissertation
A doctoral dissertation must be carried out successfully and approved by a doctoral dissertation committee. The dissertation committee will consist of at least four members. It is recommended that the dissertation chair be on the same campus as the student. There must be at least one committee member from each psychology department at UAF and UAA. Content areas can vary widely, but must be related to clinical, community, or cross-cultural issues and applicable in Alaska settings.

Advancement to Internship
Students must apply to the local Director of Clinical Training (DCT), by September 30 (the fall semester prior to the year during which the student seeks to complete the internship) stating their intent to advance to internship. For most students this will mean that the application needs to be made in the fall of the fourth year in the program. The DCT will notify the core faculty committee, who will review each student's coursework, assure that adequate progress has been made toward all prior milestones [i.e., clinical-community competency, doctoral dissertation outline (the outline must be completed, submitted, and approved by the Chair), and advancement to candidacy] before approving the student for internship and before writing a letter of support for the student. Students must fully pass the Clinical-Community Portfolio before starting Internship. Failure to pass the Clinical-Community Portfolio results in the student not being eligible to enroll in internship credits.

Predoctoral Internship (PSY A686)
A full-time, one-year predoctoral internship is required. This internship should meet the criteria laid out by the American Psychological Association; selection of an Association of Psychology Postdoctoral and Internship Centers (APPIC)-approved internship is encouraged. Placements in Alaska are preferred, but not required.

APA Ethical Guidelines
Strict compliance with APA ethical guidelines is required throughout participation in the degree program. Violations can result in immediate dismissal from the program and failure to graduate. Completion of an annual disclosure statement is also required. Affirmative answers may result in dismissal from the program and failure to graduate. The disclosure statement may be viewed at http://psypbd.alaska.edu/forms/annualdisclosure.pdf.

CREATIVE WRITING AND LITERARY ARTS
Administration/Humanities Building (ADM), Room 270, (907) 786-4394
http://uaa.alaska.edu/cwla
AYCWLA@uaa.alaska.edu

The Department of Creative Writing and Literary Arts offers a 45-credit Master of Fine Arts in Creative Writing and Literary Arts through a low-residency program. The MFA is a professional degree that prepares students for various careers, including those involving professional writing, teaching, and editing. The MFA in Creative Writing and Literary Arts combines mentorships with a residency period of approximately 12 days held on campus each summer. The residency session includes all faculty and students in an intensive schedule of workshops, classes, presentations, and readings. Students and mentors will then conduct one-on-one coursework at a distance during fall and spring semesters, supported by web resources. Mentors will include core faculty members and associate faculty who are established teachers and writers. Residency sessions also will feature annual guest readers in other disciplines, including scientists, artists, musicians, cultural leaders, and scholars. Students will participate in three residency sessions as part of their workshop credits. During a fourth residency, they will present and defend their thesis projects and give a public reading.

The department offers a studio program that balances the study and practice of craft, and the study of form and theory. Students are accepted into a particular genre: fiction, literary nonfiction, or poetry; and will concentrate their studies in that genre. During mentorships, students produce original works of literature as well as critical analyses of books chosen in collaboration with the mentor. The program offers — but is not limited to — special emphasis on writing about the relationships between people and place, landscape, nature, science and the arts, no matter where these relationships exist or how they are expressed. In their final year, students will prepare and present a thesis that includes a book-length work of original creative writing, a thesis essay, and an annotated bibliography. Through completion of the coursework and the thesis, students will develop and demonstrate an understanding of the history, traditions, theory, and contemporary issues in their genre and be able to situate their own work within that genre; articulate and demonstrate craft elements in their creative work; and develop and demonstrate the skills necessary for professional employment in literary fields such as writing, teaching, and editing.

Master of Fine Arts, Creative Writing and Literary Arts

Admission Requirements
See Admission Requirements for Master’s Degrees at the beginning of this chapter.

In addition, at the time of application, students must submit the following to the Department of Creative Writing and Literary Arts:

1. Personal essay (see website for topic and detailed instructions)
2. List of references, including email addresses; no need to send reference letters
3. Unofficial transcripts
4. Creative work: your best work
Fiction - One story (15 pages or less) or a chapter of a novel accompanied by a brief synopsis
Poetry - Ten pages of poetry, no more than one poem to a page
Literary nonfiction - Fifteen pages or less of an essay, memoir, or other creative work of nonfiction.

Please see the CWLA website for the most current and detailed application instructions.

All materials must be received by the Department of Creative Writing and Literary Arts by January 15 for earliest consideration for admission into the program. Summer admission only.

Admission will depend upon the evaluation of the entire application packet, with emphasis placed on the manuscript sample.

Graduation Requirements
See University Requirements for Master’s Degrees at the beginning of this chapter.

Program Requirements
1. Complete 15 credits in the student's chosen genre from the following:
   - CWLA A652 Graduate Writer’s Workshop: Poetry 5
   - CWLA A662 Graduate Writer’s Workshop: Fiction 5
   - CWLA A672 Graduate Writer’s Workshop: Literary Nonfiction 5

2. Complete 15 credits of:
   - CWLA A690 Studies in Form and Theory (5)
   This is an umbrella course and may be repeated with changes in subtitle.

3. Complete 5 credits of:
   - CWLA A695 Literary Practicum (1-5)

4. Complete 10 credits of:
   - CWLA A699 Thesis (5)
   To produce a book-length creative work, annotated bibliography, and thesis essay.

5. Successful presentation of thesis in colloquium.
6. A total of 45 credits is required for the degree.

ENGLISH
Administration/ Humanities Building (ADM), Room 101, (907) 786-4355
http://english.uaa.alaska.edu

Master of Arts, English
The Department of English offers a 36-credit Master of Arts in English emphasizing balanced coursework in literature, rhetoric, composition, and language theory. This degree prepares students both to pursue a more specialized PhD program and to take a variety of jobs in teaching, writing, editing, and related fields. Students take four required courses:
- Contemporary Literary Theory (ENGL A602), Issues in Rhetoric and Composition (ENGL A603), Advanced Research and Professional Practices (ENGL A689), and Thesis (ENGL A699). Teaching Assistants (TAs) also are required to take ENGL A687 (Composition Theory and Practice). Otherwise, students enjoy significant flexibility in designing their degree. The degree culminates in the master’s thesis, a thoroughly researched and carefully argued article-length work that demonstrates the student’s academic achievement. Competitive teaching assistantships and research assistantships are also available. Contact the English Department for details, deadlines, and applications.

Admission Requirements
Admission to the MA in English requires a baccalaureate degree from a regionally accredited institution in the United States (or foreign equivalent) as defined by the Council of Higher Education, with at least a 3.00 undergraduate GPA. See Admission Requirements for Master’s Degrees at the beginning of this chapter for additional prerequisites. Complete application packets are due by June 15 for fall enrollment and November 1 for spring enrollment. Late applications will be reviewed for the following semester. TA/RA applications are due to the department by April 1 (for fall semester).

At the time of application, students must submit the following documents to the Master of Arts program, Department of English:
1. A three- to five-page application essay that addresses the student’s background in English, reasons for applying to Master of Arts program, specific area(s) of interest, learning goals, and professional objectives.
2. A recent sample (from within the past five years) of the applicant’s academic or professional writing.
3. Two letters of recommendation from faculty who know the applicant’s academic work (or professional writing, when appropriate).
4. Official transcripts for all prior coursework.

Admission to the program is based upon the evaluation of the entire application packet in conjunction with the applicant's undergraduate GPA.

Under-Prepared Students/Admission for Students without an Undergraduate Degree in English (or Related Discipline)
An applicant who does not have sufficient undergraduate experience in English, at the discretion of the department, may be required to take up to 9 credits of additional coursework at the undergraduate level. These preparatory courses do not count toward the MA degree and must be passed with a grade of B or better.

International Students
According to the UAA Admission Requirements for Master’s Degrees, applicants whose native language is not English must submit official TOEFL (Test of English as a Foreign Language) scores, and the department reserves the right to require TOEFL scores above the university requirement for graduate admission.

Teaching and Research Assistantships
Applicants to the graduate program who are also interested in an assistantship should contact the Department of English for an application packet. Students selected for teaching or research assistantships are required (1) to attend all training, informational, and evaluation sessions and (2) to meet the academic and professional standards set by faculty members. If these requirements are not met, students risk forfeiting their assistantships.

Advising and Program Sequence
Admitted students are assigned an initial advisor whose responsibility is to assist the student prior to initial enrollment. Students shall acquaint themselves with different faculty members during the first year and approach a faculty member to serve as a mentor for the duration of the student’s program. It is also expected that the mentor will assist the student in course selection and should advise the student in selecting a thesis committee and thesis advisor. Students are advised to complete the required MA courses in the following sequence: ENGL A602,
ENGL A603, ENGL A689, ENGL A699 (final semester). ENGL A687 is offered every fall semester.

The thesis proposal, a requirement of ENGL A689, must be approved by the graduate English coordinator; students will not be allowed to enroll for ENGL A699 Thesis without completing ENGL A689 and having an approved thesis proposal.

Developed in consultation with the mentor and in reference to the program requirements (see below), the Graduate Studies Plan (GSP) detailing the student’s actual coursework should be submitted with the final thesis paperwork. See the beginning of this chapter for a description of the GSP and other university requirements. The Graduate Studies Plan and other paperwork may be found on the UAA Graduate Studies webpage.

**Thesis Requirements**

The thesis is the culmination of the MA program. It is an extended, article-length writing project that demonstrates MA students’ ability to think creatively, research thoroughly, write effectively, and argue analytically at the graduate level. Students are expected to have conversations with faculty members about possible thesis topics during their coursework, and the thesis committee and thesis chair should be chosen in consultation with the graduate English coordinator.

Additional thesis requirements follow:

1. The thesis should focus upon, and fall within, a disciplinary specialty covered by a tenured or tenure-track UAA English Department faculty member. (See the faculty profiles on the English Department webpage for descriptions of faculty members’ fields of expertise.)

2. The thesis should primarily address recognized disciplinary specialties (literary, rhetorical, cinematic, or electronic texts, concepts, and perspectives) and methodologies (literary critical and rhetorical analysis, qualitative or quantitative research). Secondarily, the project may incorporate cultural studies approaches, popular culture topics, or extra-canonical texts, if pertinent and approved by the thesis advisor.

3. The thesis should articulate a critical approach to the topic according to a clearly defined literary theory, rhetorical approach, or linguistic consideration (a key question, idea, concept, theorist, or school of thought).

4. The thesis may be an extension of coursework; however, under no circumstances is it permissible to turn in the same paper for both a course and the thesis.

5. The thesis must be developed out of the thesis proposal required in ENGL A689 and approved by the graduate English coordinator.

6. The completed thesis should be submitted to the thesis committee at least six weeks prior to the expected graduation date and at least two weeks prior to the thesis defense. See the English Department for specific dates and deadlines. If the thesis is not submitted with adequate lead time, and revisions are required, it is unlikely that the thesis can be completed in time to meet graduation deadlines. See the UAA Graduate School website for thesis deadlines.

7. Students must be aware that after the thesis defense is completed, and before the degree can be awarded, the thesis must also be:

   - Revised according to the instructions of the thesis defense committee (if any);
   - Submitted, reviewed and approved in the College of Arts and Sciences Dean’s Office;
   - Revised according to the CAS Dean’s Office’s instructions (if any);
   - Submitted, reviewed and approved by the Graduate School;
   - Revised according to the Graduate School instructions (if any); and
   - Submitted to the Graduate School for binding and archiving (required), and copyrighting (optional) according to current requirements.

Please see the English Department support staff for a detailed description of the procedures to follow after the thesis defense. The degree can be posted, and a student can officially graduate, only after meeting all additional paperwork and administrative requirements as determined by the Graduate School. The Office of the Registrar completes the final degree check to ensure that all degree requirements have been met, including the resolution of any incomplete (I) or deferred grades (DF).

**Continuous Registration and Leaves of Absence**

Students have seven years to complete all requirements for the MA in English, and continuous registration is expected of all students throughout their courses of study. Students planning not to take coursework or register for thesis credit during any fall or spring semester (or summer, if they plan to use university facilities or consult with faculty during that time) prior to completion of their degree must submit the appropriate continuous registration paperwork and fees to ensure continuous enrollment during the degree-seeking period. Students not continually registered or on an approved leave of absence risk being removed from degree-seeking status. See the Related Master’s Degree Policies at the beginning of this chapter for additional details.

**Graduation Requirements**

See University Requirements for Master’s Degrees at the beginning of this chapter. Application for Graduation deadlines are July 1 for summer graduation, November 1 for fall graduation, and March 1 for spring graduation. The Application for Graduation must be signed by the student’s graduate advisor and submitted with the application fee by the appropriate deadline. Late or incomplete applications are processed the following term, and students who apply for graduation but do not complete the requirements must reapply with the appropriate fee in a subsequent semester.

**Program Requirements**

In general, MA degrees in English should follow the guidelines below, but the graduation requirements for individual students are based upon each student's approved Graduate Studies Plan.

1. Core Courses (12-15 credits*)
   - Complete the following four core courses
     - ENGL A602 Contemporary Literary Theory 3
     - ENGL A603 Issues in Rhetoric and Composition 3
     - ENGL A689 Advanced Research and Professional Practices 3
     - ENGL A699 Thesis 3

   *TAs are also required to take ENGL A687 Composition Theory and Practice

2. Distribution Requirements (18 credits)
   - All courses are repeatable up to 6 credits with a change of subtitle:
     - ENGL A610 Studies in literary Periods and Movements (3) 18
     - ENGL A611 Studies in Genre (3)
     - ENGL A612 Studies in English Linguistics (3)
     - ENGL A613 Studies in Rhetoric and Composition (3)
     - ENGL A636 Studies in Contemporary Theory (3)
     - ENGL A676 Studies in Texts and Cultures (3)

3. Elective Courses (3-6 credits)
   - Elective courses may include, with the approval of the committee chair:
     - Up to 6 credits of 400-level ENGL courses (3-6)
     - Up to 6 credits of approved coursework outside the department (3-6)
     - ENGL A687 Composition Theory and Practice (3)
     - ENGL A698 Individual Research (3)

4. A minimum of 36 credits is required for the MA in English

*Note: Graduate courses are offered on a two-year schedule. A tentative course rotation schedule is available from the English Department.*

COLLEGE OF BUSINESS AND PUBLIC POLICY

BUSINESS ADMINISTRATION
Edward & Cathryn Rasmuson Hall (RH), Room 304, (907) 786-4171
www.cbpp.uaa.alaska.edu

The College of Business and Public Policy (CBPP) offers the Master of Business Administration (MBA) degree in General Management. The MBA program is accredited by the Association to Advance Collegiate Schools of Business (AACSB International).

Program Policies and Administration
Students must maintain a minimum 3.00 GPA on all coursework in the MBA program, including foundation courses. Although minimally acceptable, a grade of C in a graduate course may be offset with an A grade in another graduate course. Students with a GPA below 3.00 will be placed on probation and may be dropped from the program if the GPA is not brought up to 3.00 within one academic year. All advanced MBA course requirements (core plus electives) must be completed within seven calendar years.

The faculty reserves the right, where warranted by evaluation of a student's progress and apparent knowledge, to require additional coursework or other preparation to ensure the degree candidate possesses adequate professional skills and capabilities. This includes the ability to reason and communicate effectively, both verbally and quantitatively.

The MBA program is the responsibility of CBPP's graduate faculty, which acts as a policy-setting body and as an appeals board. The complete MBA program policies, requirements, and procedures may be obtained from the CBPP's Graduate Office. Students are expected to be familiar with, and adhere to, both the MBA program requirements and procedures, and the general UAA requirements for graduate degrees.

Contact the CBPP Graduate Office for full program information, including application forms and procedures.

Graduate Office
UAA College of Business and Public Policy
University of Alaska Anchorage
3211 Providence Drive, Anchorage, AK 99508, U.S.A.
Telephone: (907) 786-4171
Facsimile: (907) 786-4115

Master of Business Administration, General Management
The MBA in General Management provides students with perspectives and skills to prepare them for increasingly significant managerial leadership roles.

The focus of the program is management practice with a recognition that sound practice requires a thorough understanding of underlying management principles and techniques. The MBA graduate should be thoroughly grounded in state-of-the-art management theory and practice, aware of the complex global environment in which modern organizations operate, adaptive to change, articulate, and ethical.

The program serves full- and part-time students and classes are generally scheduled evenings or Saturdays. Although many students are from the greater Anchorage area, the program also attracts students from the rest of the United States and from foreign countries, particularly from those on the Pacific Rim.
Students may enter the program in either the fall or spring semester. A limited number of courses are also offered during the summer. Current application deadlines, as well as other detailed program information, may be obtained by contacting the College of Business and Public Policy Graduate Office.

**Admission Requirements**

Applicants must meet both the Admission Requirements for Master’s Degrees and the College of Business and Public Policy requirements outlined below.

Admission to the MBA program is restricted to students holding a baccalaureate degree from an AACSB or regionally accredited university, or foreign equivalent. In general, two formulas using undergraduate performance as measured by the GPA on a 4.00 scale and the score on the Graduate Management Admission Test (GMAT) will be used to assess an applicant’s potential for success in the MBA program:

1. Undergraduate GPA $\times$ 200 + GMAT $> 1050$
2. Upper division GPA $\times$ 200 + GMAT $> 1100$

GMAT waivers may be considered for applicants meeting any of the following criteria:

1. Hold another master’s degree from an accredited university.
2. Have a professional designation beyond the baccalaureate (such as CPA, CFA).
3. Have an undergraduate GPA of 3.00 or higher.

Additional indicators for predicting success in individual cases may be provided through documented performance in extracurricular activities, evidence of creativity and leadership, and a record of accomplishment in business or other professional activity.

Applicants whose native language is not English are required to score at least 550 on the TOEFL examination or otherwise demonstrate competency in English. Students may apply to enter the program at the beginning of either the fall or spring semester. There currently is no specific application deadline, but students should apply before the start of their first semester. In some cases students may be admitted conditionally while their paperwork is completed. Students in conditional admission status are restricted in the number of courses that they can take before being fully admitted.

**General Management Program Structure**

The requirements consist of two parts: foundation courses and advanced courses in business or accounting or relevant experience and expertise. In key functional areas of business, additional foundational coursework may be required. These foundation courses are:

- ACCT A601  Accounting Foundations for Executives 3
- BA A601  Business Statistics and Data Analysis 2
- BA A603  Fundamentals of Finance 3
- BA A604  Marketing Management 3
- BA A606  Fundamentals of Production/Operations Management 2
- ECON A602  Introduction to Economics for Managers 3

In some cases, students may have fulfilled the core foundation requirements in part through undergraduate courses, or some students holding undergraduate business or accounting degrees may not have covered all of the foundation material in their degree program, or some of their foundation work may be dated in comparison to modern business practice. Thus, foundation requirements will be evaluated on an individual student basis to ensure each student is properly prepared for the more advanced MBA courses. Foundation courses may be waived or added to an individual student's program based on previous preparation.

In addition, entering students are expected to have basic mathematical, computer, and communication skills. Students deficient in basic skills will be required to improve them through independent study, noncredit courses, undergraduate coursework, and/or seminars or workshops.

The main body of the MBA curriculum consists of seven core courses (21 credits) and 15 credits of curricular options for a total of 36 credits of advanced coursework:

**Core Courses (21 credits):**

- ACCT A650  Seminar in Executive Uses of Accounting 3
- BA A632  Organizational Behavior and Foundations of Behavioral Science 3
- BA A633  Problem Formulation and Decision Analysis 3
- BA A635  Current Marketing Issues Seminar 3
- BA A636  Financial Decision Making 3
- BA A655  Strategic Management Seminar 3
- CIS A692  Management Information Systems Seminar 3

In certain cases, where warranted by previous education or experience, an MBA core course may be waived and an elective substituted.

**Curricular Options (15 credits):**

A. **Executive Focus (3 credits):** Select at least one course from the following:

- BA A628  Executive Leadership 3
- BA A629  Negotiation & Conflict Management 3
- BA A631  Business Environment Analysis 3
- BA A634  Organizational Design and Development 3

B. **Elective Coursework (9 credits):**

Students can personally design an area of concentration from courses offered within the College of Business and Public Policy that focus on: Management Theory and Practice; Marketing; Finance; International Business & Global Economics; Management Information Systems; Logistics and Supply Chain Management; or Public Administration. In addition, elective coursework can be selected from graduate courses offered by other colleges and disciplines and/or graduate courses in programs offered at other accredited universities.

C. **Capstone course requirement (3 credits):**

Provides the opportunity to integrate acquired knowledge of business administration. Select one course from the following depending on preferred nature of experience (practical or academic) and application (applied or theoretical):

- BA A656  Management Project 3
- BA A686  Management Simulation 3
- BA A695  Graduate Internship 3
- BA A698  Individual Research 3

**Thesis Option:**

- BA A699  Thesis 6

Students (especially those who are considering pursuing a PhD degree) may elect to complete a master’s thesis.

Master of Science, Global Supply Chain Management
The MS GSCM degree focuses on managing global supply chain systems with an emphasis on managerial leadership, information technology and international business practices. The degree requires five six-credit courses, to be completed over five consecutive semesters. Time to completion is approximately 20 months for a total of 30 credit hours.

Classes meet exclusively on weekends. Each course requires four weekend meetings per semester. Between weekends, students are engaged in research and online discussions with the instructor and among one another. Students apply their coursework to a host business to attain hands-on experience.

Classes are kept to a maximum of 25 students and each student proceeds through the five courses in the same order as part of a cohort group.

The degree is a stand-alone program that is not subsidized by the State, and therefore normal tuition fees do not apply. Please contact the College of Business and Public Policy at (907) 786-4171 for tuition and pre-application information.

Program Outcomes
Graduates of the MS GSCM program will be able to assess logistical activities and supply chain relationships in a strategic context within international and cross-cultural business environments. They will be able to demonstrate the role of leadership and team building in fostering and enhancing supply chain integration. Graduates will also be able to apply information technology as a means to manage knowledge; and use financial and cost accounting techniques to effectively measure logistical value within and across companies. Finally, graduates will have developed an appreciation for the complex nature of global supply chain management in an increasingly integrated world that is subject to rapid change.

Admission Requirements
Applicants must have a minimum of seven years of work experience in some function of logistics or supply chain management and a bachelor’s degree in any discipline. Exceptions to work experience may be made for individuals with a bachelor’s degree in logistics, supply chain management, or a discipline comprised of courses that are closely related to logistics and supply chain management.

In addition, applicants must provide two letters of recommendation, undergraduate degree transcripts, and must complete the Graduate Management Admission Test (GMAT). The minimum acceptable GMAT score is determined by:

\[(\text{Undergraduate GPA} \times 200) + \text{GMAT score} > 1050.\]

Conditional admission may be granted if the GMAT has not been completed, but all other required information has been provided. However, the GMAT must be completed with the minimum acceptable score before the start of the third course in the program.

Applicants whose native language is not English are required to score at least 550 on the TOEFL examination or otherwise demonstrate competency in English.

Academic Progress
A minimum GPA of 3.00 is required to successfully complete the program. A grade of C is minimally acceptable and must be offset with a grade of A in one of the other courses. A student must withdraw from the program if he or she earns three, C course grades.

The program’s cohort format allows students to develop working relationships with group members, undertake group activities and research, and share professional experiences.

The MS GSCM program is the responsibility of the Logistics Department, which acts as the program’s policy-making body, and appeals board. Students are expected to be familiar with, and adhere to, the MS GSCM program requirements and procedures, as well as general UAA admissions and graduate degree requirements.

Contact the CBPP Graduate Office for full program information, including application forms and procedures:

PUBLIC ADMINISTRATION
Edward & Cathryn Rasmuson Hall (RH), Room 304, (907) 786-4171
www.cbpp.uaa.alaska.edu

The Master of Public Administration (MPA) degree provides students with knowledge and skills needed for professional careers in public service. MPA students learn analytical techniques and add to their expertise in organizational and program management, policy analysis, and related areas. Emphasis is on public policy, management, and administrative issues. Students specialize in one of the following emphasis areas: Public Management, Policy Analysis, Health Administration, or Criminal Justice.

The Public Management emphasis is designed for those working for, or planning to work for, executive agencies of local, state, and federal government; for private, nonprofit organizations; and in government relations units of private corporations. It provides basic tools of public management, understanding of structure and processes of public organizations, and the history and context of the field of public administration.

The Policy Analysis emphasis offers professional staff of executive and legislative departments of local, state, and federal governments with the capability to analyze the effects of a broad range of actual and hypothetical government policies. It emphasizes application of economic analysis and other quantitative and qualitative methods to Alaska and national policy issues.

The Health Administration emphasis prepares students as health administrators in state, local, or federal agencies; nonprofit organizations; and private companies in the health care industry and related private companies that do health-related work. Students develop knowledge and skills necessary for effective public
management in the health care area: planning, decision-making, and managing people, money and programs.

The Criminal Justice Emphasis provides a theoretical basis for management careers in criminal justice. Students develop knowledge and skills necessary for effective public management: planning and decision-making, managing people, money and programs. These skills are applicable to a wide spectrum of employment areas in law enforcement and the criminal justice system, and also prepare students seeking to earn a terminal degree in justice administration.

Students who have earned the MPA degree may earn a Master of Business Administration (MBA) degree by completing a minimum of 21 resident credits not used for any previous degree. Specific course requirements are at the discretion of the CBPP director of graduate programs and will be reflected in the student’s MBA Program Plan prior to beginning coursework toward a second degree.

Master of Public Administration

Admission Requirements

Students enter the MPA program with a bachelor’s degree from a variety of educational backgrounds. Accordingly, the program is designed to meet the needs of students with a wide mix of professional backgrounds and interests.

Students interested in the Master of Public Administration program may accumulate up to 9 credits in the program as a non-degree-seeking student before applying for admission to the program. To apply for admission, applicants must meet both the University of Alaska Anchorage Admission Requirements for Master’s Degrees and the Department of Public Administration requirements outlined below.

1. Students applying for admission to the MPA program must submit a 300-500 word statement on their career goals and how the MPA degree relates to them.
2. Applicants must submit a professional resume or vita.
3. In addition, applicants must meet one of the following criteria:
   a. Have a combined undergraduate GPA plus GRE Analytic score totaling 7.0 or higher. The GRE test is not required for students having already earned a master’s degree from a regionally accredited institution in the United States or a foreign equivalent, provided they have an undergraduate GPA of 3.00.
   b. Have an undergraduate GPA of 3.00 and have taken an introductory course in government (or demonstrate knowledge by taking an approved UAA college-level achievement examination)
   c. Complete two PADM core courses with a grade of B or better and complete all PADM core course prerequisites (BA A273, ECON A201 and A202 or ECON A602, and PS A101) or their equivalents.

Detailed admission standards available on our website: www.mpa.alaska.edu.

Contact the CBPP Graduate Office for full program information, including application forms and procedures.

Graduate Office
UAA College of Business and Public Policy
3211 Providence Drive, Anchorage, AK 99508 U.S.A.
Telephone: (907) 786-4171
FAX: (907) 786-4115

Academic Progress

To maintain satisfactory progress toward the degree, a student in the MPA program is expected to complete a minimum of six semester credits each calendar year, starting with the first term of enrollment. The six semester credits may consist of either undergraduate prerequisite courses, or graduate program courses. Failure to comply with the six-credit minimum each calendar year may result in a student being dropped from the program.

Graduation Requirements

See University Requirements for Master’s Degrees at the beginning of this chapter.

Program Requirements

1. Complete the MPA core courses:
   - ECON A625 Economics and Public Policy 3
   - PADM A601 Introduction to Public Administration 3
   - PADM A602 Seminar in Public Management 3
   - PADM A604 Research Methods in Administration 3
   - PADM A606 The Policymaking Process 3
   - PADM A628 Public Financial Management 3

2. Complete one of the following emphasis areas:

Public Management Emphasis (15 credits)
   - PADM A603 Management Analysis 3
   - PADM A610 Organizational Theory and Behavior 3
   - PADM A624 Human Resources Administration and Labor Relations 3
   - Plus two 600-level electives 6

Policy Analysis Emphasis (15 credits)
   - PADM A632 Policy Analysis 3
   - PADM A688 Program Evaluation and Measurement 3
   - Plus three 600-level electives 9

Health Administration Emphasis (15 credits)
   - PADM A624 Human Resources Administration 3
   - NS/HS A626 Principles of Epidemiology 3
   - NS A658 Public Health Policy 3
   - NS A681 Analysis of Health Services 3
   - Plus one 600-level elective 3

Criminal Justice Emphasis (15 credits)
   - JUST A625 Seminar in Criminal Violation 3
   - JUST A630 Justice Administration Theory and Practice 3
   - JUST A670 Administrative Law 3
   - Choose one of the following:
     - JUST A640 Corrections Theory and Research (3)
     - JUST A650 Policing Theory and Research (3)
   - Plus one 600-level elective 3

3. Candidates for the MPA who do not have public administration work experience must complete one additional course (3 credits):
   - PADM A620 Internship in Public Administration/Policy (1-3) 3

4. Take the core comprehensive examination after completing the core courses. This examination must be passed before the student may enroll in the capstone course.

5. Complete the capstone project course (3 credits):
   - PADM A659 Public Administration Capstone 3

6. A total of 36-39 credits is required for the degree.

FACULTY

Steven Aufrecht, Professor Emeritus, AFSEA@uaa.alaska.edu
Sharman Haley, Professor, AFSEH@uaa.alaska.edu
Heather Hudson, Professor, AFHEH@uaa.alaska.edu
Greg Protasel, Associate Professor, AFGJP@uaa.alaska.edu
Sheila Selkregg, Assistant Professor, sheilas@uaa.alaska.edu
The College of Education comprises a community of educators dedicated to improving the quality of education. The mission of the College of Education is to prepare educators and support the lifelong learning of professionals to embrace diversity and to be intellectually and ethically strong, resilient, and passionate in their work with Alaska's learners, families, educators, and communities. Our programs emphasize the power of learning to transform people's lives. Across the university, faculty members teach professional educators to work in diverse settings to form and sustain learning partnerships, and to provide learning across the life span. We are confident that this preparation will result in educators' significant contributions to society.

The College of Education promotes the following core values in their collegial interactions to ensure that program graduates exhibit:

- Intellectual vitality: Professional educators examine diverse perspectives, engage in research and scholarship, contribute to knowledge and practice, and apply innovations in technology.
- Collaborative spirit: Professional educators generate, welcome, and support the collaborative relationships and partnerships that enrich people's lives.
- Inclusiveness and equity: Professional educators create and advocate for learning communities that advance knowledge and ensure the development, support, and inclusion of peoples' abilities, values, ideas, languages, and expressions.
- Leadership: Professional educators are committed to the highest standards of ethical behavior in their roles, using professional expertise to improve the communities in which they live and work, and demonstrating the ability to translate theories and principles into transformative educational practice.

We believe that learning must be designed, delivered, and evaluated within the contexts of these core values and program outcomes.

The College of Education offers undergraduate and graduate curricula and programs designed to prepare personnel for various professional roles related to education in a variety of learning environments. The College of Education is accredited by the National Council for Accreditation of Teacher Education (NCATE). Our professional preparation programs are approved by the Alaska Department of Education and Early Development and are based on NCATE standards. The Alaska Department of Education and Early Development issues certificates and endorsements under the “approved program” process for certification. The University of Alaska Anchorage recommends individuals to the commissioner of Education and Early Development for certification or endorsement after successful completion of one or more of the approved programs. Only the dean of the College of Education is authorized to recommend candidates for the appropriate certificate or endorsement.

In each of the college’s curricula and programs, candidates are introduced to fundamental issues of education in the contemporary world through courses designed to develop perspective and understanding of the relationship of education to society. Courses provide theory and practice in the development of instructional materials and an understanding of methods of instruction. Many courses and programs are offered through distance delivery methods. The college offers high-quality, distance-delivered coursework in order to improve access for rural students and provide flexible scheduling for practicing educators. Additionally, the college partners with UAA community campuses in optimizing the use of technology for distance delivery through intercampus collaboration.

All students who desire a degree, certification or endorsement must apply for admission to the University of Alaska Anchorage and to the College of Education. Students are formally admitted to an appropriate program on the basis of multiple criteria, including their ability to make a positive contribution to educational professions. Candidates who seek Alaska state licensure must successfully complete the College of Education’s “approved program,” as well as any additional requirements that may be initiated by the Alaska Department of Education and Early Development. Only courses with a grade of C or higher will be applied to meet certification or endorsement requirements. Some programs require a minimum grade of B. In addition, candidates must demonstrate professional behaviors and dispositions consistent with the College of Education's Conceptual Framework as well as abide by the UAA Student Code of Conduct and the Code of Ethics and Professional Teaching Standards adopted by the Alaska Professional Teaching Practices Commission. These documents are available on the College of Education website.

Applicants admitted to a graduate program work with an advisor from the major and related areas. The advisor develops a Graduate Studies Plan with each candidate based upon transfer credits, program requirements, and elective courses. The program may or may not include certification or endorsement requirements.

The College of Education has three academic departments:

1. The Department of Teaching and Learning with programs in school-age care, early childhood education, elementary education, and secondary education. (907) 786-4481
2. The Department of Counseling and Special Education with programs in counselor education, special education, early childhood special education, and opportunities in speech and language pathology. (907) 786-6317
3. The Department of Educational Leadership with programs in educational leadership (principal, superintendent, and teacher leadership preparation). (907) 786-4450

Professional and Continuing Education (PACE)
http://coe.uaa.alaska.edu/pace

Quality professional learning enriches the knowledge and skills of educators and improves the educational experiences of all students. Therefore, the Office of Professional and Continuing Education (PACE) partners with UAA academic units, schools, professional societies, and other organizations to support learning opportunities such as 500-level courses and academies. The flexible structure of PACE allows for rapid response to the dynamic learning needs of educators and related-services professionals around the state.

Master of Arts in Teaching
http://coe.uaa.alaska.edu/secondary

The Master of Arts in Teaching (MAT) degree is intended to prepare students for a career in teaching. It is an intensive experience for the dedicated graduate student who has both academic preparation in a content area taught in the public schools and significant life experience. The program integrates coursework and field experiences to meet Alaska and national teacher education standards. Graduates of the MAT program are prepared to become educators who are:

- Excited about teaching and learning in content based classrooms.
- Committed to a life of thoughtful practice.
- Dedicated to working with all children, their families, and support personnel.
- Knowledgeable in the appropriate subject matter and skilled in how to teach it.
- Committed to the highest standards of professional ethics.
Student Outcomes
Student outcomes for the program are based on the Alaska Beginning Teacher Standards located at www.coe.uaa.alaska.edu/dtl/resources.cfm.

Admission Requirements
See the beginning of this chapter for Admission Requirements for Master's Degrees. The application deadline for the MAT is October 1 for applicants seeking spring admission and February 20 for applicants seeking summer admission. Students must apply for admission to both the University of Alaska Anchorage and the College of Education. Students are admitted and proceed through the program as a cohort. An application packet is on the website.

Applicants for the MAT degree must meet subject area requirements for a teaching endorsement.

Approved secondary (7-12) teaching endorsement areas for the MAT are:

- Business Education
- English as a Second Language
- English/Language Arts
- Family and Consumer Science
- General Science
- Mathematics
- Social Studies
- Technology Education
- World Languages (this endorsement is for a specific language)

Approved K-12 teaching endorsement areas for the MAT are:

- Music
- Physical Education

Note: Teaching endorsements must be completed in accordance with the approved standards-based Initial Endorsement Content Preparation Review on file in the College of Education.

Undergraduates interested in applying to the MAT should see a College of Education faculty advisor early in their program to ensure that subject matter courses taken to fulfill undergraduate degree requirements meet the content preparation standards required by the college's accrediting association. Additional subject matter coursework may be required before an applicant can be accepted to the MAT. Therefore, individuals with baccalaureate degrees who are considering a career change to become a teacher should see a faculty advisor at least one year before applying to the program.

Applicants are expected to have basic technology skills such as general computer use, email, word processing, Internet research, etc.

Applicants must also provide documentation to the College of Education of qualifications in the following three areas:

1. Academic preparation and demonstrated content knowledge competency in the endorsement area sought.
2. Successful experience with adolescents.
3. Dispositions for teaching, including collaborative skills, fairness, the belief that all students can learn, and the ability to work with adolescents and families from diverse backgrounds.

Admission to the program is competitive and based on a two-part review of the applicant's credentials. The first committee review is preliminary and based on the documentation submitted by the applicant. If the applicant is recommended as a strong potential candidate for admission, then an admissions interview is scheduled. Applicants' knowledge, skills and dispositions as documented in the MAT application packet and demonstrated in the admissions interview will be holistically evaluated with two exceptions:

- Passing scores on the Praxis I examination. Scores are determined by the Alaska State Board of Education and Early Development.
- Demonstrated writing ability. Because the MAT is a graduate program, and because teachers are required to communicate effectively with a wide audience, applicants must demonstrate that they are able to meet high expectations for written work.

If the candidate is recommended for admission based on the preliminary review and admissions interview, a physical examination and a background check must be passed prior to admission to the internships.

Stage I: Preliminary Review
Applicants must complete the MAT application packet available from the College of Education. It must include the following:

1. Verification of a baccalaureate with an expected minimum of a 2.75 GPA in the last 30 credits of the baccalaureate degree or subsequent graduate-level coursework. Undergraduates may apply during senior year with anticipated graduation in May.
2. Passing scores on the Praxis I, a test of basic skills in reading, writing, and mathematics. This test is also required by the state of Alaska; the Alaska State Board of Education and Early Development determines passing scores. Contact the College of Education for the passing scores.
3. Scores from the relevant content knowledge Praxis II test. Competitive scores will be at the national median or higher.
4. Demonstrated evidence of content area preparation in the teaching area for which the applicant is seeking endorsement, including the standards-based Initial Endorsement Content Preparation Review that has been signed by an appropriate College of Education faculty advisor.
5. An essay addressing questions based on the MAT program purpose and outcomes, as described in the application packet.
7. Two letters of recommendation that speak directly to the applicant's qualifications to be admitted to the MAT degree and her/his choice of teaching as a career. At least one of the letters should address the academic expertise in the endorsement area.

Stage II: Admissions Interview
8. After the preliminary review of the required application materials is completed, all applicants who are recommended as potential candidates will be interviewed by an admissions committee. Admission to the MAT degree program is competitive, and final decisions will be based upon consideration of all data. Admission to the MAT program does not guarantee an internship placement (see note under Professional Field Experiences).

Additional Requirements
Applicants accepted for admission must provide the following documents.

- A completed State of Alaska Student Teacher Certification Authorization application form. The state of Alaska requires fingerprinting and a background check prior to internships in the public schools. The College of Education requires compliance with specific background clearance policies and procedures for candidates participating in university-sponsored fieldwork. Failure to pass the criminal history background check or failure to comply with the College of Education background check requirements will result in removal from the program. More information is located at http://www.uaa.alaska.edu/coe/background.cfm.

- Documentation of a current physical examination.

Academic Progress
Students enrolled in the MAT must maintain a minimum GPA of 3.00, with no individual course grade lower than a C, or B where specified. EDFN A478 Issues in Alaska Native Education, K-12 and EDFN A649 Capstone Seminar: Inquiry in Teaching and Learning require a minimum grade of B. Courses with grades less than a C, including those used to demonstrate content knowledge on the Initial Endorsement Content Preparation Review, may not be applied to meet certification or endorsement requirements. Satisfactory progress on all standards must be demonstrated in the internship courses to remain in the program.
Graduation Requirements
See the beginning of this chapter for University Requirements for Master’s Degrees.

Teaching Endorsement and Grade Level Options
There are two grade level options in the MAT:
- Secondary Education (7-12)
- K-12

The grade level option an applicant selects is based on the teaching endorsement area.

A. Secondary Education 7-12
with a teaching endorsement in Business Education, English as a Second Language, English/Language Arts, Family and Consumer Science, General Science, Mathematics, Social Studies, Technology Education or World Languages

Program Requirements
1. Required Foundations Courses (6-9 credits)
   - EDFN A478 Issues in Alaska Native Education, K-12 3
   - EDFN A601 Foundations: Philosophy of Education 2
   - EDFN A602 Foundations: Educational Psychology 2
   - EDFN A603 Foundations: Educational History and Sociology 2

   (Career and technical education candidates may take CTE A611 Historical and Philosophical Foundations of Career and Technical Education, instead of EDFN A601 and EDFN A603)

   Notes: Minimum grade of B required in EDFN A478. With departmental approval, the above courses may be taken before formal admission to the MAT program. If EDFN A478 is taken as part of an undergraduate program, it may be waived for the MAT.

2. Required Core Courses (11 credits)
   - EDFN A647 Developing Literacies Across the K-12 Continuum 1
   - EDFN A649 Capstone Seminar: Inquiry in Teaching and Learning 2
   - EDSE A637 Inclusive Teaching and Learning in Content Area Classrooms 2
   - EDSY A630 Language, Culture, and Teaching in Secondary Schools 2
   - EDSY A644 Community of Learners in Content Area Classrooms 3
   - EDSY A648 Developing Literacies in the Secondary Content Areas 1

   Notes: Minimum grade of B required in EDFN A649.

3. Required Methods Classes (6 credits)
   Choose appropriate two-course sequence:
   - EDSY A661 General Methods for Secondary Classrooms 3
     and (select appropriate content course):
     - EDSY A663 Teaching English/Language Arts in Secondary Schools (3) or 3
     - EDSY A664 Teaching Social Studies in Secondary Schools (3) or
     - EDSY A665 Teaching Mathematics in Secondary Schools (3) or
     - EDSY A667 Teaching World Language in Secondary Schools (3) or
     - EDSY A668 Teaching English as a Second Language in Secondary Schools (3) or

   EDSY A669 Teaching Science in Secondary Schools (3) or
   CTE A643 Teaching in Career and Technical Education (3)

4. Required Field Experiences (9 credits)
   - EDFN A695 Internship (1-9) 9*
     (Career and Technical Education candidates may take CTE A695)

     *Special Note: Completion of 9 credits required for degree and certification.

5. Total credits for degree: 32-35
6. Candidates must successfully complete a comprehensive portfolio demonstrating that they have met all of the applicable standards.

B. K-12
with a teaching endorsement in Music or Physical Education

Program Requirements
1. Required Foundations Courses (6-9 credits)
   - EDFN A478 Issues in Alaska Native Education, K-12 3
   - EDFN A601 Foundations: Philosophy of Education 2
   - EDFN A602 Foundations: Educational Psychology 2
   - EDFN A603 Foundations: Educational History and Sociology 2

   Notes: Minimum grade of B required in EDFN A478. With departmental approval, the above courses may be taken before formal admission to the MAT program. If EDFN A478 is taken as part of an undergraduate program, it may be waived for the MAT.

2. Required Core Courses (10 credits)
   - EDFN A647 Developing Literacies Across the K-12 Continuum 1
   - EDFN A649 Capstone Seminar: Inquiry in Teaching and Learning 2
   - EDSE A637 Inclusive Teaching and Learning in Content Area Classrooms 2
   - EDSY A630 Language, Culture, and Teaching in Secondary Schools 2
   - EDSY A644 Community of Learners in Content Area Classrooms 3

   Note: Minimum grade of B required in EDFN A649.

3. Required Methods Classes (6 credits)
   - MUS A668A Methods for Teaching Music I, K-12 (3) 6
   - MUS A668B Methods for Teaching Music II, K-12 (3) or
   - PEP A645 Methods in Elementary Physical Education (3)
   - PEP A646 Methods in Secondary Physical Education (3)

4. Required Field Experiences (9 credits)
   - EDFN A695 Internship (1-9) 9*

     *Special Note: Completion of 9 credits required for degree and certification.

5. Total credits for degree: 31-34
6. Candidates must successfully complete a comprehensive portfolio demonstrating that they have met all of the applicable standards.

Program Options
1. Fast Track Option
   The Fast Track Option is an intensive three-semester program that allows candidates to complete the MAT as full-time students in 12 to 18 months. Candidates admitted in the fall take classes “spring-fall-spring.” Candidates admitted in the spring take classes “summer-fall-spring.” The yearlong internship is during the fall and spring semesters.
2. Two-Year Option
The Two-Year Option allows candidates to complete the MAT as part-time students over a period of 24 to 30 months. Depending on admission, candidates take the 9 credits of foundations courses either during the spring or summer semester. Beginning in the fall semester when candidates are enrolled in the core courses and/or methods courses, their schedule includes a required field experience component (internship).

3. Alternate Route to Certification Option
The Alternate Route Option is for candidates who have secured a teaching position with an Alaska school district. Generally this option is available only to those candidates in areas of teacher shortage. Candidates will complete the MAT in 24 to 30 months. Please contact the College of Education for further information about this option.

Professional Field Experiences
The Master of Arts in Teaching program includes a comprehensive internship experience in an educational setting. Internship placements are arranged and supervised by university faculty in partnership with the principal and staff from the public school. University coursework and classroom practice are closely linked and communication about performance in both the coursework and classroom practice is shared among the partners. Internships follow the K-12 school year calendar and not the university academic year calendar.

Performance in the internship must meet stated competencies and individual outcomes. Performance evaluations determine the candidate's progress toward meeting the State of Alaska Standards for Beginning Teachers, the Guidelines for Preparing Culturally Responsive Teachers for Alaska's Schools, and the International Society for Technology in Education's National Education Technology Standards and Performance Indicators for All Teachers.

It is expected that interns will demonstrate appropriate professional dispositions with respect to their actions, attitudes, and performance. Teacher candidates are required to adhere to the characteristics of professionalism as published in the MAT Program Handbook, and to abide by the State of Alaska Code of Ethics of the Education Profession. Unacceptable academic performance, an unprofessional attitude, unsatisfactory field reports, violation of professional ethics, or other factors may result in removal from the field experience and denial of the institutional recommendation for teacher certification.

Internship placements are made in partnership with participating school districts, which may request additional information and/or preparation from university candidates according to the district's established policies and practices. Because cooperating districts also determine the number of placements available for candidates, placement may become competitive if the number of applicants exceeds the number of spaces. Districts also reserve the right to refuse or terminate placements when candidates do not meet a minimum standard of performance. Thus, while the university will make every effort to identify appropriate field experiences, admission to the Master of Arts in Teaching program does not guarantee an internship placement.

Institutional Recommendation
To obtain an institutional recommendation for teacher certification, candidates must have:

1. Completed all program courses with a minimum grade of C, or B where specified;
2. Maintained a cumulative 3.00 GPA in the MAT;
3. Achieved passing scores on the Praxis I and II examinations;
4. Satisfactorily completed internships; and
5. Met all standards listed in the standards-based Initial Endorsement Content Preparation Review.

Alaska certification note: Certification is awarded by the state of Alaska through the Alaska Department of Education and Early Development (EED) in Juneau. Graduates must meet all requirements specified by EED at the time of application for certification.

Master of Education
Within the curriculum of the MEd program are several options, each with its own set of specific requirements. Each is designed to provide the student with initial or advanced preparation in professional education. Some also lead to endorsement or certification. MEd options are:

A. Counselor Education
   School Counseling (K-8, 7-12, or both)
   Community Agency Counseling

B. Early Childhood Special Education
   Principal (K-8, 7-12, or both)
   Teacher Leadership — admission suspended

C. Educational Leadership
   Principal (K-8, 7-12, or both)
   Teacher Leadership — admission suspended

D. Teaching and Learning

E. Special Education
   Special Education
   Special Education Administration — admission suspended

Professional Field Practice
Prior to permitting the candidate to enter the final stage of preparation, which is characterized in most options by participation in a practicum or internship, a faculty committee will evaluate the candidate's performance in the program. Admission into this final phase of professional preparation is a faculty decision and is separate from entry into the graduate program. Difficulties including inadequate academic performance, unprofessional behavior, unsatisfactory field reports, or other factors, may result in denial of entry to practicum or internship. Performance in practicum and internship is closely monitored, with stated minimum competencies and the development of individual objectives. Since this is the practice and application phase of professional development, it is assumed that candidates will demonstrate appropriate professional dispositions with respect to their professional actions, attitude, and performance.

The Alaska Department of Education and Early Development issues certificates/endorsements as a result of successful program completion as verified by the department chair and the dean.

Field Placements
Most College of Education graduate programs require field experiences in school or agency settings.

Criminal History Background Clearance
The College of Education requires compliance with specific background clearance policies and procedures for candidates participating in university-sponsored fieldwork and those enrolling in coursework offered at the Providence Early Learning Lab (PELL). In some cases, criminal history background clearance is required for admission to a department or program. In addition to self-disclosure of criminal history to the College of Education and its partners, a check of the Alaska and National Sex Offender Registries, a fingerprint-based check by the Federal Bureau of Investigation, and a name-based check through the Alaska Public Safety Information Network may be required. Various agencies and centers may have additional requirements.

Failure to comply with the College of Education background check requirements will result in denial of access to field placement settings or PELL. Failure to pass the criminal history background check will result in removal from the program. More information is available at http://www.uaa.alaska.edu/coe/background.cfm.

Cooperating School/Agency
Practica, internships, and other field placements are made only in cooperation with participating school districts and agencies. The school districts and agencies that work with the College of Education reserve the right to request additional information and/or preparation from candidates, in accordance with their established policies/practices. Cooperating districts and agencies also determine the number of available spaces and placements for candidates. Placements may become competitive if the number of applicants exceeds the number of spaces. Districts and agencies also reserve the right to refuse or terminate placements when candidates do not meet an acceptable standard of
performance. Thus, while the university makes every effort to find appropriate field placements for candidates, admittance to a degree/ certificate/endorsement program does not guarantee acceptance by cooperating school districts or agencies. Unacceptable academic performance, an unprofessional attitude, unsatisfactory field reports, violation of professional ethics, or other factors may result in removal from the field placement.

**Transfer**
Candidates who have taken all or part of an approved program at another university must take at least 9 credits of approved education courses at the University of Alaska prior to being admitted to an advanced practicum or internship.

**Admission Procedures**
Individuals applying to the MEd must complete both UAA's graduate application (www.uaa.alaska.edu/admissions/) and the application for the specific program in the College of Education. When all official transcripts and other required materials are received by the Office of Admissions, a copy of the applicant's file is forwarded to the College of Education and combined with the College of Education admission materials for consideration by the appropriate department. In some cases, applicants may be contacted about providing writing samples or for scheduling personal interviews with the department after their completed files are received. When all documents are received and reviewed by the department, the applicant will be notified of the department's decision.

**Admission Deadlines**
Applicant files are reviewed throughout the year. However, applications for admission need to be submitted by specific dates (July 1, November 1, and May 1) to qualify for financial aid.

**Admission Requirements**
1. Satisfy Admission Requirements for Master’s Degrees at the beginning of this chapter.
2. Hold a baccalaureate degree from a regionally accredited institution or equivalent from another country.
3. Have a GPA of 3.00 (on a 4.00 point scale) in the last 30 credits.
4. Satisfy the admission requirements as specified by the appropriate program. In general, programs require submission of a resume documenting professional experience, goal statements, and professional references. Some programs may require teacher certification. Departments may request writing samples or interviews as part of the admission process.

**Competitive Qualifications**
Applicants who meet the above criteria are considered for program admission on a competitive basis.

**Continuous Registration**
Graduate students must demonstrate continuous progress toward program completion. College of Education candidates must complete at least one approved program course during any 24-month consecutive period to maintain active status in their programs. Candidates not making continuous progress and not on an approved leave of absence (see Leave of Absence policy at the beginning of this chapter) may be removed from master’s degree-seeking status.

**Graduate Studies Plan**
An official Graduate Studies Plan must be approved before completion of more than 12 credits of coursework.

**Graduation Requirements**
Candidates completing the Master of Education degree must complete the following requirements:
1. Satisfy University Requirements for Master’s Degrees and master’s level graduation requirements at the beginning of this chapter.
2. Complete a minimum of 30 credits of approved coursework. Specific programs may require more than 30 credits. See appropriate program for credit requirements.
3. Satisfy the requirement of a comprehensive examination, comprehensive portfolio, or other scholarly work as specified by the program.

Cautionary note: Graduate courses completed prior to being admitted as a graduate student will not necessarily be applicable toward a specific graduate degree program. Since recency of credits is of concern to the candidate’s committee when developing the graduate program, coursework must be completed within a consecutive seven-year period prior to graduation in order to fulfill the requirements of the degree.

**Institutional Recommendation**
Following are the requirements for an institutional recommendation for those programs leading to a recommendation for certification or endorsement:
1. All program courses must be completed with a grade of C or higher.
2. Cumulative GPA of 3.00 in the program coursework.
3. For endorsements, all requirements for a current Teacher Certificate must be successfully met.
4. For Principal Type B Administrative Certificates, candidates must have three years of successful certificate contract experience as a teacher or special services provider (Type C). In addition, a minimum of a master’s degree is required.
5. For the Principal Type B Certificate, the MEd must be conferred.
6. For the Type F Special Education Administration Certificate, candidates must have three years of successful contract experience as a special services provider. The certificate is restricted to those candidates who hold a Type C Special Services Certificate with an endorsement in school psychology, speech-language pathology, or school counseling. In addition, a minimum of a master’s degree is required.
7. For the Type B Administrative Certificate with an endorsement in special education administration, candidates must have three years of successful certificate contract experience as a special education teacher. In addition, a minimum of a master’s degree is required.
8. Demonstration of basic computer/technology competence. See specific programs for additional information.

Note: Certification is awarded by the state of Alaska through the Alaska Department of Education and Early Development (EED) in Juneau. Graduates must meet all requirements specified by EED at the time of application for the certificate.

**Program Requirements (MEd)**
Complete one of the following courses of study:

**A. Counselor Education**
http://www.uaa.alaska.edu/coe
The MEd in Counselor Education is designed for individuals who desire initial professional preparation as counselors in public schools or community agencies. The program encompasses theory, research, and practice relating to the delivery of counseling services to children, adolescents or adults who require assistance with developmental, academic, personal, social, or career issues.

**Student Outcomes**
1. Communicate essential knowledge and understandings of the profession of counseling including an ability to integrate knowledge into personally meaningful frameworks.
2. Apply practical knowledge that is developmentally appropriate to individuals and groups.
3. Utilize assessment, research, and technology to support and improve counseling practices.
4. Show characteristics relating to effective counseling practice.
5. Create positive therapeutic environments for all clients.
6. Engage in work that meets ethical standards and legal mandates in the field of counseling.

Admission Requirements
1. See Admission Requirements for Master’s Degrees at the beginning of this chapter and Admission Requirements for Master of Education degrees at the beginning of this section.
2. Complete the Counselor Education Application (application packet can be found on the program website).
3. Submit three letters (or reference forms) of professional recommendation (see application packet for forms).
4. Provide a goal statement of approximately 500 words that contains an autobiography, career goals, and how the MEd program relates to those goals.
5. Participate in an interview, if requested.
6. Provide an additional writing sample, if requested.

Background Check Requirements
See Field Placements located at the beginning of the College of Education section of this chapter.

Program Requirements
1. Research Core (6 credits):
   - EDRS A660 Fundamentals of Research in Education 2
   - EDRS A664 Developing and Writing Literature Reviews* 2
   - EDRS A667 Program Evaluation 2
   *Must be taken within the first 12 credits of program coursework.
2. Counselor Education Core (30 credits):
   - EDCN A610 Professional and Ethical Orientation to Counseling 3
   - EDCN A613 Human Development for Helping Professionals 3
   - EDCN A614 Counseling Diverse Populations 3
   - EDCN A616 Counseling Theories 3
   - EDCN A620 Assessment in Counseling 3
   - EDCN A623 Counseling Skills and Techniques 3
   - EDCN A624 Group Counseling 3
   - EDCN A632 Lifespan Career Development 3
   - EDCN A634 Counseling Practicum 3
   - EDCN A632 Special Education Law: Principles and Practices 3
3. Choose one of two options:
   a. School Counseling
   b. Community Agency Counseling.

The School Counseling option addresses the State of Alaska Department of Education and Early Development (EED) requirements for a Type C Special Services Certificate with an endorsement in School Counseling. Both options address the academic requirements for the credential of National Certified Counselor (NCC). Additional requirements apply. See the National Board for Certified Counselor for more information: www.nbcc.org. Both options also address partial academic requirements for the credential of Licensed Professional Counselor (LPC). Candidates must have a total of 60 credits approved by the LPC Board. Additional requirements apply. See the Alaska Board of Professional Counselors website for more information: www.commerce.state.ak.us/occ/ppco.htm. Also see the Graduate Certificate in Counselor Education.

a. School Counseling (12 credits)
The School Counseling option is designed for individuals who want to work as counselors in public school settings.
   - EDCN A625 Administration and Practices in School Counseling 3
   - EDCN A633 Counseling Children and Adolescents 3
   - EDCN A695E* Counseling Internship: Elementary School (3-6) 3
   - EDCN A695S* Counseling Internship: Secondary School (3-6) 3
   Electives by Advisement 3
   *EDCN A695E Counseling Internship: Elementary School and EDCN A695S Counseling Internship: Secondary School cannot be used to fulfill elective course requirements for the degree.

Alaska certification note: The School Counseling option may lead to an institutional recommendation for a Type C Special Services Certificate with an endorsement in School Counseling. Candidates will be considered for endorsement at the elementary (K-8) or secondary (7-12) level upon completion of an internship at the appropriate level. Thus, candidates seeking institutional recommendation for grades K-12 must successfully complete internships at both elementary and secondary levels. Candidates will need additional coursework not required for the degree. EED requires approved coursework in multicultural education/cross-cultural communication and Alaska studies. The multicultural education/cross-cultural communication requirement is met through completion of EDCN A614 Counseling Diverse Populations if taken after May 2008. For a list of all approved courses, see the EED website: www.eed.state.ak.us.

b. Community Agency Counseling (12 credits)
The Community Agency Counseling option is designed for individuals who want to work as counselors in community agency settings.
   - EDCN A627 Counseling in Community Agencies 3
   - EDCN A690 Current Topics in Counseling (1-3) 3
   - EDCN A695C* Counseling Internship: Community Agency (3-6) 3
   Electives** by Advisement 3
   *EDCN A695C Counseling Internship: Community Agency cannot be used to fulfill elective course requirements for the degree.
   **Students seeking a concentration in career education counseling should choose CTE A611 Historical and Philosophical Foundations of Career and Technical Education.
4. See College of Education Graduation Requirements at the beginning of this section.
5. Successful completion of a portfolio is required.
6. Successful completion of a case study analysis is required.
7. A minimum of 48 credits is required for the degree. Note: EDRS A660 is waived for candidates entering the program with a master’s degree that included an equivalent research course. Candidates pursuing an additional master’s degree are required to take a minimum of 21 credits not used for any other previous degree. EDCN A634 Counseling Practicum and an internship (EDCN A695E/C/S) are required for all candidates seeking a master’s degree in Counseling Education. Also, coursework taken at another institution to satisfy requirements for the master’s degree must be pre-approved by an advisor in the counselor education program in order to be accepted as part of the graduate studies plan.

B. Early Childhood Special Education
http://www.uaa.alaska.edu/coe
The MEd in Early Childhood Special Education is designed for individuals who desire initial professional preparation in early intervention and early childhood special education. The program encompasses theory, research, and practice relating to children birth to 5 years of age who experience developmental delays and disabilities. In addition to the degree, this program may also lead to an institutional recommendation for initial teacher certification.
or endorsement in Early Childhood Special Education-Birth to Five on an existing certificate from the Alaska Department of Education and Early Development (EED).

Student Outcomes

Student outcomes for the program are based on the professional standards of the Council for Exceptional Children (CEC) located at www.cec.sped.org/Content/NavigationMenu/ProfessionalDevelopment/ProfessionalStandards/EthicsPracticeStandards/SpecialEdTeachers/default.htm.

Students who complete this program will be able to:
1. Apply legal and ethical policies that affect young children with developmental delays and disabilities, families, and programs for young children.
2. Use intervention strategies with young children having developmental delays and disabilities and their families that affirm and respect family, cultural, and linguistic diversity.
3. Develop and apply instructional practices based on knowledge of the child, family, community, and the curriculum.
4. Design, implement, and evaluate environments to assure developmental and functional appropriateness.
5. Assess the development and learning of young children with developmental delays and disabilities and use that information to direct intervention.
6. Critically analyze and apply principles of research in the area of early childhood special education.

Admission Requirements

1. Satisfy Admission Requirements for Master’s Degrees at the beginning of this chapter and Admission Requirements for Master of Education degrees at the beginning of this section.
2. Provide transcripts documenting a GPA of 3.00 in most recent 30 credits.
3. Submit a resume documenting educational experience and at least one year of appropriate professional experience. See department for more information.
4. Submit a goal statement on career goals and how they relate to the MEd program.
5. Submit three letters of recommendation or rating forms from professional references.
6. Participate in an interview if requested by the department.

Background Check Requirements

See Field Placements located at the beginning of the College of Education section of this chapter.

Program Requirements

This program includes courses delivered by distance. Admitted students must have the technological knowledge and skills to engage in distance learning.

1. Complete required courses (36 credits):

EDSE A681 Issues in Early Childhood Special Education 3 Electives by advisement 6

2. Complete a portfolio documenting attainment of CEC standards.
3. Take the Praxis II Special Education: Preschool/Early Childhood examination.
4. Satisfy College of Education Graduation Requirements at the beginning of this section.
5. Complete a total of 36 credits for the degree.

Alaska certification note: Prior to receiving an institutional recommendation for initial teacher certification, candidates must: a. pass the Praxis I or other EED-approved test at the level established by EED, b. successfully complete 3 credits of multicultural education/ cross-cultural communication and 3 credits of Alaska studies from the state’s approved list; and c. provide documentation of appropriate field experience in a public school setting (see advisor for details). Also, prior to advancing to the professional certificate, EED requires passing scores on the Praxis II examination for elementary teachers. EED may have additional requirements for certification/endorsement. See the EED website for more information: www.eed.state.ak.us.

C. Educational Leadership

http://www.uaa.alaska.edu/coe/programs/leadership/index.cfm

The MEd in Educational Leadership is designed for individuals seeking advanced professional preparation to become school leaders. The program specifically prepares individuals for principal or teacher leadership positions. The options include:

- Principal (with Type B certificate)
- Teacher Leadership (without Type B certificate) — admission suspended

Admission Requirements

1. Satisfy Admission Requirements for Master’s Degrees at the beginning of this chapter and Admission Requirements for Master of Education degrees at the beginning of this section.
2. Have at least one year of experience as a certificated elementary teacher, secondary teacher, or special services provider (Type C).
3. Hold a current teacher certificate or provide evidence of eligibility for an Alaska Teacher Certificate.

Student Outcomes

Student outcomes for the MEd in Educational Leadership are based on the Educational Leadership Constituent Council (ELCC) Standards for School Leaders. Students who complete the Educational Leadership degree program will be able to:

1. Facilitate the development, implementation, and monitoring of a shared vision of learning, involving all stakeholders.
2. Shape, nurture, and sustain a school culture and instructional program based on student learning and professional growth.
3. Ensure effective management of operations and resources for safe, efficient, and effective learning environment.
4. Collaborate with family and community members to mobilize community resources to respond to diverse community interests and needs.
5. Act with integrity and fairness in an ethical manner.
6. Understand, respond to, and influence the larger political, social, economic, legal, and cultural context.

a. Principal (with Type B Administrator Certificate)

Students completing this program are eligible for an institutional recommendation for an administrator certificate to serve as school principals.
Background Check Requirements
See Field Placements located at the beginning of the College of Education section of this chapter.

Program Requirements
This program includes courses delivered by distance. Admitted students must have the technological knowledge and skills to engage in distance learning.

1) Foundation Core (12 credits):
   - EDFN A636 Innovations in Teaching and Learning 3
   - EDRS A660 Fundamentals of Research in Education 2
   - Research courses by advisement 4
   - 600-level electives by advisement 3

2) Principal Core (24 credits):
   - EDL A637 Educational Leadership and Organizational Behavior 3
   - EDL A638 Instructional and Curricular Leadership 3
   - EDL A639 The Politics of Education 3
   - EDL A640 Law and Ethics in Education 3
   - EDL A641 Principal Internship (3-6) 6
   - EDL A642 Principal’s Seminar I 3
   - EDL A643 Principal’s Seminar II 3

3) Comprehensive portfolio required.

4) A total of 36 credits is required for the degree and to apply for an institutional recommendation for a Type B Administrator Certificate from the Alaska Department of Education and Early Development (EED).

   Alaska certification note: EED requires 3 credits of multicultural education/cross-cultural communication and 3 credits of Alaska studies for state licensure. See the Alaska Department of Education and Early Development website for more information: www.eed.state.ak.us.

b. Teacher Leadership
   Admission to the Teacher Leadership Option is suspended.

D. Teaching and Learning
http://coe.uaa.alaska.edu
The MEd in Teaching and Learning is designed for professionals seeking advanced studies in education. The program offers a selection of courses appropriate for individuals committed to reflecting on, refining and enhancing professional practice. Culturally responsive practice and applying that practice and theory to the Alaskan context is emphasized, particularly with respect to Alaska Native education. A comprehensive portfolio, as one element of the degree, is constructed throughout the program to document professional growth and reflective practice. Programs will be planned with an advisor to allow concentrations in particular areas of interest (e.g., Early Childhood, English for Speakers of Other Languages, Professional Development, Special Education, Research, Literacy and Teacher Leadership). Candidates may also work with faculty to co-design a program that meets their professional needs.

For those interested in or seeking certification by the National Board for Professional Teaching Standards (NBPTS), the coursework can be tailored to support candidate’s specific area of certification. Most NBPTS certification fields can be accommodated within the parameters of this master’s program. Also, for those who have already completed board certification coursework, up to nine of those approved graduate credits may be applied to the master’s degree. Candidates should contact a faculty advisor for information on this and other NBPTS options.

Student Outcomes
Student outcomes for the MEd in Teaching and Learning are informed by the American Association of Colleges for Teacher Education (AACTE) core principles, the NBPTS five core propositions, the eight Standards for Alaska Teachers and the Alaska Culturally Responsive Teaching Standards. Students who complete this program will present a comprehensive portfolio that documents their growth in the following areas:

1. Deepening subject matter knowledge for teaching
2. Understanding and using research to inform practice, strengthen skills and foster dispositions toward becoming change agents within the professional context
3. Developing leadership and facilitation skills
4. Extending and refining personal and professional resources
5. Translating theoretical ideas and concepts into culturally responsive practice.

Admission Requirements
1. Satisfy Admission Requirements for Master’s Degrees listed at the beginning of this chapter and Admission Requirements for Master of Education degrees as noted earlier in this section.
2. Complete the Department of Teaching and Learning application packet, including two letters of reference, an application essay, and transcripts documenting a minimum GPA of 3.0 in the most recent 30 credits.
3. Submit a resume documenting education or leadership experience and at least one year of appropriate professional experience; or successful completion of a teacher education program from a regionally accredited university.
4. Participate in an interview if requested by the department.

Program Requirements
1. Research (9 credits):
   - EDFN A698 Individual Research (1-3) 3
   - EDRS A660 Fundamentals of Research in Education* 2
   - Select 4 credits from the following: 4
     - EDRS A661 Data-Informed Instruction (2)
     - EDRS A662 Action Research in Education (2)
     - EDRS A663 Research Design (2)
     - EDRS A664 Developing and Writing Literature Reviews (2)
     - EDRS A667 Program Evaluation (2)

   *This required course must be completed within the first 12 credits of program coursework.
2. Professional Concentration (12 elective credits) 12
   In consultation with a faculty advisor, candidates are required to choose an approved area of concentration designed to enhance their professional expertise, then select 12 credits of coursework that maintain thematic integrity in support of the professional concentration. Examples of concentrations include courses from Mathematics, Science, English, Humanities, Business, Early Childhood, Special Education, Literacy, English for Speakers of Other Languages, Research, etc.
   Note: Concentration may include courses outside the College of Education.
3. Select nine (9) credits from the following courses that support the teaching and learning core principles
   - EDCN A613 Human Development for Helping Professionals (3)
   - EDEC A600 Contemporary Issues and Approaches in Education (3)
   - EDEC A604 Responsive Practices in Early Childhood (3)
   - EDEC A650 Leadership and Advocacy in Early Childhood (3)
   - EDFN A478 Issues in Alaska Native Education, K-12 (3)
The MEd in Special Education has two options:

a. Special Education Concentration
b. Special Education Administration Concentration — admission suspended.

a. Special Education Concentration

The MEd in Special Education with the Special Education Concentration is designed for individuals who desire advanced professional preparation in special education. The program encompasses theory, research, and practice relating to individuals who experience disabilities.

**Student Outcomes**

Student outcomes for the program are based on the professional standards of the Council for Exceptional Children (CEC) located at www.cec.sped.org.

Students who complete this program will be able to:

1. Utilize a variety of assessments to identify specific areas of student strengths and weaknesses and use the results to guide instruction.
2. Individualize instruction to meet the specific needs of students with disabilities in inclusive settings.
3. Support and promote inclusiveness and equity for students with diverse cultural and ethnic backgrounds.
4. Apply the legal and ethical principles associated with special education.
5. Promote a positive social environment for all students, particularly those with significant emotional and/or behavioral disorders.
6. Develop and maintain an atmosphere of collaboration with teachers, parents, administrators, and paraprofessionals.
7. Critically analyze and apply principles of research.
8. Demonstrate literacy regarding theoretical perspectives associated with human development and learning.

**Admission Requirements**

1. Satisfy Admission Requirements for Master’s Degrees at the beginning of this chapter and Admission Requirements for Master of Education degrees at the beginning of this section.
2. Provide transcripts documenting a minimum GPA of 3.00 in the most recent 30 credits.
3. Provide evidence of a current teaching certificate or proof of eligibility for obtaining a teaching certificate.
4. Submit a resume documenting educational experience with at least one year of appropriate professional experience.
5. Submit a 300-500 word goal statement on career goals and how they relate to the MEd program.
6. Submit three letters of recommendation or rating forms from professional references.
7. Participate in an interview if requested by the department.

**Background Check Requirements**

See Field Placements located at the beginning of the College of Education section of this chapter.

**Program Requirements**

The College of Education (COE) provides coursework through a variety of methodologies and delivery formats, including distance education. Candidates must have the technological knowledge, skills and access to engage in distance learning.

1. Complete required courses (36 credits):
   - EDRS A660 Fundamentals of Research in Education 2
   - Research courses by advisement 4
   - EDSE A622 Theories and Strategies 3
   - EDSE A633 Autism: Communication and Social Disorders 3
   - Electives by advisement 21
2. Satisfactorily complete a comprehensive examination documenting attainment of CEC standards.
3. Satisfy College of Education Graduation Requirements at the beginning of this section.
4. Complete a total of 36 credits for the degree. NOTE: EDRS A660 (2 credits) and research credits by advisement (4 credits) may be waived for candidates entering the program with a master’s degree. Candidates pursuing an additional master’s degree are required to take a minimum of 21 resident credits not used for any other previous degree. Candidates admitted or seeking admission to the M.Ed. in Special Education must receive pre-approval from their advisor prior to taking coursework from another institution intended to satisfy requirements for the master’s degree.

**Alaska certification note:** Students who already hold a teaching certificate may receive an institutional recommendation for a special education endorsement at the developmental level listed on the existing certificate. (See section on Graduate Certificate in Special Education. The certificate courses may be used to fulfill elective requirements for the MEd.) The Alaska Department of Education and Early Development (EED) requires 3 credits of multicultural education/cross-cultural communication and 3 credits of Alaska studies for the professional certificate. See the EED website for more information: www.eed.state.ak.us.
Speech-Language Affiliated Program

UAA is affiliated with two graduate schools outside Alaska to provide a master’s degree in speech-language pathology. The graduate schools offer academic coursework by distance education while UAA sponsors internships and leveling courses. Contact the project director at slp@uaa.alaska.edu for further information.

Graduate Certificates

The College of Education offers six graduate certificate programs:

1. Graduate Certificate in Counselor Education
2. Graduate Certificate in Educational Leadership: Principal
3. Graduate Certificate in Educational Leadership: Superintendent
4. Graduate Certificate in e-Learning - admission suspended
5. Graduate Certificate in Language Education: English for Speakers of Other Languages (ESOL) 7-12 Concentration
6. Graduate Certificate in Special Education.

Each program is designed to provide the student with initial or advanced preparation in professional education. With the exceptions of Counselor Education and e-Learning, successful completion of the programs leads to an institutional recommendation for a state certificate or endorsement. Admitted students must have the technological knowledge and skills to engage in distance learning.

Coursework that is applied to graduate certificates may also apply to the MEd with faculty advisor approval.

Professional Field Practice

See Master of Education section for description of requirements for admission and performance in internships.

Field Placements

See Master of Education section for description of factors affecting field placements with cooperating school districts.

Admission Deadlines

Individuals applying to the graduate certificate programs must complete UAA’s graduate application and the College of Education application. Applicant files are reviewed throughout the year. However, applications for admission need to be submitted by specific dates (June 15, November 1, and May 1) to qualify for financial aid.

Continuous Progress

College of Education graduate certificate candidates must demonstrate continuous progress toward program completion. Candidates must complete at least one approved program course during any 24-month consecutive period to maintain active status in their programs. Candidates not making continuous progress and not on an approved leave of absence may be removed from certificate-seeking status.

A. Graduate Certificate, Counselor Education

http://www.uaa.alaska.edu/coe

The Graduate Certificate in Counselor Education provides graduates of counseling programs with continuing professional preparation as counselors in public schools and community agencies. The graduate certificate program builds on the knowledge and skills acquired through previous master’s level study in counselor education and related fields.

This graduate certificate provides structured support to those seeking continuing education for maintaining current certifications or obtaining additional credentials through the Alaska Board for Professional Counselors and/or the National Board of Certified Counselors. It is designed to supplement each candidate’s existing experience and academic preparation and the degree to which each candidate achieves the program outcomes. Therefore, specific required courses are not listed since individual graduate studies plans may vary considerably based on prior coursework of each candidate. The faculty advisors will use the academic preparation requirements set forth by the licensing boards to guide the coursework selections included on the graduate studies plan.

Student Outcomes

The outcomes for the program are based on the National Board of Certified Counselors standards located at www.nbcc.org. Students who complete this program will be able to:

1. Articulate a personalized meaning of the professional and ethical issues in the counseling field.
2. Demonstrate mastery in the counseling field content areas of:
   a. Research including program evaluation
   b. Appraisal of the individual
   c. Social and cultural foundations
   d. Human growth and development
   e. Group work
   f. Career development through the lifespan
   g. Helping relationships

Admission Requirements

1. Satisfy the University Graduate Certificate Admission Requirements at the beginning of this chapter.
2. Complete the Counselor Education Application (application can be found on the program website).
3. Hold a master’s degree in counselor education or closely related field from a regionally accredited institution with a grade point average of 3.00 on a 4.00 scale.
4. Submit three letters (or reference forms) of professional recommendation (see application packet for forms).
5. Provide a goal statement of approximately 500 words that contains an autobiography, career goals, and how the certificate program relates to those goals.
6. Participate in an interview (if requested).
7. Submit a writing sample (if requested).

Graduation Requirements

1. Satisfy university Graduate Certificate Requirements found at the beginning of this chapter.
2. Complete program requirements below.

Background Check Requirements

See Field Placements located at the beginning of the College of Education section of this chapter.

Program Requirements

1. Submit all graduate transcripts to the advisor for review.
2. Collaborate with the advisor to create a Graduate Studies Plan within the first semester of program admission.
3. Complete a total of 12 – 18 selective credits of coursework as specified on the student’s Graduate Studies Plan.
4. Maintain an overall GPA of 3.00 in the program with no more than one C.
5. Submit a Professional Disclosure Statement.
6. Pass the Counselor Preparation Comprehensive Examination.

Alaska Type C Special Services Certification Note: This program does not lead to certification or endorsement from the Alaska Department of Education and Early Development. Individuals holding master’s degrees in counseling related fields who are interested in certification as an Alaska school counselor should consider applying to the MEd in Counselor Education as a second master’s degree candidate.

Alaska Licensed Professional Counselor and National Certified Counselor Note: This program addresses academic preparation requirements for the Alaska Licensed Professional Counselor (LPC) and the National Certified Counselor (NCC). Other requirements apply. Completion of the graduate
certain program does not automatically result in an LPC or NCC credential, but focuses on professional development and advanced practice for counseling professionals under the guidance of a faculty advisor. However, through advisement, candidates completing the graduate certificate program are well prepared to take the examinations and fulfill other requirements set forth by the licensing boards.

Candidates seeking the Alaska LPC credential must have a total of 60 credits approved by the Alaska Board of Professional Counselors. See their website for more information: www.commerce.state.ak.us/occ/ppco.htm.

The credential of NCC is awarded by the National Board of Certified Counselors (NBCC). See their website for more information: www.nbcc.org.

B. Graduate Certificates

Educational Leadership

Principal and Superintendent

http://www.uaa.alaska.edu/coe/programs/leadership/index.cfm

The Educational Leadership Certificate programs are designed for individuals with master’s degrees who are seeking advanced professional preparation to become principals or superintendents.

Student Outcomes

Student outcomes for these certificates are based on the Educational Leadership Constituent Council (ELCC) Standards for School Leaders. Students who complete the Educational Leadership Certificate programs will be able to:

1. Facilitate the development, implementation, and monitoring of shared vision of learning, involving all stakeholders.
2. Shape, nurture, and sustain a school culture and instructional program based on student learning and professional growth.
3. Ensure effective management of operations and resources for safe, efficient, and effective learning environment.
4. Collaborate with family and community members to mobilize community resources to respond to diverse community interests and needs.
5. Act with integrity and fairness in an ethical manner.
6. Understand, respond to, and influence the larger political, social, economic, legal, and cultural context.

Admission Requirements

1. Satisfy Admission Requirements for Graduate Certificates found at the beginning of this chapter.
2. Hold a master’s degree from a regionally accredited institution with a grade point average of 3.00 on a 4.00 scale.
3. Hold appropriate certification:
   a. Current teacher or special services provider (Type C) certificate or equivalent for Educational for Educational Leadership Certificate: Principal.
4. Provide a resume documenting educational experience including at least one year of experience as a certificated elementary teacher, secondary teacher, or special services provider (Type C).
5. Submit an educational goal statement.
6. Submit three letters of recommendation or rating forms from professional references.

Graduation Requirements

1. Satisfy Graduate Certificate University Requirements found at the beginning of this chapter.
2. Complete program requirements below.

Educational Leadership:

Graduate Certificate

Principal (K-8, 7-12, or K-8 & 7-12)

Background Check Requirements

See Field Placements located at the beginning of the College of Education section of this chapter.

Program Requirements

This program includes courses delivered by distance. Admitted students must have the technological knowledge and skills to engage in distance learning.

1. Complete required courses (24 credits):
   EDL A637 Educational Leadership and Organizational Behavior 3
   EDL A638 Instructional and Curricular Leadership 3
   EDL A639 The Politics of Education 3
   EDL A640 Law and Ethics in Education 3
   EDL A641 Principal Internship (3-6) 6
   EDL A642 Principal's Seminar I 3
   EDL A643 Principal's Seminar II 3
2. Complete portfolio documenting attainment of ELCC standards.
3. Complete a total of 24 credits for the certificate and to apply for an institutional recommendation for the Type B Administrator Certificate with a principal endorsement from the Alaska Department of Education and Early Development.

Alaska certification note: The Alaska Department of Education and Early Development requires 3 credits of multicultural education/cross-cultural communication and 3 credits of Alaska studies for state licensure. See www.eed.state.ak.us for more information.

Educational Leadership:

Superintendent (K-12)

Graduate Certificate

Program Requirements

This program includes courses delivered by distance. Admitted students must have the technological knowledge and skills to engage in distance learning.

1. Complete required courses (24 credits):
   EDL A671 Superintendent Stewardship and Systemic Change 3
   EDL A672 Student Performance: Academic and Developmental 3
   EDL A673 Human Resource Management and Labor Relations 3
   EDL A674 Public School Finance and Facilities 3
   EDL A675 Superintendent Internship (3-6) 6
   EDL A676 Superintendent Seminar I 3
   EDL A677 Superintendent Seminar II 3
2. Complete portfolio documenting attainment of ELCC standards.
3. Complete a total of 24 credits for the certificate and to apply for an institutional recommendation for the superintendent endorsement from the Alaska Department of Education and Early Development.

Alaska certification note: The Alaska Department of Education and Early Development requires 3 credits of multicultural education/cross-cultural communication and 3 credits of Alaska studies for state licensure. See www.eed.state.ak.us for more information.
Institutional Recommendation
Principal Type B Administrator Certificate or Superintendent Endorsement
Following are the requirements for an institutional recommendation. The candidates must have:
A. Completed all program courses with a grade of C or higher.
B. Received a cumulative GPA of 3.00 in the program coursework.
C. Met all requirements for a current Alaska Teacher Certificate, or Type C Special Services Certificate or equivalent from another state.
D. Acquired appropriate professional experience:
   • For Principal Type B Administrator Certificate, candidates must have three years of successful certificated contract experience as a teacher or special services provider (Type C).
   • For a Superintendent's endorsement, candidates must have five years (minimum three years as a teacher and one as an administrator) of experience.
E. Earned a master’s degree from a regionally accredited institution.
F. Demonstrated basic computer/technology competence.
G. Demonstrated mastery of the relevant standards through a professional portfolio.

C. Graduate Certificate, e-Learning
Admission to the Graduate Certificate in e-Learning (electronic learning) is suspended. See the Department of Teaching and Learning for more information.

D. Graduate Certificate, Language Education
http://www.uaa.alaska.edu/coe
The Graduate Certificate in Language Education is designed for individuals seeking advanced professional preparation to increase knowledge and skills in working with language learners. Those who teach languages in public or private settings, both in the United States and abroad, may enhance their knowledge and practice by completing this standards-based program.

English For Speakers of Other Languages (ESOL) 7-12 Concentration
The ESOL 7-12 concentration is for candidates who are seeking one of the following:
1. Institutional Recommendation for an English as a Second Language (ESL) 7-12 endorsement on a current secondary teacher certificate, OR
2. Advanced preparation in ESOL for increasing professional performance in community programs.

Student Outcomes
The student outcomes for this concentration are based on the Teachers of English to Speakers of Other Languages (TESOL)/National Council for Accreditation of Teacher Education (NCATE) Standards for P-12 Teacher Education Programs. More information about these standards may be found at www.tesol.org/. Students who complete the Graduate Certificate in Language Education will:
1. Demonstrate understanding of language as a system and demonstrate a high level of competence in helping language learners acquire and use the new language in speaking, reading, and writing for social and academic purposes.
2. Understand and apply concepts, theories, research, and practice to facilitate the acquisition of a primary and a new language in and out of classroom settings.
3. Know, understand and use the major concepts, principles, theories, and research related to the nature and role of culture in language development and academic achievement that support an individual student’s learning and apply this knowledge to improve teaching and learning.
4. Know, understand, and use knowledge of how cultural groups and students’ cultural identities affect language learning and school achievement.
5. Know, understand, and apply concepts from research and best practice to plan instruction in a supportive learning environment for language learners.
6. Understand various issues of measurement (e.g., equity, cultural and linguistic bias, political, social, and psychological factors) in assessment, IQ, and special education testing; the importance of standards; and the difference between language proficiency and other types of assessment.
7. Serve as a professional advocate and resource for language learners and the community.

Admission Requirements
1. Satisfy Admission Requirements for Graduate Certificates found at beginning of this chapter.
2. Document professional background (must meet one of the two criteria):
   a. Hold or be eligible to hold a secondary teacher certificate, OR
   b. Hold a baccalaureate degree from a regionally accredited institution or foreign equivalent and document appropriate professional experience or personal background in the field of English Language Learners (ELL). (See department for specific requirements.)
3. Provide a minimum of three references addressing the candidate’s potential for program success.
4. Submit a current resume.
5. Submit a writing sample including an educational goal statement.
6. Provide evidence of preparation in Language Analysis and Awareness - for example, coursework such as LING A201, or ENGL A475 or equivalents.

Graduation Requirements
1. Satisfy Graduate Certificate University Requirements found at the beginning of this chapter.
2. Complete program requirements below.

Background Check Requirements
See Field Placements located at the beginning of the College of Education section of this chapter.

Program Requirements
This program includes courses delivered by distance. Admitted students must have the technological knowledge and skills to engage in distance learning.
1. Complete a minimum of 12 credits beyond the baccalaureate degree. Most students will be expected to complete the following 23 to 25 credits:
   ENGL A450 Linguistics and Language Teaching 4
   ENGL A452 English Grammar and Language Teaching 4
   EDSY A630 Language, Culture, and Teaching in Secondary Schools 2
   EDSY A667A Middle/High School Second-Language Teaching I 3
   EDSY A667C Middle/High School Methods for Teaching English as a Second Language 2
   EDFN A621 Culture, Language, and Literacy 3
   EDFN A691 Current Topics in Second Language Education (1-3) 3
   EDFN A695E Internship: English for Speakers of Other Languages (ESOL) 2-4*
Graduate Programs, College of Education

8. The number of internship credits required varies based on faculty advisor evaluation and approval of prior relevant experience.
2. Meet the TESOL Standards for ESL teachers. This may require students to take additional credits beyond the minimum of 12 required for a graduate certificate.
3. Maintain an overall GPA of 3.00 in the program with no more than one C in a required course.
4. Complete a minimum of 12 credits for the certificate as well as all coursework listed on the Graduate Studies Plan. The Graduate Studies Plan is developed with a faculty advisor, who will analyze previous experience and prior coursework.

Note: As with all graduate certificates in the College of Education, coursework applied to the certificate may apply to the MEd with faculty advisor approval.

Institutional Recommendation
Following are the requirements for an institutional recommendation for an ESL endorsement:
1. Professional Teacher Certificate or equivalent with a secondary content endorsement.
2. Baccalaureate degree from a regionally accredited institution or foreign equivalent.
3. Completion of all program requirements as indicated above.

Alaska certification note: The State of Alaska Department of Education and Early Development (EED) in Juneau awards endorsements. Graduates must meet all requirements specified by EED at the time of application for the endorsement.

E. Graduate Certificate, Special Education
http://www.uaa.alaska.edu/coe

The Graduate Certificate in Special Education is designed for individuals who want to become certificated special education teachers. This program expands teaching competencies by providing the theory, knowledge, and practical experience in special education needed to serve children with disabilities and their families. Graduates of this program are eligible for an institutional recommendation for (a) an initial teaching certificate with a special education endorsement, or (b) a special education endorsement on an existing teaching certificate from the Alaska Department of Education and Early Development (EED). Students who are admitted to the Graduate Certificate in Special Education may apply to the MEd in Special Education. Courses applied to this certificate may also apply to the MEd in Special Education.

Student Outcomes
Student outcomes for the Special Education Graduate Certificate program are based on the professional standards of the Council of Exceptional Children (CEC) located at www.cec.sped.org. Students who complete this program will be able to:
1. Utilize a variety of assessments to identify specific areas of student strengths and weaknesses and use the results to guide instruction.
2. Individualize instruction to meet the specific needs of students with disabilities in inclusive settings.
3. Support and promote inclusiveness and equity for students with diverse cultural and ethnic backgrounds.
4. Apply the legal and ethical principles associated with special education.
5. Promote a positive social environment for all students, particularly those with significant emotional and/or behavioral disorders.
6. Develop and maintain an atmosphere of collaboration with teachers, parents, administrators, and paraprofessionals.
7. Critically analyze and apply principles of research.
8. Demonstrate literacy regarding theoretical perspectives associated with human development and learning.

Admission Requirements
1. Satisfy Admission Requirements for Graduate Certificates found at the beginning of this chapter.
2. Hold a baccalaureate degree from a regionally accredited institution or foreign equivalent and have appropriate experience in the field of special education. (See department for specific requirements).
3. Provide transcripts documenting a minimum GPA of 3.00 in the most recent 30 credits of academic coursework.
4. Submit a resume documenting educational experience and at least one year of appropriate, recent experience with children experiencing disabilities at the developmental level in which the special education endorsement is sought.
5. Submit an essay of 300-500 words addressing career goals and how the program relates to these goals.
6. Provide three letters of recommendation or rating forms from professional references.
7. Participate in an interview if requested by the department.

Graduation Requirements
1. Satisfy Graduate Certificate University Requirements found at the beginning of this chapter.
2. Complete program requirements below.

Concentrations
There are two concentrations within the program leading to a Graduate Certificate in Special Education. These concentrations have different entry points.

a. Certification Route I
(Special Education with Initial Teaching Certification), Graduate Certificate
Certification route I is for individuals with baccalaureate degrees who are not certificated teachers, but have professional experience in working with children with disabilities. Individuals in this concentration will need to take the Praxis II examination in a content area prior to receiving an institutional recommendation for certification.

Special Admission Requirements
1. Provide documentation of passing scores on the Praxis I or other EED-approved basic skills test.
2. Submit Interested Person Report.
3. Complete the following 15 credits of prerequisite courses with a minimum grade of B in each course. An advisor may waive one or more of the prerequisite courses if the applicant can demonstrate successful completion of an equivalent course taken at a regionally accredited institution within the consecutive seven-year period prior to graduation.
Prerequisites must be successfully completed prior to beginning the graduate-level program requirements.

Program Requirements
The College of Education (COE) allows access to coursework through a variety of methodologies and delivery formats, including distance education. Candidates must have the technological knowledge, skills and access to engage in distance learning.

Prerequisite courses must be successfully completed prior to taking the following program requirements.

1. Complete required courses (24 credits):
   - EDSE A610 Clinical Assessment: Eligibility and Program Planning 3
   - EDSE A623 Language and Literacy: Best Practices in Assessment and Intervention 3
   - EDSE A624 Social/Emotional Development, Assessment, and Intervention 3
   - EDSE A625 Teaching Mathematics to Special Learners 3
   - EDSE A634 Support and Supervision of Paraeducators 3
   - EDSE A695E Advanced Internship in Special Education: Elementary (3-6) 6
   - EDSE A695S Advanced Internship in Special Education: Secondary (3-6)

   Note: Criminal history background clearance is required before the internship. Background checks take up to five months to process, so they must be initiated well in advance of the semester in which the candidate enrolls in the internship.

2. Complete a total of 24 credits for the graduate certificate and application for an institutional recommendation for initial teacher certification with an endorsement in special education. Candidates admitted or seeking admission to the Graduate Certificate in Special Education must receive pre-approval from their advisor prior to taking coursework from another institution intended to satisfy requirements for the graduate certificate.

3. Complete a total of 24 credits for the graduate certificate and application for an institutional recommendation for a special education endorsement on an existing teaching certificate. Candidates admitted or seeking admission to the Graduate Certificate in Special Education must receive pre-approval from their advisor prior to taking coursework from another institution intended to satisfy requirements for the graduate certificate.

Institutional Recommendation
Following are the requirements for an institutional recommendation for a special education certificate or endorsement. The candidate must have:

1. Completed all applicable prerequisite courses with a minimum grade of B.
2. Completed all required courses with a minimum overall GPA of 3.00, with no grade lower than a C.
3. Earned a baccalaureate degree from a regionally accredited institution, or foreign equivalent.
4. Completed internships and professional portfolio documenting attainment of CEC standards.
5. Passed applicable examinations. For candidates in the Certification Route I, passing scores on the Praxis I, or other EED-approved basic skills examination, and the Praxis II are required. The passing scores are established by EED. Elementary special education teachers must take one of the Praxis II examinations designated for elementary teachers; middle and high school teachers must take one of the Praxis II examinations in Mathematics, English, Science, or Social Studies.

Alaska certification note: The institutional recommendation for an initial certificate with a special education endorsement (Certification Route I) will be at the level of the internship. The institutional recommendation for special education endorsement (Certification Route II) on an existing teaching certificate will be at the level of that certificate. EED may have additional requirements for certification/endorsement.

For those graduates receiving an initial certificate (Certification Route I), prior to advancing to the professional certificate, EED requires completion of 3 credits of approved Alaska studies coursework and 3 credits of approved multicultural/cross-cultural communications coursework. See the EED web site for more information: www.ceed.state.ak.us.

FACULTY

Graduate Certificate, Advanced Human Service Systems

The Graduate Certificate in Advanced Human Service Systems prepares students with a Bachelor of Human Services or related degree for a broad array of mid-level and advanced occupations within the behavioral health/community and social services clusters. Students will develop advanced knowledge and skills in program evaluation, family and community service delivery, organizational development and leadership, professional ethics and decision making, as well as current and continuing issues in human development.

Student Outcomes

Graduates of the Certificate in Advanced Human Service Systems will be able to demonstrate knowledge and skills necessary to perform organizational and human service management/practice roles using a broad array of knowledge-based skills.

Students who complete this program will be able to:

1. Demonstrate ethical leadership and decision making in human service organizations.
2. Apply management skills at multiple levels within an organization.
3. Utilize human service family and community service delivery systems to enhance the mission of their respective programs and organizations.
4. Utilize program evaluation and research techniques to accurately design and measure performance outcomes to objectively assess the effectiveness of programs in applied settings.

Admission Requirements

1. Satisfy university Graduate Certificate Admission Requirements found at the beginning of this chapter.
2. Complete a Bachelor of Human Services or equivalent degree from an accredited institution;
3. Have a cumulative undergraduate grade point average of 3.00.
4. Complete an admission application for the Graduate Certificate in Advanced Human Service Practice, including a writing sample and a barrier crimes screening.

Graduation Requirements

1. Satisfy university Graduate Certificate Requirements found at the beginning of this chapter.
2. Complete program requirements below.

Program Requirements

1. Complete core courses (15 credits):
   - HUMS A610 Program Evaluation in Applied Settings 3
   - HUMS A630 Family and Community Systems 3
   - HUMS A650 Leadership and Organizational Development in Human Services 3
   - HUMS A670 Professional Ethics in Human Services 3
2. Complete one of the following courses in human development: 3
HUMS A680 Advanced Topics in Human Development: Childhood (3)
HUMS A681 Advanced Topics in Human Development: Adolescence (3)
HUMS A682 Advanced Topics in Human Development: Adulthood and Aging (3)
EDCN A613 Human Development for the Helping Professions (3)

3. Complete one of the following elective courses: 3
   HUMS A640 Contemporary Issues in Rehabilitation (3)
   HUMS A660 Promoting Positive Development in At-Risk Youth (3)
   EDCN A614 Counseling Diverse Populations (3)
   PADM A601 Introduction to Public Administration (3)
   PADM A628 Public Financial Management (3)
   SWK A665 Comparative Group Work (3)

Other coursework may fulfill the elective requirements with the prior approval of a graduate advisor.

4. Earn an overall cumulative GPA of 3.00 or better.
5. A total of 18 credits is required for the certificate.
6. Note: Coursework in the Graduate Certificate in Advanced Human Service Systems does not fulfill the requirements for licensure as a professional counselor (AS 08.29).

Professional Studies Building (PSB), Room 103, (907) 786-4550
http://nursing.uaa.alaska.edu

Graduate studies at the master’s level place primary emphasis upon advanced professional nursing practice, theory, research, and health care delivery systems. Students may develop a specialized practice focus in Nursing Education as a family nurse practitioner or psychiatric-mental health nurse practitioner. Master’s level studies provide the student with a basis for further study at the doctoral level. The graduate program is accredited by the National League for Nursing Accrediting Commission (3343 Peachtree Road NE, Suite 500, Atlanta, GA 30326; (404) 975-5000).

Graduates in the Family Nurse Practitioner option are eligible to write the national certification examination for advanced professional practice as a family nurse practitioner. Graduates of the Psychiatric-Mental Health Nurse Practitioner option are eligible to write the national certification exam for advanced professional practice as a family psychiatric mental health nurse practitioner. Graduates of the Nursing Education option who have had two years of full-time academic teaching experience are eligible to take the NLN Certified Nurse Educator Examination.

Program Outcomes
The graduate is prepared to:

1. Engage in scholarly inquiry including evaluation and application of evidence-based research to advanced nursing practice and nursing education.
2. Practice in a manner that incorporates ethical, legal, and professional standards for advanced nursing practice education.
3. Collaborate across disciplines and in partnership with communities, groups, families and individuals through culturally sensitive practice.
4. Demonstrate competence and caring in the professional nurse role to serve as a leader, provider, and educator in the health care system.
5. Articulate a plan for self-directed, lifelong learning and professional development.

Master of Science, Nursing Science

Admission Requirements

UAA Admission Requirements
See the beginning of this chapter for Admission Requirements for Master’s Degrees. The following application submission deadlines are recommended to ensure full processing of application and transcripts:

   November 1 for March 1 applicants
   June 15 for November 1 applicants

School of Nursing Admission Requirements
Students applying to the Master of Science in Nursing Science must also submit documentation of having met the following requirements:

1. Hold a bachelor’s or a master’s degree in nursing from a program accredited by the National League for Nursing Accrediting Commission or the Commission on Collegiate Nursing Education.
2. Hold and maintain an active unencumbered Alaska State RN license throughout the program.
3. Have a minimum undergraduate (and graduate, if applicable) GPA of at least a 3.00 (B) on a 4.00 scale.*
4. Have a grade of 2.00 (C) or higher in an undergraduate research methods course and a statistics course that covers descriptive and inferential statistics.
5. Submit three letters of professional recommendation. Letter must be submitted directly to the School of Nursing from the person writing the reference. References may be contacted by a member of the admissions committee.
6. Submit the School of Nursing graduate admission application directly to the School of Nursing.
7. Complete a minimum of one year of half-time clinical experience as a registered nurse.
8. Hold and maintain an active unencumbered Alaska State RN license throughout the program.

*For students seeking a second master’s degree, the GRE is waived and only graduate GPA is considered.

The following School of Nursing application submission deadlines are required to ensure full processing of application:

   November 1 for Graduate study and/or clinical specialty
   March 1 for Graduate study and/or clinical specialty

Applicants who meet the above criteria are considered for program admission on a competitive basis. Meeting all admission criteria does not guarantee admission. Nor does prior acceptance into graduate study status guarantee admission into the clinical nursing tracks. Special consideration may be given to candidates with portfolios that document exceptional clinical experience and a proven record of professional contributions. To the extent that there are limited seats available in the program, preference may be given to residents of the state of Alaska as defined by the university’s policy on residency for tuition purposes.

Academic Progress
Students enrolled in the graduate degree program must:

   • Maintain at least a 3.00 (B) GPA in all required coursework.
   • Earn a grade of 3.00 (B) or higher in all specialty courses.
   • Receive no more than one 2.00 (C) grade in core and elective courses.
   • Earn all credits, including transfer credits within a consecutive seven-year period prior to graduation. See UAA catalog for additional information.

In addition, students in the family nurse practitioner or psychiatric-mental health nurse practitioner programs must complete additional clinical hours (2 credits) if they have not completed degree requirements within 12 months after finishing their last clinical course. For each additional year
that passes without completing degree requirements the students will need to complete an additional 2 credits of clinical. More information on this policy can be found in the School of Nursing Graduate Handbook.

Noncompliance with academic progress expectations will result in probation and possible dismissal from the program. See the Academic Good Standing Policy in the School of Nursing Graduate Handbook for more information.

Part-Time/Full-Time Study
This program is designed to be completed in six semesters of part-time study, although students can take longer. Prior to being formally admitted to graduate study, students may complete up to 9 credits of degree-applicable course-work, either UAA credit or transfer credit.

Students who are not formally admitted will be allowed to register on a space-available basis and with instructor permission.

For part-time students, admission to graduate study only is recommended, with formal admission to a specialty track being delayed until core course requirements have been completed. Enrollment in any clinical course requires formal admission to graduate study and to the specialty track.

Additional School of Nursing Requirements
All students enrolled in UAA nursing programs must provide:

- Documentation of continuous current certification in cardiopulmonary resuscitation (CPR) for adults, infants, and children;
- Evidence of satisfactory health status, including immunity to chicken pox, rubella, rubeola, and hepatitis A and B (by titer); documentation of Tdap (tetanus, diphtheria, pertussis) immunization within the past 10 years; annual PPD skin test or health examination indicating freedom from active tuberculosis; documentation of an annual HIV test (results not required); and
- The results the School of Nursing-sanctioned national-level criminal background check.

Students are required to provide their own transportation to clinical sites. They are also responsible for their portion of the cost of audio-conferencing. Students must have access to a personal computer and reasonable internet connectivity. All students are expected to have basic computer and typing skills prior to entry into the nursing program, for example:

- Word processing (preferably MS Word),
- Sending and receiving e-mail with attachments,
- Accessing and navigating the Internet/World Wide Web, and
- Basic understanding of hardware, software, and operating systems.

Scheduling of Courses
Graduate nursing courses are offered in an alternative scheduling format consisting of intensive classroom sessions presented in short time blocks on the UAA campus and/or periodic class meetings throughout the semester that are available via computer and/or audio-conference. Thus, it is possible for students who reside outside of Anchorage to take advantage of the opportunity to pursue graduate study at UAA. In addition, all students have the opportunity to take advantage of clinical learning opportunities throughout the state, including both urban and rural settings.

Graduation Requirements
See the beginning of this chapter for University Requirements for Master’s Degrees.

Program Requirements
1. Complete the following required core courses (18 credits):
   - NS A618 Role Development in Advanced Practice Nursing 2
   - NS A619 Health Policy Issues in Advanced Practice Nursing 2

2. Complete one of the following courses for a total of 4 credits taken over two semesters
   - NS A696 Individual Project (2)
   - NS A699 Thesis (2)

   *Students seeking a second master’s degree may petition to have core courses waived based on evaluation of prior graduate degree and any thesis or project done for that degree.

2. Complete one of the following options:

   Family Nurse Practitioner Option (32 credits)
   - NS A601 Advanced Pathophysiology 3
   - NS A602 Advanced Health Assessment in Primary Care 3
   - NS A610 Pharmacology for Primary Care 3
   - NS A670 Advanced Psychiatric/Mental Health Nursing I 5
   - NS A671 Advanced Psychiatric/Mental Health Nursing II 5
   - NS A672 Advanced Psychiatric/Mental Health Nursing III 5
   - NS A674 Advanced Psychiatric/Mental Health Nursing IV 5
   - Elective 3

   Psychiatric-Mental Health Nursing Option (32 credits)
   - NS A601 Advanced Pathophysiology 3
   - NS A602 Advanced Health Assessment in Primary Care 3
   - NS A610 Pharmacology for Primary Care 3
   - NS A670 Advanced Psychiatric/Mental Health Nursing I 5
   - NS A671 Advanced Psychiatric/Mental Health Nursing II 5
   - NS A672 Advanced Psychiatric/Mental Health Nursing III 5
   - NS A674 Advanced Psychiatric/Mental Health Nursing IV 5
   - Elective 3

   Nursing Education Option (24 credits)
   - NS A601 Advanced Pathophysiology 3
   - NS A602 Advanced Health Assessment in Primary Care 3
   - NS A640 Teaching and Learning in Nursing 3
   - NS A641 Curriculum Development and Evaluation 3
   - NS A643 Assessment and Evaluation in Nursing Education 3
   - NS A644 Distance Education in Nursing 3
   - NS A647 Teaching Practicum in Nursing 3
   - Elective 3

3. A total of 42-50 credits is required for the degree.

Thesis or Project Option
A total of 4 credits of either NS A696 Individual Project or NS A699 Thesis, taken over two semesters, are required for the degree. Students who are unable to complete the thesis or project after two semesters will be required to complete the graduate continuous registration procedures (at the beginning of this chapter) and pay all fees.

Students who are unable to complete the thesis or project during three semesters will be required to register for 2 credits of NS A699 Thesis or NS A696 Individual Project every semester thereafter (excluding summer sessions) until the thesis or project is satisfactorily completed. In the event a student wants to work on the thesis or project during a summer semester, utilizing faculty and UAA resources, they must get approval from their committee and register for a 1-credit independent study (P/NP). The independent study credit does not count toward the 4 required thesis or project credits. There is no limit to the number of thesis or project credits that may be accrued; however, if a year or more passes since the last clinical course additional coursework will
be required. Specific requirements for additional coursework will be determined by the chair of the Graduate Program in Nursing, the coordinator of the specialty track, and the thesis or project chair.

Nursing Graduate Certificate Programs

The nursing graduate certificate programs were designed for individuals who have previously acquired their master’s degree in nursing from a regionally accredited institution with a nursing program accredited by a nationally recognized accrediting agency (the National League for Nursing Accrediting Commission or the Commission on Collegiate Commission on Nursing Education), who wish to expand their nursing competencies or practice to include the role of a family nurse practitioner, psychiatric-mental health nurse practitioner or nurse educator.

The 15-29 credit graduate certificate curriculum builds on the student’s prior master’s degree in nursing by integrating content from that degree with theory-based advanced practice nursing courses and specialty clinical practice. To be eligible for either of the nurse practitioner graduate certificate programs, the individual must already be certified as a nurse practitioner in another specialty.

Admissions Requirements

UAA Admission Requirements

See the beginning of this chapter for Admission Requirements for Graduate Certificates. The following UAA application submission deadlines are recommended to ensure full processing of application and transcripts:

- November 1 for March 1 applicants
- June 15 for November 1 applicants

School of Nursing Admission Requirements

Students applying to the graduate certificate program must also submit documentation of having met the following requirements:

- Earned graduate degree in nursing (master’s or doctoral) from a school of nursing accredited by the National League for Nursing Accrediting Commission or the Commission on Collegiate Nursing Education.
- Graduate GPA of at least a 3.00 (B) on a 4.00 scale.

Additional requirements for students applying for the Family Nurse Practitioner or Psychiatric-Mental Health Nurse Practitioner Graduate Certificate include:

- Current active unencumbered licensure as an advanced practice nurse in the state of Alaska must be maintained.
- Documentation of national certification as an advanced nurse practitioner.

Applicants who meet the above criteria are considered for program admission on a competitive basis. Meeting all admission criteria does not guarantee admission. Prior acceptance into graduate study status does not guarantee admission into the clinical nursing tracks. Special consideration may be given to candidates with portfolios that document exceptional clinical experience and a proven record of professional contributions. To the extent that there are limited seats available in the program, preference may be given to residents of the state of Alaska as defined by the university’s policy on residency for tuition purposes.

The School of Nursing will consider applications for the graduate certificate during fall and spring semesters. Following are the deadlines for submission to ensure full consideration by the admissions committee:

- November 1: Graduate Certificate
- March 1: Graduate Certificate

Academic Progress

Students enrolled in the graduate certificate program must:

- Maintain at least a 3.00 (B) GPA in all required coursework.
- Earn a grade of 3.00 (B) or higher in all specialty courses.

- Receive no more than one 2.00 (C) grade in core or elective courses (if required).

Noncompliance with academic progress expectations will result in probation and possible dismissal from the program. See the Academic Good Standing Policy in the School of Nursing Graduate Handbook for more information.

Additional School of Nursing Requirements

All students enrolled in UAA nursing graduate certificate programs must provide:

- Documentation of continuous current certification in cardiopulmonary resuscitation (CPR) for adults, infants, and children;
- Evidence of satisfactory health status, including immunity to chicken pox, rubella, rubella virus hepatitis A and B (by titer); documentation of Tdap (tetanus, diphtheria, pertussis) immunization within the past 10 years; annual PPD skin test or health examination indicating freedom from active tuberculosis; documentation of an annual HIV test (results not required); and
- The results of the School of Nursing-sanctioned national level criminal background check.

Students are required to provide their own transportation to clinical sites. They are also responsible for their portion of the cost of audioconferencing. Students must have access to a personal computer and reasonable Internet connectivity. All students are expected to have basic computer and typing skills prior to entry into the nursing program, for example:

- Word processing (preferably MS Word);
- Sending and receiving e-mail with attachments;
- Accessing and navigating the Internet/World Wide Web; and
- Basic understanding of hardware, software, and operating systems.

Graduation Requirements

See the beginning of this chapter for University Requirements for Graduate Certificates.

Graduate Certificate, Family Nurse Practitioner

The Family Nurse Practitioner (FNP) Graduate Certificate for psychiatric nurse practitioners is designed for nurses who are already certified as psychiatric nurse practitioners. This program expands their scope of practice to assist them to acquire the theory, knowledge, and skills needed to provide primary care for families. Courses and seminars are scheduled to allow students to attend classes with content specific to expand their specialty practice to include a family scope. The curriculum includes didactic, seminar, and approximately 720 clinical hours in practicum coursework. Students who successfully complete the graduate certificate program will be eligible to take the family nurse practitioner examination offered by the American Nurses Credentialing Center (ANCC), or the American Academy of Nurse Practitioners (AANP) to become certified as an FNP. These examinations are given nationwide throughout the year.

The FNP Graduate Certificate for primary care specialties was developed for nurses who are already certified in one of the primary care nurse practitioner specialties (adult, child, or women). Students who successfully complete it will be eligible to take the family nurse practitioner examination offered by the ANCC, or the AANP to become certified as an FNP. These examinations are given nationwide throughout the year.

Graduate Certificate, Psychiatric-Mental Health Nurse Practitioner

The Psychiatric-Mental Health Nurse Practitioner (PMH) Graduate Certificate for advanced nurse practitioners is designed for nurses who are already certified as advanced nurse practitioners in fields other
than psychiatric-mental health. Students who successfully complete the graduate certificate program will be eligible to write the national certification for psychiatric mental health nurse practitioner-families offered by the ANCC. This examination is given nationwide throughout the year.

**Graduate Certificate, Nursing Education**

The specialty certificate in Nursing Education is designed for nurses who have previously acquired a minimum of a master’s degree in nursing and are seeking to develop advanced knowledge and skills in order to teach in academic or clinical settings. The coursework leading to the graduate certificate emphasizes instruction in teaching, program and course development, implementation, and evaluation.

The curriculum is based on standards for master’s education outlined in the Essentials for Master’s Education in Nursing published by the AACN (1996), as well as the newly developed Core Competencies of Nurse Educators proposed by the National League for Nursing (NLN).

All courses for this certificate will be offered using distance-delivery technologies, including but not limited to Blackboard web-based approaches, CD-ROMs, and audio-conferencing or video-conferencing as appropriate and available. Teaching practica may be completed in the student’s community, or in some cases may require visits to the UAA campus. Faculty may also validate teaching competencies through site visits and/or conference calls.

The 15-credit graduate certificate includes graduate-level coursework in nursing education with practicum opportunities in classroom and clinical settings.

**Program Requirements**

**Graduate Certificate, Family Nurse Practitioner (FNP)**

1. Complete one of the following tracks:

   **Adult Nurse Practitioner (15 credits)**

   - NS A660 Family Nurse Practitioner I 6
   - NS A661 Family Nurse Practitioner II 3
   - NS A663 Family Nurse Practitioner IV 6

   **Pediatric Nurse Practitioner (15 credits)**

   - NS A631 Family Nurse Practitioner Focus on Women’s Health and Obstetrics I 2
   - NS A635 Family Nurse Practitioner Focus on Women’s Health and Obstetrics II 2
   - NS A662 Family Nurse Practitioner III 5
   - NS A663 Family Nurse Practitioner IV 6

   **Psychiatric Mental Health Nurse Practitioner (29 credits)**

   - NS A601 Advanced Pathophysiology 3
   - NS A602 Advanced Health Assessment in Primary Care 3
   - NS A610 Pharmacology for Primary Care 3
   - NS A660 Family Nurse Practitioner I 4
   - NS A661 Family Nurse Practitioner II 5
   - NS A662 Family Nurse Practitioner III 5
   - NS A663 Family Nurse Practitioner IV 6

   **Women’s Health Nurse Practitioner (15 credits)**

   - NS A632 Family Nurse Practitioner Focus on Pediatrics I 2
   - NS A636 Family Nurse Practitioner Focus on Pediatrics II 2
   - NS A662 Family Nurse Practitioner III 5
   - NS A663 Family Nurse Practitioner IV 6

2. A total of 15-29 credits is required for the certificate.

**Graduate Certificate, Psychiatric and Mental Health Nurse Practitioner (PMH)**

1. Complete the following required courses (20 credits):

   - NS A670 Advanced Psychiatric/Mental Health Nursing I 5
   - NS A671 Advanced Psychiatric/Mental Health Nursing II 5
   - NS A672 Advanced Psychiatric/Mental Health Nursing III 5
   - NS A674 Advanced Psychiatric/Mental Health Nursing IV 5

2. A total of 20 credits is required for the certificate.

**Graduate Certificate, Nursing Education**

1. Complete the following required courses (15 credits):

   - NS A640 Teaching and Learning in Nursing 3
   - NS A641 Curriculum Development and Evaluation 3
   - NS A643 Assessment and Evaluation in Nursing Education 3
   - NS A644 Distance Education in Nursing 3
   - NS A647 Teaching Practicum in Nursing 3

2. A total of 15 credits is required for the certificate.

**HEALTH SCIENCES**

Diplomacy Building (DPL), Room 405, (907)786-6540
http://health.uaa.alaska.edu/mph

**Master of Public Health in Public Health Practice**

Public health embraces an ecological approach that recognizes the interactions and relationships among multiple determinants of health. Public health professionals typically take a community or population focus. Our graduate program prepares public health practitioners who identify and assess needs of populations; plan, implement and evaluate programs to address those needs; and otherwise assure conditions that protect and promote the health of populations. The Master of Public Health (MPH) in Public Health Practice is an interdisciplinary degree designed to provide a broad background to meet the challenges of the diverse and complex field of public health, with a particular focus on the needs of Alaska and the circumpolar north. Students with backgrounds in the natural sciences, social sciences, business, health professions, human services, business, education and law have successfully entered the field of public health at the graduate level.

Both mid-career students and recent graduates may pursue their careers with minimal disruption while working on the MPH degree, because all required courses are offered via distance format. Students are required to attend one mandatory meeting in Anchorage each year, typically in
conjunction with the Alaska Public Health Summit, and are expected to communicate frequently with their MPH academic advisor. In-person oral defense of capstone thesis in Anchorage is also expected of the student at the end of the MPH program.

This degree requires core courses in health education and behavioral sciences, environmental and occupational health, health management and policy, biostatistics, and epidemiology. It also includes coursework in research methods, program evaluation, circumpolar health issues and management of public health emergencies and disasters, as well as the opportunity to create an individualized emphasis as the foundation for the required capstone project.

**MPH Mission Statement**
The MPH in Public Health Practice program at the University of Alaska Anchorage enhances health in diverse communities across Alaska, the circumpolar north, the nation, and the world. This is accomplished through excellence in the education of public health practice leaders, scientific investigation of public health issues, and engaging communities in an organized effort to identify, assess, prevent, and mitigate community health challenges.

**MPH Program Goals**
and Program-Level Objectives
Based on national accreditation criteria and quality standards, the program goals are:

**Service**
A. To provide leadership and service to enhance public health practice at the local, state, national and international levels.
1. Provide expertise to public health agencies and organizations in the surrounding region in order to find innovative solutions to existing public health problems.
2. Promote collaboration with a variety of public and private agencies in the rural areas and the surrounding region to meet current and future public health practice needs.
3. Provide leadership to national, regional, and state public health and community health education professional organizations.

**Teaching and Research**
B. To develop an academic public health program that contributes to and helps train students and support faculty to participate in conducting and translating the growing body of knowledge to enhance the health of communities and strengthen evidence-based public health practice.
1. Support a local and global research agenda through enhanced international collaboration and increased graduate student involvement in research.
2. Increase the opportunities for students to participate in and learn from faculty-directed research designed to inform public health decision-making.
3. Facilitate qualitative, quantitative, and mixed-method research.
4. Stimulate innovative, crosscutting, interdisciplinary research (grounded in the ecological model) that will help solve public health problems.
5. Facilitate the publication and dissemination of student and faculty research.
6. Strengthen and support student and faculty capacity for conducting ethical research.

**Workforce Development**
C. To provide an instructional program that enhances public health education practice and strengthens the capacity of the existing public health workforce.
1. Conduct needs and/or asset assessments of communities or professionals in region to determine needs for workforce capacity building.
2. Conduct continuing education programs that help meet the needs determined in the assessments above.
3. Facilitate student collaboration with faculty to participate in community and continuing education.
4. Periodically evaluate the current program, student/faculty perceptions and experiences.
5. Revise or enhance courses, the program, opportunities, and resources based on an evolving body of knowledge and on results of periodic evaluations.
6. Create and/or enhance mechanisms (media, pamphlets/fliers, meetings, seminars, and others) to provide educational opportunities for education regarding ongoing and emerging public health issues, especially those based on community concerns.
7. Provide student MPH opportunities in communities to disseminate information and foster action on public health issues.

**Student Outcomes**
D. To prepare public health professionals who can demonstrate attainment of our MPH program competencies.
1. Give, solicit and receive oral, written, graphic and numerical information, taking into consideration target audience and using a variety of mechanisms in both formal and informal settings. [Competency: Communication]
2. Interact sensitively and professionally with individuals and communities with diverse characteristics. [Competency: Diversity and cultural proficiency]
3. Create and communicate a shared vision to improve the public's health.
4. Develop and champion solutions to population health challenges.
5. Demonstrate ethical choices, values and professional practices implicit in public health decisions, giving consideration to the effect of choices on community stewardship, equity, social justice and accountability, as well as to commit to personal and institutional development. [Competency: Professionalism and ethics]
6. Design, develop, implement and evaluate strategies and interventions to improve individual and community health. [Competency: Program planning and assessment]
7. Recognize dynamic interactions among human and social systems and how they affect the relationships among individuals, groups, organizations and communities. [Competency: Systems thinking]
8. Utilize biostatistics in the practice of public health. [Competency: Biostatistics]
9. Design, develop, implement and evaluate approaches for assessing, preventing and controlling environmental hazards that pose risks to human health and safety. [Competency: Environmental health]
10. Utilize epidemiological skills for informing scientific, ethical, economic, and public health policy decisions on health issues. [Competency: Epidemiology]
11. Understand the main components and issues of the organization, financing and delivery of health services and public health systems in the US. [Competency: Health policy and management]
12. Understand the role of social, behavioral and community factors in both the onset and solution of public health problems. [Competency: Social and behavioral science].

**Environment**
E. To create an environment where diverse faculty, students, and staff work collaboratively and respectfully to promote public health.
1. Maintain a diverse student body that reflects the diversity of the region we serve.
2. Maintain a student body with diverse educational and professional backgrounds.
3. Provide a multi-disciplinary, ethnically diverse, and experienced public health faculty and staff.
4. Provide students with contact and involvement with diverse communities and peoples within and outside the MPH program, that provide and/or enhance knowledge and experience.
5. Annually monitor and continually evaluate processes for recruitment and admission into the program.

Professional Program Fee
A professional program fee is required of all students in the MPH program in addition to course tuition fees, lab fees, course material fees, and student activity fees. The professional program fee is a sum equal to 50 percent of resident tuition, and is charged upon enrollment in MPH courses. The fee contributes directly to program support.

Admission Requirements
See the beginning of this chapter for Admission Requirements for Master's Degrees. In addition, students should also meet the following criteria when applying for admission to the MPH program:
1. Have earned a baccalaureate degree from a regionally accredited institution in the United States, or a foreign equivalent.
2. Have a GPA of at least 3.00 (B average on a 4.00 scale) in their baccalaureate degree.
3. Submit documentation indicating a grade of 2.00 (C or higher) in an introductory statistics course which covers descriptive and inferential statistics.
4. Provide copies of one or more substantial professional writing samples.
5. Submit an essay explaining how and why obtaining the MPH degree would contribute to the student's career goals.
6. Completed applications are reviewed twice each year. The Department of Health Sciences deadlines are March 1 for fall admission and October 1 for spring admission. UAA admission must be successfully processed before the Department of Health Sciences will consider an application complete. The UAA process may take as long as four months, so applicants are encouraged to apply to the university first and early.

Note also that:
1. To the extent that there are limited positions available in the program, preference may be given to residents of the state of Alaska as defined by the university’s policy on residency for tuition purposes.
2. Preference may also be given to applicants with two or more years work experience in the field of public health. Each applicant must submit documentation of their public health-related work experience, and a request for special consideration to the admissions committee.

Academic Progress
In order to maintain satisfactory academic progress toward the degree, a student in the MPH program is expected to complete a minimum of 6 semester credits each academic year, beginning with the first semester of enrollment. For satisfactory academic progress, the 6 semester credits may consist of prerequisite courses or program courses. Failure to comply with the 6 credit minimum each academic year may result in the student being removed from the degree program. See the beginning of this chapter for additional requirements to remain in good standing, and to maintain satisfactory academic progress toward the degree.

Candidacy Requirements
See the section Advancement to Candidacy at the beginning of this chapter.

Graduation Requirements
See University Requirements for Master’s Degrees at the beginning of this chapter.

Program Requirements
1. Complete the MPH core courses (33 credits total):
   - HS A605 Public Health and Society 3
   - HS A610 Environmental and Occupational Health 3
   - HS A615 Health Services Administration 3
   - HS/NS A625 Biostatistics for Health Professionals 3
   - HS/NS A626 Principles of Epidemiology 3
   - HS/SWK A628 Program Evaluation 3
   - HS A629 Public Health Research Tools and Methods 4
   - HS A630 Public Health Emergencies and Disasters 3
   - HS A690 Selected Topics in Public Health (1-4) 3
   - HS A699 Thesis Practicum 5
2. Complete the interdisciplinary emphasis (9 credits total):
   Three focused public health-related elective courses at the 600-level (graduate) with advisor approval. 9
3. A total of 42 credits are required for the degree.

FACULTY
Betty J. Monsour, Assistant Professor, Betty.Buchan@uaa.alaska.edu

SCHOOL OF SOCIAL WORK
Gordon Hurtlich Hall (GHH), Room 106, (907) 786-6900
www.uaa.alaska.edu/socialwork

The mission of the UAA Master of Social Work program is to prepare advanced generalist social workers who enhance human well-being and promote social and economic justice for people of all backgrounds, particularly those in Alaska. Alaska’s unique and rich multicultural populations, geographic remoteness, and frontier status allow the real potential for skilled social work professionals to make a profound impact on social and economic injustice in our state. The MSW program is accredited by the Council on Social Work Education (CSWE). The program is reviewed by CSWE for reaffirmation on a regular basis.

Based upon the mission established for the MSW program, the program goals are to prepare advanced generalist social work practitioners who are:
- Competent in multiple practice roles across client systems, particularly within the state of Alaska.
- Committed to the enhancement of human well-being.
- Committed to the promotion of social and economic justice for people of all backgrounds, particularly those in Alaska.
- Guided by the values and ethical standards of the social work profession.
- Prepared to enhance the quality of service delivery systems.
- Knowledgeable, skillful, and sensitive with people from diverse backgrounds.

MSW program admission and curriculum requirements are consistent with MSW licensing requirements in the state of Alaska. The MSW program does not grant social work course credit for life experience or previous work experience.

The MSW degree is structured to allow students to participate in full-time, part-time, or distance education plans requiring from one to four years of study, dependent upon prior academic preparation for graduate...
studies in social work. The foundation curriculum is comprised of 32 semester credits and is required for students who have not earned a baccalaureate degree in social work from an accredited program within the last seven years. The foundation curriculum is sequenced to provide professional preparation for advanced generalist social work education. All students will waive, test out, or successfully complete all courses required in the foundation curriculum of the program. Students who have earned a Bachelor of Social Work from a CSWE-accredited program within the past seven years and who are judged to be ready for advanced graduate studies may be admitted with advanced placement to the concentration curriculum. The concentration curriculum is comprised of 31 credits and is required for all MSW students. All students entering the program will have an official Graduate Studies Plan tailored to meet their own educational needs.

Master of Social Work

Admission Requirements

1. Deadline for application: January 15. This is the only application date for the year. Admission review is performed once a year following the January 15 deadline for application.
2. Submit UAA graduate application for admission with fee and meet requirements found at the beginning of this chapter.
3. Submit complete undergraduate transcripts demonstrating an earned bachelor’s degree from an accredited college or university.
4. Submit the complete MSW admissions packet, available through the School of Social Work.
5. Admission to the MSW program with advanced standing status must be exercised within seven years of receiving the BSW degree.
6. Successful completion of Departmental Honors in Social Work in the UAA BSW program earns the right to waive a regular review of an admission packet to the foundation curriculum of the Master of Social Work program. Students are responsible for completing a UAA Graduate Application for Admission and a program application for admission to the MSW program. The application packet should be submitted to the MSW Admissions Committee by the application deadline, with request to waive the regular review process. Admission to the full program will be granted if the applicant meets all of the requirements for departmental honors. Honors students interested in admission with advanced standing must apply for this status.

The MSW program reserves the right to request additional materials and/or interviews pertaining to program admission.

Liberal Arts Requirements for Admissions

The MSW program requires that all incoming students have successfully completed a baccalaureate degree in the liberal arts from an accredited institution of higher learning. The liberal arts baccalaureate should include successful coursework in the following areas:

1. Two university courses in the humanities (history, philosophy, languages, literature, or similar disciplines);
2. Two university courses in the social sciences (political sciences, sociology, anthropology, psychology, or similar disciplines; see note below concerning human development);
3. One university course in the fine arts (music, theater, art appreciation or similar disciplines);
4. One university course in oral communication;
5. One university course in written communication;
6. Two university courses in the natural sciences and/or mathematics (biology, chemistry, physics, geology, astronomy or similar disciplines; algebra, calculus, trigonometry, statistics, or similar disciplines; see notes below concerning human biology and statistics).
7. A minimum of 45 semester credits or 68 quarter credits which in total reflect the courses identified in the above list of liberal arts classes. The remaining earned academic credits can be distributed in any combination of coursework.

As part of the liberal arts preparation, the MSW program has established the following three specific prerequisites to admission: prior coursework in human biology (one course); human development over the entire life span (one course); and applied statistics (one course). The human biology and human development courses provide educational background for understanding the bio-psycho-social determinants of human behavior. The applied statistics course provides exposure to objective knowledge development. A minimum grade of C is required for each of the prerequisite courses.

Admission to the MSW degree program is based on the professional judgment of the social work faculty. Only students eligible to be licensed in the state of Alaska will be admitted to the MSW degree program. Please contact the department for further information.

Academic Progress

To maintain satisfactory progress toward the degree, a student in the MSW program is expected to achieve a GPA of 3.00 or better on a 4.00 scale, with no individual course grade lower than a C, and to adhere to the Code of Ethics of the National Association of Social Workers. Students must earn a grade of B or better in all field practicum courses (SWK A644, SWK A645, SWK A646, SWK A647, SWK A639).

Field placements may become competitive if the number of applicants exceeds the number of spaces. The program and agencies also reserve the right to refuse and/or terminate students who do not meet a minimum standard of performance. Thus, while the School of Social Work makes every effort to find appropriate field placements for students, admittance to the MSW program does not guarantee acceptance by cooperating social services agencies.

Transfer Credits

Up to 9 semester credits from a CSWE-accredited MSW program may be transferred to UAA and counted toward degree completion. Quarter credits will be converted to semester credits by multiplying quarter credits by two-thirds.

Candidacy for a Master of Social Work Degree

1. Refer to Advancement to Candidacy criteria found at the beginning of this chapter.
2. Submit the Application for Advancement to Candidacy packet available through the School of Social Work.
3. Successfully complete MSW comprehensive examination, given in the Advanced Generalist Integrative Seminar (SWK A635) during spring semester of the concentration year of the program.

Graduation Requirements

1. See the beginning of this chapter for University Requirements for Master’s Degrees.
2. Successful completion of research project (SWK A698).
3. Successful completion of all required academic coursework specified on the Official Graduate Studies Plan, with a GPA of 3.00 or better, no course grade lower than a C, and no practicum course grade lower than a B (SWK A644, SWK A645, SWK A646, SWK A647, SWK A639).

Program Requirements

The following outlines course requirements for the full-time program plan. Students admitted to the program on a part-time basis or in the distance-delivered program take from 2 to 7 credits each semester: fall, spring, and summer, for two to four years dependent upon prior academic preparation. A copy of the part-time program plan is available from the School of Social Work.

1. Foundation Curriculum: Complete, test out of, or waive the following required courses in the foundation sequence:

<table>
<thead>
<tr>
<th>Fall — Year One</th>
</tr>
</thead>
<tbody>
<tr>
<td>16 credits</td>
</tr>
<tr>
<td>SWK A630 Practice Skills Lab</td>
</tr>
<tr>
<td>SWK A631 Foundation Practice</td>
</tr>
</tbody>
</table>
SWK A632  Direct Practice I  3  
SWK A642  Human Behavior in the Social Environment  3  
SWK A643  Human Diversity in Social Work Practice  3  
SWK A644  Generalist Practicum I  3  

Spring — Year One  16 credits
SWK A607  Social Welfare Policy and Services  3  
SWK A624  Foundation Research Methods  4  
SWK A636  Community Practice  3  
SWK A645  Generalist Practicum II  3  
Graduate-level Social Work elective.  3  

2. Concentration Curriculum:

Fall — Year Two  15 credits
SWK A608  Social Policy for Advanced Generalist Practice  3  
SWK/HS A628  Program Evaluation  3  
SWK A633  Direct Practice II  3  
SWK A634  Organizational Practice  3  
SWK A646  Advanced Generalist Practicum I  3  

Spring — Year Two  16 credits
SWK A635  Advanced Generalist Integrative Seminar  3  
SWK A647  Advanced Generalist Practicum II  4  
SWK A698  MSW Research Project  3  
Graduate-level Social Work elective.  3  
Graduate-level Social Work elective.  3  

3. A minimum of 31 credits is required for the Master of Social Work degree.

A total of 6 credits of electives to pursue professional emphasis may be selected from outside the School of Social Work offerings. Only 400- and 600-level courses approved by the MSW faculty advisor and program coordinator may count toward graduate program requirements. Courses at the 500 level are not applicable toward the MSW degree requirements. No more than 3 credits at the 400 level may be counted toward the MSW degree requirements. Contact the School of Social Work for a full list of available electives and scheduled class offerings.

Research Project
All students are required to complete a research project (SWK A698) in the concentration year of study. The project is an opportunity for the student to conduct an original research project under the guidance of a faculty member. Students attend a seminar to facilitate the process. The research process includes formulating the research question, conducting a literature review, designing and conducting the study, analyzing the data, writing the research report, and disseminating the results to faculty, fellow students, and the practice community. Students are expected to comply with UAA policies and procedures for the protection of human subjects.

Graduate Certificate in Clinical Social Work Practice
The Graduate Certificate in Clinical Social Work Practice prepares MSW graduates to practice clinical social work using social work principles and methods to assist in the treatment of mental and emotional conditions of individuals, families or groups. The certificate includes the option of 30 hours of post-MSW group supervision of clinical social work practice. The 15-credit graduate certificate uses the MSW program elective sequence as a platform for developing advanced knowledge and skills for clinical social work practice and partially preparing students for licensure as a licensed clinical social worker (LCSW) in Alaska. Courses are offered on a two-year rotation, including evening, weekend and summer intensives. Group supervision courses are offered between January and December, meeting weekly for 1.25 hours. Students must be in post-MSW practice to participate in group supervision. Application deadline is November 15 for a spring semester start date.

Admission Requirements
Applicants for the Graduate Certificate in Clinical Social Work Practice must:
1. Be in the concentration year of the UAA MSW program or have completed an MSW degree from a program accredited by the Council on Social Work Education (CSWE);
2. Have a cumulative graduate grade average of B (3.00 on a 4.00 scale);
3. Provide a written summary of social work practice experience and career goals; and
4. Be eligible for licensure in Alaska.

Curriculum Requirements
Total = 15 credits:
1. Required courses (7 credits):
   SWK A663  Clinical Social Work with Children and Adolescents  2  
   SWK A651  Social Work Practice in Addictions and Mental Health  3  
   SWK A664  Clinical Social Work with Adults  2  
2. Plus completion of 8 credits from the following:  8  
   SWK A656  Treatment of Families (3)  
   SWK A672  Social Work with Families and Couples (2)  
   SWK A665  Comparative Group Work (3)  
   SWK A667  Clinical Group Therapy (2)  
   SWK A668  Group Supervision I (1)  
   SWK A670  Group Supervision III (1)  

Certificate Completion Requirements
Students enrolled in the graduate certificate program are required to complete the curriculum requirements with a cumulative GPA of 3.00 or better.

Student Outcomes
The program is designed to expand the diversity of clinical experiences and allows students to increase confidence in their clinical judgment through clinical supervision. The program provides the opportunity for students to enhance their practice skills and to mature in their professional use of self. In the program the students demonstrate their abilities to:
- Practice within the legal and ethical parameters of the profession.
- Identify clients who are at risk and intervene properly.
- Apply a variety of theories and use a variety of methods in their practice.
- Maintain integrity in all aspects of their practice.
- Define their professional stance vis-à-vis the realities of the practice environment.
- Define and accept their practice limitations.
- Develop a concept and a plan for their future professional development.

Graduate Certificate in Social Work Management
The Graduate Certificate in Social Work Management prepares MSW graduates to be managers in social service settings. Students develop advanced knowledge and skills in organizational practice, supervisory management, leadership and decision making, marketing in the social sector, financial resource development, budgeting and fiscal management. The curriculum is based on the Leadership and Management Practice Standards established by the National Network for Social Work Managers. Application deadline is November 15 for a spring semester start date.
Admission Requirements
Applicants for the Graduate Certificate in Social Work Management must:

1. Be in the concentration year of the UAA MSW program or have completed an MSW degree from a program accredited by the CSWE;
2. Have a cumulative graduate GPA of 3.00 (B average on a 4.00 scale);
3. Provide a written summary of social work practice experience and career goals.

Curriculum Requirements
Total = 15 credits:

1. MSW Required Course (3 credits):
   - SWK A634 Organizational Practice 3
2. MSW Elective Courses (12 credits):
   - SWK A654 Supervisory Management in Social Work 3
   - SWK A659 Leadership and Decision Making in Social Work 3
   - SWK A660 Financial Leadership for Social Work Administrators 2
   - SWK A661 Marketing in the Social Sector 2
   - SWK A662 Financial Resource Development for Social Services 2

Certificate Completion Requirements
Admitted students are required to complete the curriculum requirements for the graduate certificate with a cumulative GPA of 3.00 or better.

Student Outcomes
Graduates of the Graduate Certificate in Social Work Management will be able to demonstrate the knowledge and skills to perform organizational social work practice roles using multiple interventions directed at multiple levels. They will be able to:

- Demonstrate the role of leadership and decision making in social service organizations;
- Apply supervisory management skills at multiple levels within an organization;
- Integrate budget development and fiscal analysis into social services program planning;
- Utilize social sector marketing concepts to enhance the mission of their respective programs and organizations; and
- Design and implement financial resource development plans for social programs/social service agencies.

FACULTY
Mary Dallas Allen, Assistant Professor, mdallen@uaa.alaska.edu
Tracey Burke, Associate Professor, tiburke@uaa.alaska.edu
Patrick Cunningham, Associate Professor, AFPMC@uaa.alaska.edu
Janet Emerman, Clinical Professor/BSW Field Coordinator, janet@uaa.alaska.edu
Melbourne Henry, Clinical Associate Professor, melhenry@uaa.alaska.edu
Eva Kapacz, Professor/MSW Field Coordinator, AFEYK1@uaa.alaska.edu
Randy Magen, Professor, magen@uaa.alaska.edu
Chad Morse, Clinical Professor/MSW Program Coordinator, AFCEM@uaa.alaska.edu

Kathi Traurer, Assistant Professor/BSW Program Coordinator, AFKRT@uaa.alaska.edu

Chapter 12 Page 304
At the completion of this program, students are able to:

- Demonstrate ability to adapt to the ever-changing scientific, technical and professional environment, including knowledge of public policy, legislative issues, ethics and lifelong learning.
- Practice communicating effectively through the development of writing, speaking, listening, and problem-solving skills.
- Integrate efficient and effective use of techniques and tools for managing foodservice systems in a variety of situations.
- Apply knowledge and skills in medical nutrition therapy in a variety of settings.
- Design interventions to combine knowledge and skills in community nutrition that enhance health and promote wellness.
- Recognize the impact of Alaska Native culture and Alaska’s unique healthcare delivery system on the practice of dietetics in Alaska.
- Complete a technology education component using one of the following courses (3 credits):
  - EDET A637 Design of e-Learning (3)
  - EDET A638 Facilitation of Learning with Technology (3)
- Complete a component in human resources and leadership using one of the following courses (3 credits):
  - EDL A637 Educational Leadership and Organizational Behavior (3)
- Complete a technology education component using one of the following courses (3 credits):
  - EDET A637 Design of e-Learning (3)
  - EDET A638 Facilitation of Learning with Technology (3)
- Complete the following research courses (9 credits):
  - EDRS A660 Fundamentals of Research in Education (2)
  - EDRS A664 Developing and Writing Literature Reviews (2)
  - CTE A698 Individual Research (1-6) or Thesis (1-6)
- Complete 9 credits of electives jointly selected with the graduate advisor. Electives may be in a technical area.
- A total of 36 credits is required for the degree.

Sally Spieker, Term Assistant Professor, AFDDS@uaa.alaska.edu

DIETETICS AND NUTRITION
Lucy Cuddy Hall (CUD1), Room 126, (907) 786-4728
www.uaa.alaska.edu/ctc/culinary/index.cfm

Graduate Certificate, Dietetic Internship
Lucy Cuddy Hall (CUD1) 126 (907) 786-4728
www.uaa.alaska.edu/ctc/culinary/programs/dietetic

The UAA Dietetic Internship, with a concentration emphasis on Alaska Native culture and Alaska healthcare delivery systems, developmentally accredited by the Commission on Accreditation for Dietetics Education (CADE), offers the supervised practice experience required by the American Dietetic Association (ADA) to sit for the Registered Dietitian (RD) examination. The UAA Dietetic Internship offers unique experiences as it places emphasis on awareness of the cultural diversities of Alaska and how they affect the practice of dietetics.

The UAA Dietetic Internship is a highly competitive, full-time, 40-hour-per-week program. The program begins in the fall semester and runs mid-August through mid-April. The students partake of a total of 15 graduate credit hours through attending a weekly seminar at UAA and by completing their supervised practicum experience at rotation sites in Anchorage and the surrounding communities.

Program Outcomes
At the completion of this program, students are able to:

- Demonstrate ability to adapt to the ever-changing scientific, technical and professional environment, including knowledge

Admission Requirements
See the beginning of this chapter for Admission Requirements for Graduate Certificates.

Additional Departmental Admission Requirements
1. The application process adheres to the deadlines and procedures outlined by the American Dietetic Association. For the current year deadlines see the Dietetic Internship website: http://di.uaa.alaska.edu.
2. Baccalaureate degree (minimum) in dietetics or foods and nutrition.
3. Didactic Program in Dietetics Verification Statement within the past five years. Fulfill remedial education requirements (available upon request) if no coursework or work experiences in dietetics in five years prior to program admission.
4. GPA of 3.00 or higher (4.00 scale).
5. Evidence of ability and willingness to work productively (prior work or volunteer experience).
6. Current resume and three letters of recommendation (one must be from an employer and one must be from a professor or academic advisor).
8. Provide documentation of all necessary immunizations required to work in hospitals and other healthcare facilities.
9. Provide documentation of all necessary security background checks to meet state and federal requirements.
10. Provide documentation of necessary insurance coverage required to work in hospitals and healthcare facilities.
11. Acceptance into the program may become competitive if the number of applicants exceeds the number of intern spaces available. This program currently accepts four to five interns each academic year.
Graduation Requirements
See the beginning of this chapter for Graduate Certificate University Requirements.

Program Requirements
1. Complete the following courses:
   - DN A692A Seminar: Current Issues in Dietetics: Clinical and Community Nutrition 2
   - DN A692B Seminar: Current Issues in Dietetics: Community Nutrition and Foodservice Administration 1
   - DN A695C Practicum in Clinical Nutrition 4
   - DN A695D Practicum in Community Nutrition 2
   - DN A695E Advanced Practicum in Community Nutrition 2
   - DN A695F Practicum in Foodservice Administration 4
2. A total of 15 credits is required for this certificate.

FACULTY
Anne Bridges, Professor, AFABD@uaa.alaska.edu
Timothy Doebler, Director/Associate Professor, AFTWD@uaa.alaska.edu
Kendra Sticka, Term Assistant Professor, AFKDS@uaa.alaska.edu
Amanda Walch, Term Assistant Professor, AFAW01@uaa.alaska.edu

SCHOOL OF ENGINEERING
The School of Engineering offers graduate degrees in Arctic Engineering, Civil Engineering, Engineering Management, Science Management, Applied Environmental Science and Technology, and Project Management. The three engineering degree programs require a baccalaureate degree in engineering for admission while the two science degree programs require a baccalaureate degree in science as an entrance requirement. The Project Management program requires a baccalaureate degree in engineering, science, or equivalent areas. The graduate offerings of the School of Engineering are scheduled to accommodate evening students. As a result the graduate programs normally require two or more years for completion. A project or thesis may be required as a part of each graduate program within the School of Engineering.

APPLIED ENVIRONMENTAL SCIENCE AND TECHNOLOGY
Engineering Building (ENGR), Room 201, (907) 786-1900
www.engr.uaa.alaska.edu/programs/environmental

The graduate program in Applied Environmental Science and Technology (AEST) is designed for students seeking careers as environmental professionals in the academic, regulatory, industrial, military or consulting sectors. The program is interdisciplinary in nature, and encourages candidates to develop an understanding of environmental principles through advanced studies in biology, chemistry, geology, statistics and environmental engineering.

This program offers a graduate certificate and two degree options:

Graduate Certificate, Environmental Regulations and Permitting

The UAA Graduate Certificate in Applied Environmental Science & Technology (AEST) program offers a cohesive sequence of courses in key federal environmental laws and regulations and federal and state environmental permitting. The series is intended to provide specialized education to enhance the knowledge and practical understanding of environmental regulations and the permitting process. Upon completion of the certificate program, students will have specialized knowledge and skills applicable to Alaska and other areas in the United States.

Student Outcomes
Students will be able to:
1. Apply the principles and requirements of major federal environmental laws and regulations, including the National Environmental Policy Act (NEPA) and the Clean Water Act (CWA), and state laws and regulations to projects, policy changes and other applicable activities;
2. Synthesize practical challenges facing applicants, policy-makers, agency personnel and the public in working with federal and state laws and regulations;
3. Understand the environmental data needs and data management options associated with federal and state permitting requirements for proposed development projects;
4. Specify NEPA, CWA and other state and federal permitting requirements for Alaska-based projects;
5. Understand and anticipate the positions and interests of various Alaska stakeholders (including government policy-makers, agency...
personnel, industry, municipalities, nongovernmental organizations and the general public) to facilitate conflict resolution potentially encountered during the regulatory and permitting process.

**Admission Requirements and Related Graduate Certificate Policies**

See the beginning of this chapter for Graduate Certificates University Admissions Requirements. Admission to the Environmental Regulations and Permitting Graduate Certificate program requires that a student must have earned a Bachelor of Science in a science or engineering discipline from an accredited institution in the United States or a foreign equivalent.

**Graduation Requirements**

See the beginning of this Chapter for Graduate Certificates University Graduation Requirements.

**Program Requirements**

Students must complete the first three courses before they may enroll in the Environmental Permitting Project (fourth) course. Complete the following requirements (12 credits):

- **AEST A604** Environmental Law, Regulations and Permitting 3
- **AEST A605** National Environmental Policy Act 3
- **AEST A606** Clean Water Act 3
- **AEST A607** Environmental Permitting Project 3

**FACULTY**

John Olafsson, Professor, AFIAO@uua.alaska.edu
Andy Soria, Research Assistant Professor, FFJAS3@uaf.edu

**Master of Science Applied Environmental Science & Technology (MS-AEST)**

This degree is designed for those students who wish to pursue specialized advanced study and original research. The MS-AEST is excellent preparation for both the practicing professional and the doctoral candidate.

**Master of Applied Environmental Science & Technology (M-AEST)**

This is a nonthesis degree designed for students who seek to enhance their education for professional practice without having to conduct original research.

Both options promote meaningful collaboration between the students and an interdisciplinary faculty team, and both provide an excellent foundation for a career in the applied environmental fields.

**Program Objectives and Expected Outcomes**

The objective of the AEST program is to produce graduates who:

- An ability to understand and apply advanced scientific theory;
- An ability to integrate advanced technical information from different science and engineering disciplines;
- An ability to conduct advanced environmental science research (MS-AEST option only); and
- An ability to manage projects and function in a professional environment.

**Admission Requirements**

See the Admissions Requirements for Master's Degrees at the beginning of this chapter. In addition, students must meet the requirements specified below.

In order to be considered for full admission into the program, students will be able to demonstrate:

- Successful completion of a Bachelor of Science degree from a regionally accredited undergraduate program;
- A minimum undergraduate GPA of 3.00 in the natural/physical sciences or engineering;
- Successful completion of two or more consecutive semesters (or equivalent) in two of the following subject areas: chemistry, physics, biology, or geology;
- Successful completion of one or more year of calculus; and
- Satisfactory verbal and quantitative GRE scores as determined by the admissions committee. The general GRE requirement may be waived at the discretion of the admissions committee for applicants with five or more years of professional experience in environmental engineering, environmental science or a related field.

In most instances, undergraduate degrees in the physical sciences, life sciences, or engineering will provide sufficient background to meet course prerequisites. Students without the appropriate background to meet course prerequisites may be required to complete undergraduate courses that will not be applied toward the graduate degree.

Applicants not meeting the admissions requirements may be provisionally accepted at the discretion of the admissions committee. In this case, the candidate's continuation in the program after the first semester will be contingent upon successful completion of a student-specific remedial plan formulated by the admissions committee.

**Application Procedures**

All application materials must be received by the UAA Office of Admissions, per department request, by March 1 for fall admission, and October 1 for spring admission. The required application materials to be submitted to the Office of Admissions include:

- A completed UAA graduate application form;
- Official transcripts of all college-level work;
- Official GRE scores (general examination or subject-specific in a relevant subject area)

In addition, please submit to the School of Engineering:

- Three letters of recommendation from people familiar with the applicant's technical aptitude; and
- A one-page statement of the applicant's career goals.

**Beginning the Program**

Upon admission to the AEST program, students will complete the following actions:

- Meet with an academic advisor prior to the start of classes to plan coursework for the first semester of study. Academic advisors will be assigned by the admissions committee, and named in the acceptance letters sent to successful applicants;
- Select a graduate study committee (GSC) consisting of three UAA faculty members, to be chaired by the student's academic advisor. The GSC must be selected during the first semester of study; and
- Prepare a Graduate Study Plan for approval by the student's GSC by the end of the first semester of study. It is during the development of the Graduate Study Plan that the students will
Graduate Programs, School of Engineering

decide whether to pursue the MS-AEST or the M-AEST degree option. The study plan will include core competency courses and technical electives designed to meet the student’s professional or research interests. The approved study plan and any subsequent changes should be submitted to the associate dean of graduate studies of the SOE, a copy filed in the department office, and the original sent to the Office of the Registrar.

Course Requirements

Courses for the AEST program must be selected from the following list of approved courses. In order to ensure that the students achieve a balanced graduate education, at least one course must be completed with a grade of B or better in each of the core competency areas: analysis, biology, chemistry, environmental engineering, and geology. The remaining technical elective credits can be selected from any of the approved courses listed below. A minimum of 21 credits must be drawn from approved 600-level courses.

Analysis

- ESM A620 Statistics for ESM (3)
- STAT A402 Scientific Sampling (3)
- STAT A403 Regression Analysis (3)
- STAT A404 Analysis of Variance (3)
- STAT A405 Nonparametric Statistics (3)
- STAT A407 Time Series Analysis (3)
- STAT A408 Multivariate Analysis (3)
- STAT A601 Statistical Methods (3)

Biology

- BIOL A478 Biological Oceanography (4)
- BIOL A650 Advanced Microbial Ecology (3)
- BIOL A661 Advanced Molecular Biology (3)
- BIOL A677 Advanced Tundra and Taiga Ecosystems (3)
- BIOL A690 Advanced Lecture Topics in Biology (1-3)

Chemistry

- AEST A601 Aquatic Process Chemistry (3)
- CHEM A450 Environmental Chemistry (3)
- CHEM A634 Advanced Instrumental Methods (4)
- CHEM A641 Advanced Biochemistry I (3)
- CHEM A642 Advanced Biochemistry II (3)

Environmental Engineering

- AEST A602 Water Quality Management (3)
- AEST A603 Solid Waste Management (3)
- AEST A604 Environmental Law, Regulations and Permitting (3)
- AEST A605 National Environmental Policy Act (3)
- AEST A606 Clean Water Act (3)
- AEST A608 Fundamentals of Air Pollution (3)
- AEST A613 Remediation (3)
- AEST A694 Topics as approved by advisor (3)
- CE A441 Introduction to Environmental Engineering (3)
- CE A600 Fundamentals of Environmental Science and Engineering (3)
- CE A662 Surface Water Dynamics (3)
- CE A663 Ground Water Dynamics (3)
- CE A674 Waves, Tides, and Ocean Processes for Engineers (3)
- CE A677 Coastal Measurements and Analysis (3)
- CE A683 Arctic Hydrology and Hydraulic Engineering (3)
- ENVE F651 Environmental Risk Assessment (3) (UAF Online Course)*
- ENVE F652 Introduction to Toxicology for Engineers and Scientists (3) (UAF Online Course)*
- ESM A450 Economic Analysis and Operations (3)
- ESM A601 Engineers and Organizations (3)
- ESM A605 Engineering Economy (3)
- PM A601 Project Management Fundamentals (3)

Geology

- GEOL A455 Permafrost (3)
- GEOL A457 Soil Genesis and Classification (4)
- GEOL A460 Environmental Geochemistry (3)
- GEOL A475 Environmental Geophysics (3)
- GEOL A690 Graduate Topics in Geology (1-4)

Thesis

- AEST A699 AEST Thesis (1-6)

Alternate courses may be used to meet the course requirement(s) on approval by the student’s graduate committee.

*UAF courses will be considered as resident credit. It is the student’s responsibility to check the UAF Catalog for current course content and availability.

Graduation Requirements

(MS-AEST Degree)

In order to receive an MS-AEST degree, students must:

1. Satisfy all University Requirements for the Master’s Degrees listed at the beginning of this chapter;
2. Advance to candidacy prior to the beginning of the semester in which the student intends to graduate. Advancement to candidacy for the MS-AEST degree will require approval of a thesis research proposal by the graduate committee;
3. Complete 24 credits of coursework approved in advance by the student’s graduate committee, and 6 credits of thesis work approved through the advancement to candidacy process. Thesis credits are accumulated under the course number AEST A699. Once a student has successfully advanced to candidacy for the MS-AEST degree, that student may not opt to complete their degree under the nonthesis option; and
4. Satisfactorily complete an oral comprehensive examination (thesis defense) during the final semester prior to graduation.

All thesis research must meet the following requirements:

- The work must contribute to the body of knowledge in the candidate’s graduate field of study. A literature search is required to demonstrate how the work is associated with the current state of the art in the candidate’s graduate field of study.
- The thesis, as judged by the graduate committee, must be of sufficient quality to justify publication in either a peer-reviewed technical conference proceeding or a peer-reviewed journal. Publication of a manuscript in a journal or conference paper is not a requirement for graduation, but submissions will be encouraged.
- The work must demonstrate command of knowledge and skills associated with the candidate’s graduate program of study.
- The work must require a level of effort consistent with 6 credit hours (Approximately 45 to 60 hours per credit hour, 270 hours to 360 hours total).
- The thesis format must meet general UAA requirements for format as determined by the UAA Consortium Library.

The student must defend the thesis in an oral presentation to the student’s graduate committee and invited guests. The thesis defense serves as the student’s required comprehensive examination. The student may select an outside reviewer approved by the dean or designee of the program to participate in the oral comprehensive examination to assure that the examination, defense, or scholarship evaluation is fair and appropriate. The outside reviewer is a faculty member from another department in the university or other qualified individual in the area in which the student is seeking a degree.

Students who fail to pass the comprehensive examination (thesis defense) will work with their graduate advisor to develop an action plan to correct any deficiencies noted in the comprehensive examination. This action plan may require additional coursework, research and/or independent and directed study. After completing the items identified in the corrective action plan, the student will again take the comprehensive examination. Failure to pass a second time will result in dismissal from the program.
Graduation Requirements
(M-AEST Degree)
In order to receive an M-AEST degree, students must:

1. Satisfy all University Requirements for the Master’s Degrees listed at the beginning of this chapter;
2. Advance to candidacy prior to the beginning of the semester in which the student intends to graduate. Advancement to candidacy for the M-AEST degree does not require a research proposal;
3. Complete 30 credits of coursework approved in advance by the student's graduate committee; and
4. Satisfactorily complete a written comprehensive examination during the final semester prior to graduation.

When a student is within one semester of completing the course requirements, the graduate committee will administer a comprehensive examination to evaluate the candidate's knowledge of advanced environmental science principles. The examination will be developed by a graduate faculty committee and will contain questions consistent with the student's coursework areas of concentration. The student may select an outside reviewer approved by the dean or designee of the program to participate in the examination to assure that the examination is fair and appropriate. The outside reviewer is a faculty member from another department in the university or other qualified individual in the area in which the student is seeking a degree.

Students who fail to pass the comprehensive examination will work with their graduate advisor to develop an action plan to correct any deficiencies noted in the comprehensive examination. This action plan may require additional coursework, research and/or independent and directed study. After completing the items identified in the corrective action plan, the student will again take the comprehensive examination. Failure to pass a second time will result in dismissal from the program.

ARCTIC ENGINEERING
Engineering Building (ENGR), Room 201, (907) 786-1900
www.engr.uaa.alaska.edu/programs/arctic

The Arctic Engineering program is designed to provide graduate education for engineers who must deal with the unique challenge of design, construction and operations in the cold regions of the world. The special problems created by the climatic, geological and logistical conditions of the Arctic and sub-Arctic require knowledge and techniques not usually covered in the normal engineering courses. Development of petroleum and other natural resources has accentuated the demand for engineers trained in northern operations, both from private industries involved in development and government agencies planning or regulating these activities. Of primary importance is the thorough knowledge of heat transfer processes and properties of frozen ground and frozen water, which are basic to most engineering activities in the Arctic. The areas of hydraulics, hydrology, materials and utility operations are also uniquely affected by Arctic considerations.

Master of Science, Arctic Engineering
The Master of Science of Arctic Engineering requires completion of a set of core courses that will prepare an engineer to understand and adapt prior engineering knowledge and skills to problems of cold regions. The program also allows students to study advanced elective courses in a particular area of specialized interest. Research activities carried out by faculty of the UAA School of Engineering provide opportunities for project reports dealing with current Arctic knowledge. A graduate advisory committee of at least three members is appointed to guide each admitted student to degree completion. Two members must be UAA Arctic Engineering faculty members. On successful completion of the program, students will have gained sufficient knowledge to:

1. Recognize natural conditions and engineering challenges that are unique to cold regions;
2. Interpret associated specialized language and units of measure;
3. Locate, interpret, and apply public information about the physical conditions of cold regions physical;
4. Apply fundamental physical principles for solutions to common cold regions engineering problems;
5. Assess need for complex specialized Arctic engineering solutions;
6. Determine physical and thermal properties, evaluate frost heave rates, and estimate heat flow in soils; prevent foundation failure due to seasonally frozen ground or permafrost by appropriate project site exploration and design of constructed features;
7. Determine mathematical and physical properties governing heat and mass transfer in cold climates;
8. Determine temperature profiles in structure walls, roofs, and foundations, predict moisture content and mass flow rates in structures;
9. Acquire, integrate, and interpret data from public archives regarding site conditions associated with planning and design of community utility systems and formulate field measurement programs to determine site conditions for planning and design;
10. Analyze properties of lake, river, and sea ice, predict behavior of ice under natural conditions, and predict ice forces on engineering structures; and
11. Apply the sum of specialized Arctic engineering knowledge and skills gained in the program toward solution of a practical engineering problem and report this to fellow specialists.

Admission Requirements
See the beginning of this chapter for Admission Requirements for Master’s Degrees. All students admitted to the Arctic engineering program must have previously earned a baccalaureate degree in an engineering discipline with a cumulative GPA of at least 3.00. Admitted students are also responsible for completion of prerequisites for Arctic engineering program courses, which may not have been included in their undergraduate education.

Graduation Requirements
See the beginning of this chapter for University Requirements for Master's Degrees.

Major Requirements
1. Candidates must complete the following core courses (9 credits):
   - CE A603 Arctic Engineering\* 3
   - CE A681 Frozen Ground Engineering 3
   - ME A685 Arctic Heat and Mass Transfer 3

   \*Students who have completed CE A403 Arctic Engineering with a grade of C or better, or students who have passed the ES AC030 Fundamentals of Arctic Engineering or ES AC031 Introduction to Arctic Engineering before being admitted to the program must replace CE A603 with an elective, 3-credit course accepted by the student’s graduate advisory committee.

2. Candidates must also complete at least three additional courses from the following Arctic engineering program elective courses (9 credits):
   - CE A682 Ice Engineering (3)
   - CE A683 Arctic Hydrology and Hydraulic Engineering (3)
   - CE A684 Arctic Utility Distribution (3)
   - CE A688 Snow Engineering (3)
   - ME A687 Arctic Materials Engineering (3)

3. Candidates must complete additional graduate electives (9 credits) in mathematical, science or engineering subjects related to or supportive of the student's program of study, as approved by the student's advisory committee to fulfill the minimum 30-credit

University of Alaska Anchorage 2011-2012 Catalog
www.uaa.alaska.edu
Chapter 12 Page 309
degree requirement. One technical undergraduate elective course at the 400 level may be applicable with prior permission of the student’s advisory committee and provided a grade of B or better is achieved. All coursework applied toward degree requirements must be approved by the student’s advisory committee.

4. Each student must complete the following course (3 credits) after advancement to candidacy is approved by their advisory committee. Advancement to candidacy requires prior approval of a project proposal by the student’s advisory committee:

   CE A686  Engineering Project (1-6)  3

   a. The Arctic engineering project must solve a practical engineering problem to the extent that original developments by the candidate are evident in the project report.
   b. The project problem and solution must be presented in the context of the current state of the art by means of a thorough review of pertinent literature.
   c. The project must include innovative components directly involving cold regions engineering.
   d. The project must have sufficient scope to clearly demonstrate the candidate’s advanced technical expertise in cold regions engineering.
   e. The project report must demonstrate command of knowledge and skills directly associated with the candidate’s graduate program of study.
   f. The written project report, in the judgment of the candidate’s advisory committee, must be publishable in the proceedings of a cold regions engineering specialty conference.
   g. The work must require a level of effort consistent with three semester hours of credit (approximately 45 to 60 hours per credit hour or 135 to 180 hours total effort).

5. A total of 30 credits is required for the degree.

CIVIL ENGINEERING

Engineering Building (ENGR), Room 201, (907) 786-1900
www.engr.uaa.alaska.edu/programs/ce/ms

Students in the UAA Civil Engineering graduate program have two degree options from which to choose. The Master of Science in Civil Engineering (MSC) degree is designed for students who wish to pursue research-oriented occupations or to eventually pursue a PhD degree, as well as to prepare for advanced professional engineering practice. The Master of Civil Engineering (MCE) degree is designed for students who wish to further emphasize engineering practice and prefer to substitute additional classroom education for graduate research experience.

Master of Science, Civil Engineering

Program Objectives and Expected Outcomes

The objectives of the UAA MSCE program are to provide graduates with:

1. Advanced technical knowledge within one or more of the recognized sub-disciplines of civil engineering,
2. Ability to conceive and conduct an advanced research program, and
3. Ability to effectively communicate research results.

In keeping with these objectives, the expected student learning outcomes of the UAA MSCE program include:

1. An ability to use advanced methods of analysis,
2. An ability to understand advanced civil engineering theory,
3. An ability to conduct advanced civil engineering research,
4. An ability to apply advanced engineering theory to the design of civil engineering systems, and
5. An ability to work effectively within the management framework of organizations responsible for the practice of engineering.

Admission Requirements

See the beginning of this chapter for Graduate School Admission Requirements and deadlines. All students must hold a baccalaureate degree in an engineering discipline.

Advancement to Candidacy

Advancement to candidacy requires approval of a program of study and a thesis proposal following no more than 9 credit hours of coursework applicable to the degree requirements.

Graduation Requirements

In order to receive the Master of Science in Civil Engineering, students must complete 30 credits of course and thesis work approved in advance by the student’s graduate committee, of which 6 credits will be CE A699 Thesis. Students must complete at least one course in each of the core competency areas of analysis, theory, design and project management with a grade of B or better. No more than one 400-level course may be included with prior approval of the student’s graduate committee.

Analysis

MATH A422  Partial Differential Equations (3)
MATH A423  Advanced Engineering Mathematics (3)
MATH A426  Numerical Methods (3)
STAT A402  Scientific Sampling (3)
STAT A601  Statistical Methods (3)

Theory

AEST A601  Aquatic Process Chemistry (3)
AEST A608  Fundamentals of Air Pollution (3)
CE A600  Fundamentals of Environmental Science and Engineering (3)
CE A603  Arctic Engineering (3)
CE A610  Engineering Seismology (3)
CE A631  Structural Finite Elements (3)
CE A633  Structural Dynamics (3)
CE A662  Surface Water Dynamics (3)
CE A663  Ground Water Dynamics (3)
CE A674  Waves, Tides, and Ocean Processes for Engineers (3)
CE A676  Coastal Engineering (3)
CE A677  Coastal Measurements and Analysis (3)
CE A682  Ice Engineering (3)
CE A683  Arctic Hydrology and Hydraulic Engineering (3)
ME A664  Corrosion Processes and Engineering (3)

Design

AEST A602  Water Quality Management (3)
AEST A603  Solid Waste Management (3)
AEST A613  Remediation (3)
CE A605  Chemical and Physical Water and Wastewater Treatment Processes (3)
CE A606  Biological Treatment Processes (3)
CE A611  Geotechnical Earthquake Engineering (3)
CE A612  Advanced Foundation Design (3)
CE A634  Structural Earthquake Engineering (3)
CE A675  Design of Ports and Harbors (3)
CE A681  Frozen Ground Engineering (3)
CE A684  Arctic Utility Distribution (3)
ES A411  Northern Design (3)

Project Management

AEST A604  Environmental Law, Regulations and Permitting (3)
Program Requirements

Complete 30 credits of coursework approved by the student's graduate committee, of which 3 credits will be CE A686 Civil Engineering Project.

Graduation Requirements

In order to receive the Master of Civil Engineering degree, students must complete 30 credits of coursework approved in advance by the student's graduate committee, of which 3 credits will be CE A686 Civil Engineering Project. Students must complete at least one course in each of the core competency areas of analysis, theory, design and project management, as listed above, with a grade of B or better. No more than one 400-level course may be included with prior approval of the student's graduate committee.

Civil Engineering Project Requirement

Within the last 9 credits applicable to the degree, each student must complete CE A686. The Civil Engineering project must solve a practical engineering problem to the extent that original developments by the candidate are evident in the project report.

1. The project problem and solution must be explained in the context of the current state of the art by means of a thorough review of pertinent literature.
2. The project must include innovative components directly involving modern practice of civil engineering.
3. The project must have sufficient scope to clearly demonstrate the candidate's advanced technical expertise in civil engineering.
4. The project report must demonstrate command of knowledge and skills directly associated with the candidate's graduate program of study.
5. The written project report, in the judgment of the candidate's graduate committee, must be publishable in the proceedings of a civil engineering specialty conference.
6. The work must require a level of effort consistent with three semester hours of credit (approximately 45 to 60 hours per credit hour or 135 to 180 hours total effort).
7. The project proposal, submitted with the student's application to candidacy, must present evidence that the above requirements will be satisfied and will generally consist of an introduction with an explicit problem statement, a literature review, and one or more sections describing the information, research, and analytical methods to be applied.
8. The project is to be orally presented to the student's graduate committee and invited guests.

Elective Requirement

Each student must complete additional elective courses as approved in advance by the graduate committee to meet the requirement for 30 total credit hours.

Master of Civil Engineering

Program Objectives and Expected Outcomes

The objectives of the UAA MCE program are to provide graduates with:

1. Advanced technical knowledge within one or more of the recognized sub-disciplines of civil engineering.
2. Ability to conduct advanced engineering analysis and design, and
3. Ability to effectively communicate technical results.

In keeping with these objectives, the expected student learning outcomes of the UAA MSCE program include:

1. An ability to use advanced methods of analysis,
2. An ability to understand advanced civil engineering theory,
3. An ability to conduct advanced civil engineering research,
4. An ability to apply advanced engineering theory to design of civil engineering systems, and
5. An ability to work effectively within the management framework of organizations responsible for the practice of engineering.

Admission Requirements

See the beginning of this chapter for Graduation Admission Requirements and deadlines. All students must hold a baccalaureate degree in an engineering discipline.

Elective Requirement

Each student must complete additional elective courses as approved in advance by the graduate committee to meet the requirement for 30 total credit hours.

EARTHQUAKE ENGINEERING

Graduate Certificate, Earthquake Engineering

The UAA School of Engineering offers a sequence of courses leading to a Graduate Certificate in Earthquake Engineering. This certificate includes:

ESM A601 Engineers in Organizations (3)
ESM A608 Legal Environment for Engineering Management (3)
ESM A610 Cost Estimating (3)
ESM A613 Management of Technical People (3)
PM A601 Project Management Fundamentals (3)
The Engineering Management and Science Management curriculum is designed for graduate engineers and scientists who will hold executive or managerial positions in engineering, construction, industrial or governmental organizations. It includes human relations, financial, economic, quantitative, technical, and legal subjects useful in solving problems of management.

**Master of Science, Engineering Management**

**Master of Science, Science Management**

**Admission Requirements**

See the Admissions Requirements for Master's Degrees at the beginning of this chapter.

Students who are working toward the Master of Science in Engineering Management must hold a Bachelor of Science or Master of Science in an engineering discipline. Students enrolling in the Master of Science in Science Management must hold a Bachelor of Science or Master of Science in a scientific field. Students are expected to be proficient in the use of computers for word processing, spreadsheet analysis, and scientific calculations. A candidate should have had on-the-job experience in engineering or science.

**Graduation Requirements**

Students must earn a 3.00 GPA in graduate courses that are part of the program. No course included in the credits of a student's program may be counted toward another degree. A student may not repeat a course that is part of their program if they have received a C or better in that course.

**Program Requirements**

Substitutions for one or more of the courses listed below may be permitted if similar courses are included in the student's previous academic background. No more than 9 semester credits of appropriate graduate-level coursework completed at other institutions with a grade of A or B may be transferred and applied toward the total 30 credits of required and elective courses. Both substitutions and transfer of credit must be approved by the department.

1. Complete the following requirements:

   **Core Curriculum (21 credits minimum)**
   - ESM A601 Engineers in Organizations (3)
   - ESM A605 Engineering Economy (3)
   - ESM A608 Legal Environment for Engineering Management (3)
   - ESM A610 Cost Estimating (3)
   - ESM A620 Statistics for ESM or equivalent (3)
   - ESM A621 Operations Research (3)
   - PM A601 Project Management Fundamentals (PM fee) (3)

   **Elective Curriculum (6 credits minimum)**
   - Any ESM/PM/Engineering/Science/Business Administration or other graduate courses approved by the student's ESM advisor.

   **Elective Courses**
   - ESM A613 Management of Technical People (3)
   - ESM/BA A617 Technology Management (3)
   - ESM A619 Computer Simulation of Systems (3)
   - ESM A698 Individual Research (3)

2. To register for ESM A684 or ESM A699 students must have a 3.00 GPA or better in courses listed on their official Graduate Studies Plans:

   **Nonthesis Option**
   - Complete ESM A684 ESM Project.

   **Thesis Option**
   - Complete 6-9 credits of ESM A699 ESM Thesis.

   Both nonthesis option (project) and thesis option require a defense.

3. A minimum of 30 credits is required for the degree.
PORT AND COASTAL ENGINEERING

The UAA School of Engineering offers a cohesive sequence of courses in the theory and practice of port and coastal engineering. The series is intended to provide specialized education to enhance the theoretical knowledge and practical skills of graduate engineers to deal with engineering problems of the coastal zone. Upon completion of the certificate program, students will have specialized knowledge and skills applicable in all the coastal zones and oceans of the world.

Student Outcomes

Abilities to:

1. Characterize oceans, seas and estuaries in terms of physical dimensions, sediments, water chemistry, major wind patterns and currents, and wave climate;
2. Plan and design port and harbor features suited to demands of vessels and cargo transfer operations and to local oceanographic and nearshore conditions;
3. Define nearshore coastal processes in terms of wind, wave and current climates and their interaction with sediments and local features of the shoreline;
4. Quantify natural physical processes or human activities responsible for coastal erosion, and design shore protection works suited to the local environmental setting; and
5. Accomplish oceanographic and engineering data collection, including water level measurements and hydrographic surveys, analyze data, and interpret analytical results to define nearshore bathymetry, waves, tides and coastal processes.

Graduate Certificate, Port and Coastal Engineering

Admission Requirements and Related Graduate Certificate Policies

See the beginning of this chapter for Graduate Certificate University Requirements.

Admission to the Port and Coastal Engineering Graduate Certificate program requires that a student must have earned a Bachelor of Science in an engineering discipline from an ABET, Inc.-accredited institution in the United States or a foreign equivalent.

Graduation Requirements

See the beginning of this chapter for Graduate Certificates University Requirements.

Program Requirements

Complete the following three courses and one of two alternative fourth courses, as noted (12 credits).

- **CE A674** Waves, Tides, and Ocean Processes for Engineers 3
- **CE A675** Design of Ports and Harbors 3
- **CE A676** Coastal Engineering 3
- **CE A677** Coastal Measurements and Analysis (3) 3
- **GEO A433** Hydrographic Surveying (3)

A student who earns the Port and Coastal Engineering Graduate Certificate may apply up to 9 credits from the certificate program toward other graduate degrees at UAA.

PROJECT MANAGEMENT

University Center (UC), Room 155, (907) 786-1924
www.uaa.alaska.edu/espm

Project management has become essential in virtually all areas of business and industry, including engineering, construction, oil and gas, mining, communications, health care, information technology, utilities, education, military, government, transportation, retail and other sectors. While acknowledging and encouraging the application of project management skills and approaches in all these areas, the Master of Science in Project Management will concentrate on technology-driven projects.

The program is organized around the nine knowledge areas defined in the Project Management Body of Knowledge (PMBOK® Guide), a globally recognized standard for managing projects in today's marketplace. The PMBOK® Guide is approved as an American National Standard (ANS) by the American National Standards Institute (ANSI). Students completing the program will be fully trained to plan and execute engineering and technology projects and to meet user requirements.

Master of Science, Project Management

Admission Requirements

See the Admissions Requirements for Master’s Degrees at the beginning of this chapter.

Admission to the graduate program in project management is offered to applicants who provide sufficient evidence that they meet the requirements for study at an advanced level. Applicants must meet the minimum admissions requirements of the University of Alaska Anchorage. In addition, an entering master’s student will normally have:

1. Earned at least a bachelor’s degree in engineering, science, or equivalent areas (as agreed to by the department chairman), from an accredited university with a minimum of a B average in the last two years of undergraduate work.
2. Completed an undergraduate statistics course with a B or better.
3. Become proficient in the use of computers for word processing and spreadsheet analysis.
4. Completed a minimum of two years of appropriate project management experience in a science or engineering related field.
5. Obtained three letters of recommendation from professors, former or current employers or supervisors who are familiar with the applicant's work experience.
6. Provided a statement of professional career objectives related to the study of project management.
Graduation Requirements
The University Requirements for Master's Degrees must be met along with the program requirements that follow.

Program Requirements
1. Complete the following requirements (33 credits):

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
